

Good Information That The Good Heavens Want To Offer.

1. Please all you good people of this good Earth please be blessed with all the good information that we are now giving. So, please do be aware that never in the past so much information was given to all you good people at a single time. So, please be aware that most of such kind of information was always given to some few selected souls and also mainly for their information only. So, please do know that the reason why we are giving this good information now is so that more and more of you good people get more involved in understanding what and how and why some workings in the good heavens are made. If you are able to understand very clearly why we do some few things in some more different ways than what you may be aware of or what you may be thinking of, then you can very clearly understand that we do not and cannot do few things in some manner that you think that we are able to do. So, this is the main reason why the good New-religion was sent to you in the first place. So, please know and please also understand that the more you know how we work and how we work out some few things for you, then more will be your focus on doing things like praying some prayers in some good manner that you should be doing. So, please do realise that many questions that you have, can easily get answered too. So, please do know that when we all will finally be in the good Spirit World, then this good Earth will be well progressed. Then the most common reason why you good people will then visit good Earth will only be to enjoy and less for making progress. So, please be aware that time and again some changes will need to happen, but the good progress would only be very limited. This is because after the good Earth joins with the good heavens, then the good progress will happen at the same time. So, there will be little to do something for the good Earth. So, please also know that this good book is very important too and for you good people to make a note of. So, please do know that only few of you good people will be able to understand it completely and correctly. This good book is for those who have complete and real trust in our existence and after that only those who will be able to completely trust that this book is straight from the good, good own angels of our good and dear God Almighty. Once again, you all will be well guided as you read this book. So, please do know that a good team of good angels are in readiness to be with those who will read this book correctly. Some good information that is got by those who read this book is also to be understood by those good people only. So, please do know that what is read by such people is not open for any discussion. If such people want that some good people should also get some benefit of some good information, then the only way should be by giving them some good ways to be in some position to read it, but not discuss it or orally give out some information from it. So, please do know that more information may also be given by us as some new ways do happen or if some new ways of giving you some more information are also changed. So, please be aware that some of you good people may find such good information to be very challenging to accept. Those good people who find it challenging to read this book and to

understand it or not being able to accept some good information that they read, then such good people should stop to read any further and say a small prayer asking for some guidance and some help of some more good angels. Still, if such people cannot move further and find some parts very hard to understand or accept, should then immediately stop reading any further. Then they should say a small prayer asking God Almighty to be in some good position to be able to not read any further because the book is something that is above their levels to understand or to accept. Then also ask that once they are above some good levels of understanding than what they are now, then they may be guided or that they may be given some sign to see that they are now in some very good position to be able to understand most of what the information is wanting to inform and what should be correctly understood. Please, we do mean to make it very clear that this book is not open for some discussions between some people. We also mean between those who have read the book. One exception would be to be in some position to know whether they have some doubts of understanding some parts of the book. That means this can only happen when people who have read the book and have some good ways of being able to read in some ways that is known by them. So, please be blessed now with more and more good knowledge of all the good happenings of the good Spirit World, but only to the extent that God allows. Let this be the first passage in the book with the blessings of God Almighty.

2. Please good people, please do be aware that what we say is of utmost importance. So, please do know that this book is very different and very difficult to understand. So, please also know that what will be written in this book is from some methods and some ways of some very good and powerful angels of the good Spirit World. So, please do know that all the good information that is being given in this good book is done with some good wishes of our good and dear good God Almighty. So, please do be aware that all this information is given in some way that can be very difficult to understand than any of the books ever given from the good Spirit World. It is for this reason that we say that a good team of good angels is already organized to give those who are now reading some good ways to understand what they read as per their good individual levels. So please, do be aware that it is for this reason we say that there should be no discussion between those people who read as well as between those who have read and as well as those who may read in the future. So, please be surely aware that all of you good people will understand all that is written in some different manner, and all will attach some different meanings. So, all will be right in some ways that each person has now understood. So, please know that all those who will read this good book will be blessed in some very different way. So, please remember that this particular book is to be brought to the notice of only those who are aware of all the good ways that are previously made known to all of you. So, please do realise that it not only includes all the good and holy books of Aman, but also all those written by your good prophet of all the good prophets. So, please also do realise that those angels who will be with those who may read this book will be one of the most powerful angels of the good Spirit World. So, anyone reading this particular book will also be blessed with some good vibrations that was never available to them before. So please, good people, please

you will need to find out some good way by which this book can then go to only such people who have read all the books in the manner that we have said. We do not want to make any ways to control this, but you along with the one writing this book will have to make some good ways all by yourselves. So, please know for sure that if there cannot be any good agreement, then only the writer of this book will have the final say. So, please do not argue the slightest against any decision that is decided by this person. Please also know that those who will read this book over and over, will also be able to do more, and understand more. So, please be aware that it is not some matter of knowing what is in this book, but it is only some matter of understanding and then following and doing what is expected by us as well as by our good and dear good God Almighty. So, please do understand that this book is not for everyone. So, no one should ask anyone to take some interest to read this particular book. So, please do know that this book was compiled in the good Spirit World by some powerful good angels who had some good discussions with some of the good angels of God as well as some good powerful souls of outside of our good Spirit World. This is because some information may come at a later date in this book of some happenings in some other good Spirit Worlds. So, please know that this is the reason for taking some participation with those good powerful souls of some other good Spirit Worlds. So, also be aware that as we see what is happening, we will incorporate such good information. So, please be aware that this is all in some good readiness and we will be closely watching what is happening and how you all are going to control some access to this good book. Please be blessed by all of us in the good Spirit World.

3. Good people, we will always be there to help you whenever you need our help. But first you should do all on your own. What we mean is that our resources are always used as soon as you start to go and get connected to anyone in the good Spirit World. So please, for asking for some help of ours, please do ensure that there is really something that we can do for you. Please do not ask for our help only because you are afraid or that you need to get over some situation or to make some situation to get easy for you to get over. You should also not ask for help if there are many others in some similar situation and only you want to be helped. In such a situation ask that you as well as those others in similar situations are also helped. Please understand that if you take some time off to learn where we can be most useful to you, then it will not only help you but others too. This way a lot of our resources can be saved. So, remember that we are always there and very eager to help all of you. Please also remember that with our help life can become very easy for all of you good people. Not only that, but we can, and we need to be able to answer as many of the prayers that you pray. The problem that we face is that if any prayers are prayers only for yourselves when other need similar help then we are unable to do so. At those times we try our best to make you all pray for others too. One more thing to remember is that we want all of you to pray for some situations and not to pray for others who do not want to be helped. Remember these are two different ways of praying for others. Also, you all should not forget to pray only to God Almighty if you want good and fast results. Try to remember that and learn to do that. You should only pray to God Almighty because

without His permission or His wish or His order, nothing can be done by anyone or any soul or any angel or any archangel. This message has been sent over and over but you good people find it hard to follow.

