All along we have noticed that good people love to receive all good things, but when it comes to sharing, all are a bit hesitant to do this, so this time a new way is given to share the good new energy of New Love. It will start slowly with each individual and then spread like wildfire to all good people.

Sharing is the best way to enjoy everything on good earth, be it pleasure or pain. With sharing, everything is solved easily and perfectly. God Almighty loves you all, so be blessed with this good book of sharing of New Love.

Sharing of New Love is to share it with all good people in a good and correct way. As we share our worldly goods, we too should share our spiritual goods and knowledge given to us by God Almighty Himself by spreading the energy of New Love and sharing it with all good people, so that they too can use it well to progress themselves and good earth. Get it first and then spread it to all in a very good way so that it spreads to all corners of the earth. The world needs this new way of living which will bring mankind together in a very good way. Start sharing all good things and you will see how easy its magic will work with all good people. We love this idea of sharing, so start this process now and enjoy the benefits it will bring to all good people.

Sooner or later, the world will come to a stage where sharing will be the only way to progress as no one person can acquire everything and be selfish. The good way is to share everything with all, so that the world benefits from each person's input and all are made available to the good knowledge of the powers of the energy of New Love and so they all can work well together. Just imagine a world where there is only love, peace and harmony and this energy flows with each person on earth. It will transform earth into a wonderful place like the heavens, where all good things and good thoughts flourish and all good people strive to live as one good people of good earth. Make this dream a reality by spreading this knowledge of New Love to all good people by this good book and be blessed by God Almighty forever.

Sharing of New Love is a new term given, so that all can understand the importance of sharing well. It's like sharing everything you have at present, but now sharing of New Love also means sharing love, peace and harmony all together with others. It's like a whole new way of sharing, as the person receiving this will also get the full benefit of New Love. All the good vibrations created by this will be vast and will help the person receiving this tremendously. They too will increase their level of vibrations and this in turn will create more good vibrations on good earth each time this sharing takes place. Pretty soon the earth will increase its vibrations to a great extent which will not allow any evil to be participating at any level, thus evil on earth will slowly be pushed away and once gone from earth will never be able to return, as the good vibrations on earth just will not allow this to happen. So you can now

understand how important it is to share this valuable gift you have with others. Keep on adding this to your armour each day so that your protection levels too increase with each passing day. Increase the love, peace and harmony within you each day, so that when the time to share it comes, the energy released will be greater and greater with each passing day. Gone are the days of sadness and fear and misery. A whole new chapter will begin in good people by this energy of New Love and by its working and then sharing, the world will finally be a wonderful place to live in. Share this message well with all good people of good earth.

The word share means to spread and use it to spread to all in a good way, so share everything well and you will soon realise that it's the best way to be at peace and harmony with all. Share your good thoughts, your good deeds, your good blessings, your good work etc. etc. Sharing means that all will get the benefit of this freely, so they too then will start sharing their good thoughts, deeds, work etc etc. - thus this way, the sharing will enable all to receive the good things present on earth with all, and even in the most remote part of earth, this sharing will be well received. The good thoughts will be floating around all when you share and similarly the good prayers you pray will be listened to by all good angels and the benefit of these too will be shared by all good people. For example, when you pray, *"God please give good thoughts to all good people"* - then this simple prayer will enable all good angels to give good thoughts to their loved ones on earth and in this way the good thoughts will be shared and made available to all. Good people will have the ability to pick up these thoughts and they can create new ideas and creations which can greatly help many more, so sharing is the perfect way of spreading good thoughts and ideas and inventions to all good people. Even the plants and animals get the benefit of this, as good inventions will also make life easier for them on earth as well as new ways of growing plants. Food will be shared to all good people, so the world will become better & better with each passing day. It will be a great effort by all living on earth to share everything freely so that all living souls and creatures will benefit well. Blessed are the ones who can do this easily and spread joy to all mankind.

Energy of New Love is the most powerful energy of God Almighty's own love - it will spread to good people perfectly, once the work of New Love is started and then spread to all good people. Its miracle will only work when all people learn to live with this good powerful energy. Good people will always get good thoughts to get this energy within them as soon as they can, but it will take a bit of time, as all the negativity within one's self has to be removed completely and this is no easy task as explained in the other books. Identify each weak point you have and make a list of them and tick them off one by one as soon as you are strong enough to destroy them completely. Once a few of these are ticked off, the rest will get much easier to conquer and destroy. Ask of all good angel's help when you are doing this and you will get help and guidance and good thoughts on how to overcome these few bad points and negativity you have within you. Work well and soon you will be able to achieve them well within your control if you cannot destroy them completely. The work of New Love has started now and soon it will spread and then the sharing of New Love will take place, once many can achieve ways to imbibe it well within

themselves. God's own angels will be with those trying hard to achieve this, so please take up this task and finish well.