4. Please remember to make surroundings of your praying sites good and clean. Do not go overboard to make it or keep it clean. What we mean is that be sure you feel very comfortable where you are praying from and is with least of distractions. Be aware that many things can create some sorts of distractions. There could be some sounds or some smells or some objects that can cause distractions. What we are asking you to do is to keep all these away only from your minds and not physically remove them. This will help you to be able to pray very accurately and correctly. Please also remember that you need to keep all the surrounding vibrations clean too. What we mean is, the least of bad or negative vibrations the better. To help you with this, you should do your best to do some wood fire or light a diva or light a candle before you start your praying sessions. We are very committed to see that you get all the information you need to be able to pray some good prayers that are accurate and correct in respect to all the good situations that you are going to pray for. So do your best to make your praying sessions as clean as possible and you will notice that this way more prayers are granted faster and in a very easy way. Reasoning behind this is that you will, at times, face some period of times that will appear to be difficult, and they may turn out to be difficult times for some of you good people. At these times we want that all good prayers prayed by all good people should reach us in a good and correct way so that we are able to deliver the good help that is being pursued. Please consider all the situations that are around you for the rest of the world and not only you. Please also keep a note of all the wastage that is going around you. We do not mean some simple wastage of some items; we mean any kind of wastage. You should always ensure that what you do not need or what you do not want can be of great use to someone else. We want you good people to take a lot of trouble to pass on anything that is not of use to you, to some other good people. This also includes some help that you can give. Please be aware that if you have time and some means, then you should make yourselves useful to some other people who will find your good help very useful. Please keep a very open mind to find out how you can be of use to others. One thing you should always keep in mind is that anything given, including some help, with some exchange or some benefits (even if it is only in your mind) then we do not consider those actions as some good actions of yours. So please go ahead and do your best to do all that you can and always keep your mind as well as your good surroundings very clean.

5. God wants more people to pray some good prayers. So please understand that you good people should not force or prevail upon anyone to pray if they do not want to pray. Also, you should not make them feel different or make them think that they do not have some good plan of not praying. The reason why we want you all to pray is so that people do think more of the good Spirit World and get some

experience and benefits of the good heavens. We want more people to ask for our help so that we can get more involved. More involvement of ours with you good people will lead to more progress, and few will then think of other things to do that are not very good. All will then get good help and that may lead more people to do good and remain good. We also want to help those good people who are finding it very hard to get some comforts that they really deserve. To those who truly deserve, we help them but if they also pray then we can give them some more support that they may need. It is now a good time for us to get more involved with some good people of the good Earth. So, we need more people to pray and ask for all that the good heavens can offer. Once again, this way, more good things can be achieved. This can then result in reducing some power of the evil world. So please also remember that once more good people start to pray this way; the evil and all those who worship evil or take help from the evil, will join, and make things more and more difficult for you good people. Those will be the most important times when more of you should discuss and make it known as well as remind those who already know that when God's help is extended to anyone then at those times the evil works the hardest to spoil all the good work that is achieved. Remember that we will help all those who seek some good help of ours. Take notice that we are asking you over and over to ask for our help. This is because now it is very important for you good people to do so. The time is very right now because some situations are affecting the entire mankind. By that we mean each one of you good people. Please notice such events and pray for our help. Please understand the reason why we are asking you good people to pray and wanting you to pray instead of just helping you good people who now need our help. To remind you good people, we say, that this is so because this was a good wish of all you good people, and good systems and procedures were laid down with some consultation with our dear good God Almighty. This is not well understood by most of you good people. You always think that God will do all that is best for you. Please do know and let some others know too that this can only happen by asking your good angels as well as those in the good heavens for help. Now please do be blessed and make some praying a good habit. Also remember to pray for some situations that you see around you.

6. God wants all to be good and help each other as much as you can. Remember, the whole of the good mankind needs to be very happy and peaceful. So, please if you do not and are not at peace nothing good can be achieved. Please also learn to be good and helpful by stopping all wars. Not a single war is worth fighting even if it is for some good cause. What we mean is that any war fought for good cause is always good; but if there was some way to have avoided that war and if there was a way to also get the matter resolved in some other way then that is the best way. Please notice, in any war, good or bad, lives are lost, and people are also displaced. This causes a lot of wastage of good resources and also many suffer, and many are put to some loss which could have been avoided if the matter were resolved in some peaceful manner. So, try your best to avoid all wars. You will also notice that some people will take a lot of effort to see that some wars take place

and some of these could be appearing evil. Please ensure that you do now notice such people and if and when they make some plans for some wars, then please do your best and please do expose them. Make others aware of all the going on and please approach some people who are able to take some action to make sure that all the wars are stopped before they begin. Please be assured by us that it is easier than what you good people think. Many of you good people think that those seeking wars are very powerful people and you cannot do anything about it. At those times remember to ask for our good help and you will realise that it is so very easy to stop some war that was about to start. At those times you need not confront those people who you may think are very powerful. Remember, if at those times you ask for our help then the things will become easy for you. You should know that after you ask for our good help, we can involve some more good powerful souls who are well protected, and they will be in some very good position to do whatever that needs to be done. Please also remember that we always have many, many such souls in readiness to help you good people. The problem is that you do not ask for our help in a right way or in a right manner or at the right time. We are asking you good people now to do everything in the good name of our good and dear God Almighty. If you learn to do this, then what you will achieve would be something that is very great for all the good people living on the good Earth. We say this will be something that is great because if you learn to do everything in the good name of our good and dear God Almighty then what will happen is that you good people will automatically pray at the right time and in a way that it should be done. Then our good help will be automatic too. So please remember this. This will help you in your daily lives too. So please, you good people help each other and live in peace and learn to do everything in our good God Almighty's name.

7. It would be so nice if you good people started to pray daily and get all the good benefits that you deserve. Please do not think that praying daily is going to be wasted. Please do realize that it is different to all the good rituals that you good people are so very accustomed to do. We do take note of what you good people intend to do when you sing some praises to God or to some good angels. Remember that anything you do or any songs that you devote to some angels or some good angels, are completely ignored by us. We did not take a note of those, and we also do not appreciate that you good people do this. On the other hand, we make a note of all the good songs or some articles you write or some good prayers or some prayers that you write. What you good people should understand is that whatever that is noted is then sent to God Almighty as a good report of you good people. Please know that all the good articles written, which includes prayers, to any angels or prayers for some specific needs are not noted. Still, we do try to help those who are so praying but only if such prayers were powered by God Almighty. You should understand that once God Almighty approves some prayers for some situations then any prayers prayed for similar situations are automatically powered. Then we are in a very good position to be able to grant those prayers. You good people please start to realize that soon many changes are going to be announced and soon you good people will need to move out of all the existing religions. Please

note that what is most important for you good people, is to understand that it is of most importance to be good rather than to follow any religion. What we mean is that you should only read those poems or articles or events that help you to be good and be at peace. You should also know that if you are not at peace with each other and if you do not try to be at peace without making some effort then all that you do is totally wasted. That also includes your good ways of following any of your good religions. Please realize that now is the time to keep all the religions at one side and really concentrate to be good and to be at peace with all of God's creations. This is the only thing that will help you, not only in your worldly ways but also in some ways to be able to get closer to God and that too very fast. For all those who find very hard to accept our existence and that of our good and dear God Almighty, you can only say that make some efforts to make people's lives more comfortable without considering who such people are. They should not worry about anything and should do whatever that they need to do to help such people and to create peace within themselves and everything around them. They need not focus on anything much for now. All their efforts will be well rewarded. What we also need to tell you is that soon the time will come when all you good people, without any exceptions, will be able to trust yourselves to understand and to know of our good existence. Till then, you good people should not consider those who do not accept our existence to be some different sort of people or that they need to be treated differently. You all should be concerned to learn and to teach all those who want to learn or know of our good existence and that too without any pressure to make someone learn. Please teach your children of our existence right from the day they are born. Please also teach those who cannot read or write if they wish to learn. Also understand that many of you will be faced with some situations where you may have to teach or enter into some discussions of our existence to someone who is not very familiar with the language that we have chosen to give you all the information. At those times you good people will have to take a lot of care to see that no meaning is lost in the way and the manner that you explain or teach. So, if you give some examples, then you should make it very clear that the examples are very different to some teachings. Please make it clear that the good new religion which goes by the name of New-religion is not in fact any religion that you good people are very accustomed to. Please explain that the good New-religion is God's own for the first time and what God Almighty wishes to do with this good religion is to take your good people's mind away from all the good religions and wants all of you to know that the true outcome of any religion so far was to make you good. This is not well understood by most of you good people and you with all good intentions ended up in not being at peace. You good people then got very confused with many religions and then started to establish that all should follow some religion that you were following. Now this is to be set right by trying to make you understand that the only path that you need to follow is the one of peace; and not only for you but for each and every soul that exist around you. So please be blessed and follow all that is being told to you so far.

8. Please you good people should learn more ways to get in touch with some good angels of the heavens. What we mean is that those who have some good knowledge of how to get in touch with us in some ways or the other than such knowledge should be passed on to other good people. There are many ways by which we keep on sending messages to you good people. Many are in some standard forms like by auto writing or in some good sessions in which we make our messages to get delivered orally. Such methods can be easily taught as well as learned and then there are others like some good messages that can only be delivered in some good meditation. Such messages are sometimes very unique and are mostly meant for only those who were in such meditating sessions. In such types of sessions, we may also teach such people some ways of being good. We may also, in such sessions, give some very good vibrations or replace them with some new set of vibrations. We can also, in such sessions, give them some very different vibrations. In some cases where someone has been practicing such ways of meditation are taken to different parts of the universe and these people would have achieved such abilities by years of meditative practice. So, please understand that these ways only come through practice and that there is nothing much to teach. Over and above such ways there are many other good ways by which we communicate and give some messages. These too cannot be taught. Such messages are very unique to those who may receive them because such methods are for those good people who do not or may not be able to read or write. These people are given some very different ways and they are so very unique to each of such individuals that we will not mention what those good methods are only to avoid some confusion. So, you good people, please do not attach any meanings to such methods that you may not understand. Leave it to only those who get involved to receive messages in such unique ways. Please also do not try to understand such ways on your own. Most important is not to attempt to get messages this way. Please understand that if you have learnt and practiced or received messages for some amount of time, then you can make changes in respect of some instruments or some methods that are similar. Please do not attempt to get messages on your own in any manner that no one has taught. What we mean is that any attempt to receive some messages from the good Spirit World should always be learnt from someone who already knows. Please, for those who have already learnt to receive our good messages should always teach at least to some another person. Such knowledge should pass on to as many as possible. Please also understand that if someone is not able to find another person who is willing to learn, then there is no problem. Please remember that if any soul approaches someone who has some knowledge of communicating with us with some good intentions to learn, then such souls should not be denied the knowledge even if you think or know that this knowledge that this person is seeking may only be for testing whether this way of communicating really works. Please be aware that we shall look over such souls in some good manner of the good Spirit World. Now the most important thing to know and remember is that any method that is taught or learnt should be in some proximity of some prayer fire. Please ensure that even if someone wants to meditate then the first few sessions should be attempted if some prayer fire is available. Please know that there is no need for

some prayer fire to be there whilst meditating and we are referring to some spiritual meditation. Still, if some new member is making some new start to learn to meditate, then this good student may find it easier if some prayer fire can be there in some vicinity. Prayer fire is always very helpful but not always very necessary for some good ways of being in some of the ways of communicating. So please all of you good people, please learn and teach as many as you can. Please also explain that we are always ready and want to give you all as much help as we can first. These methods will make it very easy for you good people and you will also know and realize that it is so very easy. Please also do your good prayers and realize that praying has very different values than communicating with us.

9. Please you good people do not involve yourselves in some small arguments and waste your energy and also your time. Please be aware that nothing is more important for you to learn than all the good things that can keep all you good people very happy and comfortable. Once you good people are happy and comfortable, you will have no reason to fight with each other or to have some silly feelings that will make you do silly things. Remember that it is only some sort of silliness that creates some kind of feelings to make others uncomfortable or hurt. This is how all the mess started in the first place. After that you good people thought that you all were actually very good and that heavens and all those in the heavens should not worry or even take some notice of what you good people were doing. You also realized and thought in some very wrong way; that it was a very wrong way and that it was very rude for anyone from the heavens should again and again interfere with some going ons on what good souls do on Earth. You good people thought that you can do anything on your own and that you can make something happen in any way that you liked. So, please know that because of some questions coming up every now and then, it was mutually agreed, and it was clearly understood that for any good help required by any of the good people some ways were created that those who did want some help got some help and those who wanted to make things good on their own were then free to do so. Please also notice that time and again you good people did get lost. You good people started to become unhappy even though you had enough. You made some mistake of not sharing all good things with those who could not have even some things that could give them some support to support themselves or their families. After such kind of behavior started to get worse, there was no option but to see that some kind of information be given to you good people to correct your ways. Please realize that this amounts to great wastage of resources of the good Spirit World. You good people should on your very own be able to support all those who cannot be on their own. There are many reasons why some are not able to support themselves or their families. The most glaring reason is that they themselves are deprived of some resources that they are entitled to. Please ensure that you distribute all the good resources equally to all those who need some things to keep them in a state of good survival and also as comfortable as all should actually be. Time and again we find that we have to keep on sending someone with some message to you good people so that you can then realize that you all are not alone and that we are certainly there to look after

all you good people. Many a times you good people do not realize some help when it is given to you. So please do your best and see that every person around you is happy and comfortable. If you see anyone who is struggling for any reason, then make some effort to see if those struggling are good and comfortable. We do not want anyone to go outside any means to help anyone. We are referring to those who have plenty and are in some very good position to help. Please do all your best to keep all your differences aside and to keep all the silly emotions under control and see that as many as possible are helped. You should know that all of you cannot help in many ways that are required to give some help to someone and also to be able to identify who needs a good and genuine help and who does not. So please do your best to make the lives of those around you happy. Please also ask those you come across to ask for your help as well as to ask for our help. This is the most important and easiest way to get some help. Once people start to understand all that we have said so far, the world will change. More people will start to be happy. Once a good and a proper start is made, happiness will spread very fast and then you will find the world to be a very different place. The points to be noted are that it is not going to be easy, it is not going to be soon enough, it is not going to be without some sincere efforts of some of you good people and it is not going to be achieved without our help. So, please you good people have no hesitation whatsoever to ask for our help and please do not hesitate to help all. Please keep on asking God to keep on blessing all you good people even those who have not accepted our good existence or are finding it very hard to accept our existence.