We love all good people and want them to complete this God's work well. Everyone will have to achieve this sooner or later, so the sooner you start, the better for you and your family. Ask all in the family to take up this good work and be blessed by God Almighty once achieved well. We love all good people of good earth and want all of them to progress well with all our good help. Here too the sharing of New Love will help all those who have started and progressed well, as the energy of New Love will get powered each time it is achieved by each person, so the overall vibrations of that person will add to all the harmonic vibrations of good earth and so these vibrations will help others to succeed too, as the better the vibrations of earth, the better it is to destroy all negativity within you. Start and finish well all good people and a wonderful era awaits you all. God Almighty blesses all good people who are reading this and starting their good journey of New Love.

The good book of sharing of New Love will be spread to good people in a very good way. As soon as people read this book after reading the first two books, The good book of New Love and The good book of working of New Love, will they understand what the energy of New Love really means, as this energy is so good and pure that it will bring mankind to its highest level, which will return mankind as God wished to be on this good earth. The man created by God Almighty was supposed to be full of love, peace and harmony and it was prevalent on earth, but soon after evil penetrated this good way of living, everything changed, and man is no longer in charge of himself but has become attached to all bad things and bad attractions. He indulges in petty pleasures which are only there for some time and does not understand what true love means. Hence it is very necessary for mankind to read and learn what is expected from them. They should realise what a good opportunity they have to live on earth and be blessed with all the pleasures that the earth has given and not the evil pleasures, which are only taking them further and further away from God and His angels. By reading, understanding and following what is given in these books, mankind will now realise the mistakes done and will be able to take charge of themselves, once they learn to acquire this energy of New Love. This will have to be achieved by man himself. No one can help him, only good God Almighty and angels can give him good thoughts and protection if asked by man and then he will be able to progress in a good perfect way.

Share this book freely to all mankind and we will help all to achieve this energy of New Love well. Everyone will slowly come to this good banner of good people of good earth and the era of New Love will finally rule over earth.

We are all waiting for the good sharing of New Love to take place on earth. All good ideas and inventions will be shared freely, so that all good people can receive these well. New energies will be soon discovered, which will protect earth's precious resources and these in turn will be spread to all good people. New energies will be cheap and easy to make and will be useful to all, even in the most remote part of earth. Earth needs to recover from the damage done by mankind and so this way it

will also be rested and made strong with the good new energies and inventions. Many people will come up with good ideas on how to progress mankind and earth together and so a common platform will help all to pool in their ideas and then share them will all. Great thoughts will come out of this and then the people will slowly learn to share all their knowledge with others. Good thoughts, good ideas, good inventions and good people, all are blessed to do this easily with all our good help. Share share share and we all will enjoy the benefits of these.

The good book of sharing of New Love will be given in a most unique way, meaning, its effects will be felt by people after they step up their levels of love, peace and harmony. All have to achieve all of these three elements, without which most things cannot take place, so all will have to imbibe all these elements well within them and then work well with them and only then will they be able to spread it, so it will take a lot of time for each individual to achieve this and so throughout these three phases, you will help all to achieve it well, by explaining this in your good books, so keep on explaining well, so that all are motivated to take up this good work of God Almighty quickly and achieve it too perfectly. Spread the work of New Love and be blessed by God Almighty always.

Sharing is another way of caring for all. If you love someone, you will always share and care for them. Only people who can really love others can do this well, so always love all with all your heart and soul and then shower them with all your love too. We want many people to start loving all good people and share all their good spiritual knowledge with them, so that they too can share with many others. Once the world comes to a stage where everything is shared freely, a new era of New Love will rule over earth and earth will be like the heavens forever. God blesses this good book now, so be blessed to share it well with all good people.

A good book of New Love. A perfect book of working of New Love. A never-ending book of sharing of New Love. Be blessed good people of good earth with these good messages of good books of New Love.

The good book of sharing of New Love will be completed now with this good prayer.

"God Almighty please bless all good people reading this book and bless them in their good journey of New Love."