10. Please, you good people should know for sure that the good Spirit World does exist and there are many good Spirit Worlds and also many other types of Spirit Worlds. So please do know that each Spirit World has some ways to go about and all of them have some sorts of souls who are powerful enough to lead others of the same Spirit World. Each of the different Spirit Worlds have their unique vibrations, so, those souls need to remain only in those ones that meet each one's vibrations. Now you can easily understand that why the evil souls of evil world need to leave Earth and be with those that have similar good vibrations. So please know that those souls who drift into some parts of the universe thinking that their vibrations are matching in those parts but are not; are made to understand the values of remaining in those parts that are exactly matching those that they have. They are also guided by many other souls and are directed to be able to find those good locations that match their vibrations. Most of the time such souls are very happy that they were so guided, and they even thank all for such good advice and directions. So, we hope you good people do understand why the evil souls should not be on Earth. They should realize that it will always benefit them in the end. The reason why the evil souls do not want to leave Earth is that they find that living on Earth is very different to living somewhere else. They also enjoy all the good creations of God Almighty from many different points of view. They think that to find some similar place anywhere would be a near impossible task and they think that even if they did, they think that the vibrations will not allow them to create

something that is very similar to Earth. That is a wrong way of thinking. God Almighty as well as some other powerful souls have tried their best to explain that this sort of thinking is not correct. They have also pointed out that, in fact, whatever they may create in their own vibrational places will turn out to be very best for them; and that whatever they may create will be more enjoyable for them and also for all the good souls of the evil world. Please understand that God wants all evil to be removed only for the reason that it will be very good for you good people as well as for those who will also be very happy in their own evil world. Please you good people do understand that God has nothing against those of the evil world. It is only that their presence and the presence of their different vibrations are causing some great disturbance in the good vibrations of the Earth resulting in some unhappiness of you good people as well as to all the good evil souls. So, please make a note of what we are now telling you. Please do not think that God wants all the evil souls out of His kingdom because He does not like them. This is not so. Please do not think that anyone in the heavens have some likes and dislikes like those you experience when you are on Earth. Please make all the good efforts to move all the evil out. Please do not fall into some evil ways because it will never be helpful to you or cause you to be happy. Please also do not consider evil souls to be bad and need to be destroyed. Be aware that these souls only have some vibrations that are very different to those you have. Once you realize this, then please do make a great effort to move away from all those ways that are evil. Please do your best to explain to all to leave all the judging to God. Please only involve yourselves to do good and to be good and the rest will be taken care of automatically.

11. All you good people should strive to make a good group of those who want to do many good things. Things like pooling some resources to give and to distribute amongst those who need all you have so far collected. You good people should also make some groups so that those who are very resourceful can get together and pool some good ideas like how to stop some wars. You should also form some groups to be able to give some good people some advice on how they can improve some conditions of their families so that they are very peaceful and good; and be able to understand some difficulties that any of the family member is facing. In some similar way you should also form some groups of messengers as well as some prophets in one good group and plan out some good methods of going about creating ways to make people aware of the coming of the good New-religion. Please also take into consideration that at no time will many be able to accept all that you have to say. So, do be patient with such good people. Please make as many groups as possible that you can. Remember that once your goal is achieved, be very quick to then break down all the groups that you have formed. After that go about to concentrate to form only one group and that is the good group of all the good people of the good Earth. Please understand that on the face of it, it can appear to be some sort of an impossible task. Remember always that this is God's wish, and all plans are in place to achieve this. So, realize that in no way can this plan be so, that it cannot be achieved. You good people cannot do this all by

yourselves; we have said this again and again. So do all that is expected from you and then wait for us to get into some action. You will then realize that things did happen in the way that you good people thought. So do know that you will need to work to some degree and after that we will take over. After that you will see things happen in some very different way and that the change will appear to you as a very sudden one. All of you may see a sudden change. At that point too, you good people will be so surprised that you may feel that something is not right. You all will start to meet and then be very suspicious of many good people. After that you will realize that all of you good people did ask for our good help and that it was so given. You will then realize that you were suspicious because you good people thought that all are now behaving in some different manner that was outside your normal one. Then someone will point out that it is not so and that this sudden change is because all of you good people did ask for our help and that it was given in a very good way. All the good things that you will see around was because of our help. After that you will be at ease and then start to live in some good way like some good people should. Please do be aware that all plans are well laid and that you should keep on asking for us to bring peace to you with you good people making efforts yourselves. Only in your efforts will be those good expressions of good thoughts to be sincere and good. Remember what we told you previously. It is not going to be easy, and it is not going to be soon. So, please start to think of a better future right now. Remember that you should think of making lives of your good children better by not only doing things for them that they like but you should think of making their lives better by teaching how to live their lives better. That cannot be achieved by leading a life of fear or by leading a life where top priority is given how much they can earn or how well they can dress or by thinking how they will be able to get a few things which are actually not very important to have but are very important and necessary to have to show those around you how good or how wealthy you are. Please teach your children that the wealth is in being very good and being very helpful and by being on the lookout for some very unfortunate people around them and teach them that the more help they give to others, all the wealth will come to them automatically.

12. Please you good people try to understand some very good information that we are about to give you. Please realize that if you do not know and if you have not read some information that we have already given earlier, you may find it very hard to come to terms with what we have to let you know now. So, please understand that the good information may now appear very different to you. You may have to take some time off and meditate to try and understand what exactly we are recommending for you good people. Please realize that we are not at all far from you good people. In fact, we are so very close that if you stretched your arms, you would be in some position to touch us. But it is not something like that. What we are saying is that we would be with you when you called for us. It would be as easy and as fast, like you touching us. Please do not consider that we are at some far off place and we may take a lot of time to reach you good people. You should know that though we are this close to you, it can get very hard for us to reach you if you

do not call us in some ways that we can come fast. Please know that we have so many requests through prayers as well as through some wishes and appeals; then we need to focus on where our presence is required the most. At times, we may be required to make some big changes. Under those circumstances we need to approach God Almighty or one of His own angels to make necessary changes. At times, we may also need some different set of vibrations to be able to reach out to you at those times that you ask for our help. Please do not think that even in some cases of some very elaborate arrangements, we may take a very long time. Though we may try our very best to reach you at the fastest possible rate, still, we may need to be held up for many other good reasons. You should know that for some very different situations we may need to take some equipment. For such good situations we may, at times, have some equipment that we need. At other times we may need some equipment that may need some permission of good and dear good God Almighty or His good angels. You should know that not on a single occasion we have been denied any equipment that we have asked for. Please also know that some equipment requires a lot of resources of ours and so they are very limited. So, if it happens that those equipments are then required by many other good angels who are answering your prayers will not be able get them. In such cases we have to ask only God Almighty for His opinion on who should require the benefit of use of those equipments. So, also know that on some very rare occasions, we may be required to make some new ones so that many can get to make use of them. If you understand these situations well and if you are then able to understand the good amount of work that is involved, then you can realize that we can take a while before we can extend our good help to you. Now what we have noticed on such occasions when our help takes a while to reach you; what you good people, at times, do is give up. Then you start to think that we may not help, and you start to make some different prayers. Then, once again, we have to start all over again. At times, we have also come across some rare situations when you good people stop asking for our help. Not only that, but you also ask that our help is no longer needed and that you will manage all on your own. Please also know that very few have even gone that far to ask help from the evil side. Please know that we are always there to give you all the good help you need. We are also always there to look after many other aspects that are going on and we are also required to do some other sort of work as directed by God. So, please you good people do realize that each and every soul that are there in the good Spirit World work very hard and have to perform many sort of duties. The arrangements of the heavens are very complicated, and they are more complicated than what anyone of you good people can even imagine. One important thing to note on what we have told you today in these notes is that whatever you do, please do not make some mistakes by taking some help from the evil world. We are saying this only because it will create some more confusions in the minds of many of you good people. What would be more disappointing could be the fact that many or some may even lose some good place in the good Spirit World and no one, including us, would ever like that or be happy with that kind of a situation. Please once you ask for our help, when you feel that you need it the most, we are always there, and we are very willing to extend our help. Only under some very few circumstances where we may

come across and find that the good situation can very well be solved by only you. Only then in these cases we are prevented to extend to you our helping hand.

13. Good people you need to learn to be able to live in peace. We know you already know that but knowing is not enough. What we want you all to do is to now go and understand that the world needs to be only one place where all of you can go and get together and do things that some of you cannot do. What we mean is that all different parts of the world have remained separate, and you all have always understood that each part of the world has different cultures, so they are different. If this is going to continue to keep on happening, then all of you will keep on thinking that each one of you are of different groups and so you need some special and different ways to be acknowledged and respected. This way of thinking only divides you good people. What you do not realize is that you yourselves create some barriers and then expect not to be treated differently. This kind of behavior creates more and more confusion amongst the younger generations. Please now understand that all of you have moved very far now, so, there is no need to stick to your different ways of behaving. This will never bring any peace to some of you and these few people will always keep on behaving differently causing others to look more closely to such groups of people. This kind of behavior will also cause some people not to be able to understand the real good purpose of such types of behavior. This will be going on and on and no common values will then be established. So, please understand that to be at peace all of you will have to look at all the common values that you all think are very good. Please keep all the good cultural things that you want to keep but also, at the same time, look at your present situation as well as that of the future situations. What we mean is, you good people should make a proper plan to see where you all want to go in future. You should understand that some ways of fighting or even looking at others with suspicion will not make you have a good plan that will benefit all of you. So, please start to break all the barriers of different countries and different religions and different classifications of different people. Think more about the nicer aspects of all these and plan out a good way that will help all of you, or at least most of you, for now. Once you start joining some aspects of all the different ways of all you good people, will you get some good understanding, that what is most important is that all different groups, in any manner you look, will have something that is very unique. So, please realize that if you are able to put all the unique things in one place, then all those unique things will become very dynamic. Then you will be able to understand all of the good going ons in different parts of the world as well as those of the different cultures. So please do know that every culture has its own unique value. If you think that these things are for those cultures only, then you will not get the benefits and joys of those cultures. What you good people should do is to go ahead now and try to find out all the benefits and joys of different cultures and make them available to as many as possible. If you keep on doing that, then what will happen is that in presence of all the good cultures you will have a group of people who will be able to enjoy all that all other cultures can offer. This will help you to understand all the cultures. Not only that, but you good people will get more

understanding of what God has been teaching all across different cultures. Pooling all such information will enhance your knowledge of the world across all the different cultures. Once this happens, you will start to look at all those of different cultures also to be like your own ones. You will then involve all to part take in the joys of all the good occasions. Then, you will all on your own teach others that the good benefit of mixing with different cultures is always a good way of behaving. So, please learn about each other's cultures and also teach each of your children that it is now the time to learn all good things that exists on the good Earth. After that do away with all those things that are not really understood. So please learn to be at peace in this way. There are many ways that will always help you to be at peace with each other and this is only one of the good ways. Please ask God to bless you to understand all the good ways of all the good people of the good Earth.

14. Please, you good people now need to know more about all that is there in the good Spirit World. You should also try to learn more. So, please understand that the more you read and the more you remember of what goes on in the good Spirit World, you will understand many things. Most of the good things that appear as some mystery will soon become some very good practical things to know. You will then be able to understand many good things that you could not understand earlier. So, please make it a point to read more and also with some very good confidence that all these messages are being received from the good Spirit World. You will also realize that what was told in the past was not very wrong. You will see that many things do and will match up with all that we are telling you now and also in some near future. So, please do realise that what was told earlier was not wrong but not correctly understood. So, please at first, you will see that much information was added to all that was told in the past. What you will need to do is remove all that was added without our permission. After that, you need to make some comparison with what is being told to you in this good new millennium. Please understand what we are referring to is only to the good books of the good New-religion as well as those written by the good prophet who then was able to write all the good books of the good New-religion. Also, what you good people need to bear in mind is the real impact that the new information is going to make to you good people. So, please remember the first thing that we told you. That is, to do and follow any of the good information only to the extent that you can understand and also only to the extent that you like. Please remember that if you follow anything that you do not understand, then you will be doing something that will not help you in a very accurate way. Not only that, but it may also even move you away from some correct ways. So, also remember that if you do things that we have told you to do and still, you do not like to do them, then please do not do those things. Doing anything that you do not like puts some negative vibrations into some work that you would be doing. Those things will never be helpful to you or to anyone else you are trying to help. It is very important to follow these good rules. So, please try to understand all that we have told. This time we have taken more trouble to make things available to you in a very simple form so that you are able to understand every step very correctly as well as very accurately. So, it is up to you to now be

able to take more care and effort to see that most of the things are very easily understood. Please realize that when and if the things are correctly understood, then it can become very easy for you to be able to try those things out; and then realize some good effects of what you so practiced. So please do know that we are aware of many good questions that you good people have. Questions like 'How can God be so old to have created the entire universe and still be around to help us?' or why you good people cannot experience our good presence and many, many other questions. So, the way and the manner that all of you should go about is by knowing some of the good things that we have already said and other good things that we will say. You good people should be able to create some good way by which you all are calm, or you all can be aware of all that is around by feeling within yourselves. This way you will get many different vibrations that will help you to feel our good presence. The best and the easiest way is through some practice of meditation. Please be aware that there are plenty of ways by which some good meditations are done. Also, there are many good reasons for which many of you good people do your meditation. Any way you may adopt would be a very good way and something or other will surely be achieved. No meditative experience is ever a waste. We would, in particular, would ask you good people to try to establish a good way of meditation by which you express your desire for someone from the good Spirit World to give you some presence. Once you make such a request, many things happen in the good Spirit World. Some good souls get a feeling to be with you. Depending on your good vibrations and depending on how well you have established yourself in the good Spirit World, some souls or some angels or some good angels are sent. So, please be aware that you may feel nothing at the very start that you make. You may get some experience that you were not expecting and at the very same time you may not get some experience that you would have liked to have. At this stage many give up and stop meditation sessions. Please be aware that not a single session of yours is ever a waste. In fact, it gives you a good amount of practice that you do not notice. Also, you should understand that those in the good Spirit World also should be in some position to understand what type of good vibrations you are able to easily receive. You see, some people are able to receive some good vibrations in some very easy way; and those very same ones other good people cannot. So, it takes a while on both sides to get perfectly tuned. Once this happens, it gets very easy for you to receive them. Also, please do know that this particular type of meditation is the highest type of meditation. In such a good session you will find that your mind gets completely relaxed. In a different way of looking at such a session of meditation would be that with such a practice you not only get your mind to relax but also many parts of your body get the good benefit of some good relaxation. Still, you will need to be at it for a long period of time to achieve to be able to feel our presence. Though you will notice some good differences, and that should then encourage you good people to be at it more and more. Suddenly you will find a big change and many souls will be with you. At those times you can be as certain as ever that many of us are there with you and you will feel our presence in such a way that there will be no question of slightest of doubt that we were not there. One more thing to note is that, at first, you should start with sessions that are small and then gradually increase your time. You should also

remember that the location or the place that you choose for your meditation is more important when you start this practice. You do not need anything special at the start. You can wear anything you like and meditate whenever you like and, in any fashion, you like except the one in which you may be lying down. After that, your angels will guide you as per your needs and as per your vibrations. They may guide you to do your sessions differently. They may want you not to have any sort of footwear or they may ask you to cover your head; or to have or not to have some kind of sitting arrangements. So, please be helped by us and always remember and try to make time for some meditation and feel our good presence. You will also be able to understand easier what we have told you. Those who have developed some way of contacting those in the good Spirit World through auto-writing should always teach, if anyone wants to learn, without denying anyone. No other way is easier to contact us in a good manner that does not leave any doubt. Be blessed and be loved by all in the good Spirit World with the good blessing of our good and dear good God Almighty.

15. Please, you good people we all would like you to know more and more of all the aspects of the good Spirit World. So, if you keep in mind all that we let you know, then your doubts of our working way can slowly and slowly be more clearly understood. So please open your minds and keep them open always when you try to learn or understand of what goes on in the good Spirit World. You should know that almost on daily basis we give good thoughts to you. What we mean are those good advance thoughts that can help you to be peaceful. So please do know that our first priority is to make as many people comfortable as possible. For this to happen all of you need to change your good ways of thinking. You should know and realise that no soul on Earth should be left out in such a way that this soul is all alone. You should see the need to help those who are alone and see that our help to them is directed the most. For that to happen we give some of you some good thoughts that can enable all of you to think of being in some position to help all those who are very unfortunate and struggle a lot for their survival as well as for those in their families. So please do know that we also give some good thoughts for you good people to make a huge progress on the Earth for you good people to be able to overcome most of those difficulties that keep you uncomfortable. We now want to concentrate on making yourselves more comfortable by giving you some good thoughts by which you can have more control over some sicknesses, particularly those that interfere with your daily working. So, please realise that over and above such good thoughts, we also give some very good thoughts to those who are not very good and to those who we find are easily swayed by the thoughts that are also given by those from the evil world. So, please make it a point not to accept those thoughts that come to you from the evil world. The easiest way to be able to be in control only of those thoughts that come from the good Spirit World, you should always keep on praying some good protection prayers. Such prayers have more to do with the good Spirit World. So, please say some prayers like, *'God please protect us from all the thoughts, good or bad, that are sent by some souls of the evil world.'* Or you can make up some prayers like, *'God, I love You and I*

only want to do all that You like and only what You would like me to do; so please give me a good protection of all the good angels all the time and also at those times when I sleep.' Any such prayer will help you to be able to get those good thoughts that God and we like but the solution is not very easy. You see, all depends on how you train your minds to receive thoughts from any Spirit World. So, what you good people should now concentrate on is only good. What will help you to easily receive thoughts from the good Spirit World and keep most of those thoughts that come to you by trying out these few ways. Make sure that those books you are reading are good. Make sure that those songs you listen to are good. Make sure that all the movies you pick up are good. Make sure that all those people you mix with are good and so on. We know that you may have no idea which of those things are good or bad. So, what you need to do is try your best to avoid all that is not good and also all that appears to be not good. This is the first step. After that you good people start as normal to read or listen or watch a movie etc. After that, at the first feeling of something not appearing good or not appearing useful should be shut down. Please then do not go about and keep on going to what you were doing. What we want you good people to realise is the fact that praying any prayer, including some very good protection prayer, can help you to be distracted from all that flows from the evil world, but you also need to be on guard all the time. What we have noticed and what we see that is happening is that you good people, at those times, when the evil has taken good care to see that you do not notice, then the evil thoughts that you are not alert enough to notice something bad and not nice is projected to you. You get tricked into accepting and not only that, some of you even then learn a way of taking more interest in those thoughts. You even suggest to others to accept those thoughts. One thing we would like to mention is that please be very careful when you suggest thoughts to others. Make sure that those thoughts are suitable to those people. Please always remember to say some good protection prayers and please also help others to get out of their bad ways. Such ways will bring more good blessings of God Almighty.

16. Please we want all of you good people to learn more of the ways of being able to communicate in some very good ways. Please know that anytime some of you start to communicate a lot of good vibrations are created because many good angels give presence. Please realise that once you stop your communication those angels who were present go away. So please do know that even though you get the good benefit of some presence of some good angels, you should be in some good position to absorb some vibrations from such good angels so that all your good vibrations get perfectly aligned. Please do know that there will be some time when all the families of the good Earth will be able to do some kind of communicating with us. We are waiting for many of you good people to call us more, not for the reason of asking some questions or to get some benefit of some vibrations that would not be there in our absence. The reason is that more the auto-writing is done by you, the more you will be aware of our existence. Not only that, but you good people will, on your own, start to take more interest in making your vibrations good. As we mentioned, you good people should teach all the good people to be able to

do some auto-writing. The reason is that more awareness can be created, and more people will get the ability to contact us. This will also, in some ways, make more people understand that we all are very easily contactable. Please when you teach, make it very clear that the expectation of those who eagerly want to learn should not only be to ask us questions. The only expectation of such group should be, to be able to go in some way to get connected to us. What you should explain at the start is that they will most certainly feel our good presence and they will be sure of all those good vibrations that will be associated with that particular person. Please also explain that this method is being taught to them only to get the good benefits of the good vibrations. After they do a few good sessions, those who have taught such people, should make it a point to follow up with them and see if they have any doubts. You will notice that only those who have not done some good sessions in the manner that they were told, would have some doubts. For those good souls who do not then have any doubts, you should enquire whether they had some good sessions. Then further ask what they felt and why they do say that they had very good sessions. You will be really surprised with some answers that you may get. So please do know that if they said that they did not get some words but only some letters, then you should explain to them that they have very successfully completed the first part of the good way of contacting the good Spirit World. After that you should explain that if they only got letters, then it was to show them that they were successful in contacting us. You should also explain that if they do not get words, then it is only because they are good and at that point of time where there is nothing that someone from the good Spirit World have to convey. Tell them to be good and to keep on doing this practice. For those who get words, you should make it known to them that if there is any message from the good Spirit World, they will soon be getting sentences. For those who have put enough practice, they will start to get many messages and these messages are for them. You need to explain to all that whatever messages they may get, may soon change with time. Also make them aware that auto-writing session can give them better vibrations than what they know. Please explain to all that every new person who is learning, when asked to ask a question, they should not be asking something of their needs or that of some members of the family. They should concentrate and not get distracted. Some people are able to start in a very good way and many may need to practice a little bit longer. Please also explain that in many of their session many loving souls will surely give some presence and they may also give some messages that would be very helpful to them. Please let all those who are learning know that, that the more people are in good ways of praying, meditating, or auto-writing, the more better the world will start getting better and better. It will help all such people and they will not have any doubts of our existence whatsoever. We are very keen in making it easier and easier for all you good people to be able to contact us. You will soon find that many will be very happy with what they are doing and will encourage others to join too. Please be blessed all of you who are reading this and also all those who are going to be aware of our existence without any doubts.

17. Please all of you good people, you all should really learn to live in peace for several good reasons. First reason is that you cannot achieve anything without some peace. So please do know that those of you who are at peace are able to achieve a lot. After that you get absorbed within your own environment and then do not look after others. This way of your behavior can only lead to create some unhappiness and that in turn destroys all the peace that you had found earlier. So, please realise the importance of peace and learn to create more peace around you. Please you good people we also ask you to be at peace only after you have done everything in a very righteous and correct manner. Please know that peace is so very important for all good things to happen. So, please remember that it is very important to make others to be at peace too. The reason is if all those around are not at peace, then some kind of an environment is created that will destroy your good peace. We are saying this so that you good people can realise and rethink that as long as you are at peace it is enough and that you have actually played your good part. Peace cannot come to all in a very easy way. For anyone to achieve all the good ways some requirements are required to be met. No one can be at peace if a person is struggling more than you are. So, please make it a point to see that those who are struggling as well as those who are unfortunate, including those who do not have someone to look after them, are well taken care of. There may be many who are sick or are so very weak that they cannot do something much. There could be some good children who may be required to be well looked after. This could be for many reasons. They may have been separated from those who were supposed to look after them; or it could be possible that those who need to be looking after them are themselves in need to be looked after; there could be many, many such good reasons. There could be some people who are very sick or very old to be in some position to do something. All such people whether they are children, adults or old may need much and you good people do give them, still, we find that some of you who have some capacity to give, do not even try to look or find one where some help is really required and thereafter think of some ways to be in some position to be able to look after all good people who are less fortunate than them. Please, this is not a way to be able to survive. We find that every one of you is trying to survive in some very different ways. Those who have more than enough are struggling to see that they can keep on getting even more and more. Then, the great fear is that no one else should have more than what they have. Please know that there are many such people. All they worry about is that they do not lose what they already have. This was not at all any plan of God. God wants that every soul on Earth, good or bad, should have everything that He has made available on Earth. God has not made any class for any particular group of people. God wants some few groups of people to have more than the rest of the others. This is for the reason that all do not have the good ability to look after all that there is, and all do not have some knowledge in many areas of the world. So, to preserve the good ways of distribution should only be with only few. What we find now is that such people, instead of distributing things around, they are keeping everything for themselves, or they are not really distributing all the good things in some very correct manner. This is very disappointing to all in the good Spirit World. So please some of you good people please bring this to the notice of such people that if they

do not do what God wants them to, then there will come a time when some people will make it their way to distribute all such things that really need to be distributed. If this happens, then it may turn out to be some wrong way and you good people will find that to be very disappointing yourselves. You will then find things to get out of control. So, please make more people to be at peace by helping all good people as well as the bad ones. Please see that all are as comfortable as possible and that all are very happy in some way that they can be happy. Share everything with all and remember if all are not at peace by being comfortable, then no matter what you own or how much wealth you may have, will all turn out to be of no good use to some of you. Please be blessed by us as well as by God Almighty and please listen to your angels and please learn to get in touch with us.

18. Please good people, we want all of you to understand and practice all the good ways that are shown to you so far. Please realise that all the good ways of God and getting closer to God are very simple and very easy to follow. So, please realise that those who find it hard to follow are those who have not yet understood the good ways and have not understood what all in the good Spirit World really want. Please also realise that what we want from you good people is only love for us and all those who are in the good Spirit World and also some more love for your families, your friends, and all others who you associate with. So, what you really need to understand is that if you good people cannot love your families, your friends and all those who you associate with, then nothing can fall in place to move forward. So, all you will be doing would be for your very own selves. If this is going to be your way of behavior, then please go deeper and realise that without the support of others you will not be in some position to do anything that could be called worthwhile. So, all that you do will attract no blessings from anyone including us. If you can understand this, then you will very easily understand that to get closer to God all you good people need to do is get closer to your very own self by getting closer and closer to all those who are around. So please do know that you cannot get closer to God without getting closer to all those not only around but with all those who get in contact with. So, please think it over and you will realise that there is nothing hard and nothing complicated that can make it impossible for you to be able to get closer with all of us and all on the good Earth. Once you understand this very clearly, you will have to think of ways of getting to know all of your families and your associates and then try to understand ways of making them happy. Once you all are able to interact in some good ways and once you all know some likes and dislikes of each other, you will be able to then live in peace. Living in peace will make all in the good Spirit World very happy. This is the only thing that will take you closer to God. You should also know that getting closer to God is a big process and you good people will have to move in a way that will not, and should not, be rushed. Please understand that it is a step by step process. You good people will surely need to go one step at a time. The easiest way to understand is that you should first all be in some position to love yourself, after that your family and so on. Once you have understood the need and, as we said, likes as well as dislikes of others there will be some time when all will be helping all and there will not be any

room for any arguments or fights. Once this is achieved, all will be in some position to trust all. With that happening there will be peace on Earth in some manner that all will be happy with. So, please think over what we have said and please realise now that good people should make others good too and spread love and help all. You will then notice that you may not require much help from us and after that you all will be loved by our good and dear good God Almighty. Then we all will be able to live like one family, be it on Earth or in the heavens.

19. Please good people always remember that all in the good Spirit World always keep a very close watch over all that is happening on Earth. So, please we want you all to know and understand to what extent do we keep our watch with all that is going on. So, please be aware, and this is important, that we do not keep some watch over you each and every moment of your life. What we mean by keeping our watch over all that is happening on Earth is very different to what your spirit guides do. Your good spirit guides are always there with you along with some other good souls who would like to be with you to comfort you or to give you some vibrations or just give you some good thoughts. These souls are there with you, but they do not keep any watch over you. Meaning, that they are only there with you to give you thoughts to make you stay on some correct ways of God. They do not do any reporting work for anyone in the good Spirit World. So, their work starts and ends only in some ways to keep you happy and more to keep you on the correct path that will take you to God. They do seek some advice from those angels of the heavens when they find that they are not able to give you some good thoughts in some good manner that you can receive. Meaning, that they do their best and still, you do not do what they ask you to do and at those times you start to listen to some other souls instead of them. So, they need to decide what to do. You see, in those cases there is nothing much that can be done except make you listen to some other good souls who will then be your spirit guides. Therefore, please do know that spirit guides always stay with you; but those who are there with you are not the very same souls. So, please understand that these souls are always there with you even though you may be sleeping or even be in a coma and for as long as you are there on Earth. So please do know that those good angels who keep some watch over all the good happenings are some very different group of good angels whose main work is to keep some watch over Earth and send all the reports to God's own good angels. After that God's own good angels will then decide what further action to take if any action is so required. This is a continuous process and is very necessary. So please, also know that no matter what, our good reports include every aspect of the goings on Earth. These reports also include the ones in which we report all the good behavior of you good people. These also include those good people who have stopped listening to their spirit guides as well as all the good deeds that all you good people do as well as all those that are not really good. So please do know that those who do some reporting work are the most hard working ones and they are always very busy to do anything other than their work. So, please be aware that every good as well as a bad deed is recorded and reported on individual basis as well as on some collective basis. By collective basis we mean

deeds earned only by you good people as a group. This is different to your deeds that are done on individual basis. People always work better when they take up some work as a group. The reason for all the reporting that is being undertaken is not to interfere with any sort of working of you good people. The only purpose of some of our reporting is to keep some watch over all the good vibrations on the Earth. It is very important that the good vibrations are always maintained at some good levels and to see that bad ones do not cause some significant imbalance. If this was to happen, then you good people would face some unimaginable hardship. Another good reason is that we need to make more and more of you to create some good ability to receive only good thoughts. We mean that the more good thoughts that we can get through to you good people, more the chance of you good people to be able to be on the right path to us. Please also note that at these times when you good people start to take in more good thoughts, the evil ones try their best to stop them reaching you. They may also try to keep on giving you some thoughts that may not be good for you, but you may start to like them and start to listen to those thoughts rather than those of your good spirit guides. So, please do note that those who do some reporting work, work the hardest. Meaning, that they are the busiest. But those who are given the task of giving you good thoughts, like your spirit guides, work the hardest. Meaning, that they achieve the least of what they actually set out to achieve. This is well noted by us in the good Spirit World but less understood by those souls who are on Earth. So, please all you good people, please, make their tasks easy by listening to them. So, please be blessed by all of us and remember God's only wish, for now, is that all you good people be good and make others good and enjoy all the good things available on Earth as well as in the good heavens.

20. Today we shall make you know a bit more of what goes on in the good Spirit World. We begin our day in some manner that you will not be able to understand. So, please understand some way which could be similar to your way. That is, you start your day normally short time after the sun rises. But, you see, it is so different for all in the ways that they start the day. You may start your day if you have some fixed time agreed with the other good people or you may even start your day in some manner that is only suitable to you. So, please understand that days also start at many different times for many different people. So, try to understand what happens in the good heavens. We start our day in some similar way, but we do not have any agreed time or some point of time to start or end our day. This is so because we go on and on till the task that was taken up is finished. You see, we have different groups of angels for different sorts of tasks. For example, we have a group of angels who are given a task of looking after some situations that may occur on Earth like road mishaps. So, a whole group of angels are entrusted for such types of tasks. After this, there are some other kinds of sub-divisions as you may call them. This is because some equipments that are needed for some different work may vary. For example, in some situations like flood, the equipments used are different to those that may be required in case of a storm at sea. Again, some effects of storm over land require some different kinds of instruments as well

as equipments. So, we have made some ways to make these properly allocated, then what happens is we know which group of angels need what. At times, some situations occur simultaneously. Then, as explained earlier, the question of more equipment arises. If not that, then the good question comes as to who should be the first ones to use what type of instruments or equipments. At those times when all is good or when there is not much demand of our good help, then on such days we are able to do what we like. We may only rest or we may join some someone in the heavens and have some good discussions or we may even go to see our good loving souls who are on Earth and see if we can comfort them or give them some good vibrations or just talk to them. You see, our days are very different to those you have. One more thing that may interest you is to know that most of the things work in as much the same ways as those of you good people but in a totally different manner. Some of us remain so very busy that we may not even be able to be with our good loving souls on Earth for their entire time that they were on Earth. This will not sadden us because we get some news of them and their progress; that keeps us happy. This is enough for all in the heavens. So please do know that we need to keep on progressing just like you good people. We have different ways of doing this and we may give you that sort of information later. We all want to give you more good information but what happens is that you are not able to understand very clearly what we are trying to tell you. You good people, most of the time, try to understand our messages in some ways that only you like. If this keeps on happening then what happens is that instead of getting some good information, through some good messages, you end up getting messages and making up stories. This is not liked by us. Please do your best to understand our messages in the good manner that they are sent. If you do not understand, then what happens is that you good people start to make things interesting enough so all may like what you have to say. What happens then is that only those of you, who do not want to think, like such messages. So, please note that if you understand and still you find that the good information may keep you away from doing what you like, then too you change the messages. We do not want that to keep on happening in the new way of living. So, please understand that from now on God wants all to have a very open mind and God wants all to be good, help each other and live in peace in a very good and correct way. So, please be blessed by God.

21. Please all of you should be so very good that no one from the evil world should be in some position to lead you astray. So please do know that there are some very easy ways that you may adopt by learning some very basic and some very simple as well as very little time consuming ways. The first one would be the easiest but not most effective; and that would be like saying a very simple protection prayer. After that comes a few more ways and some of them may be hard for you. For now, we shall concentrate only on some good ways that can be easy and simple for you. So please do know that to keep away from some influences of evil, you all should learn and find out what those things are that could be from the evil side that can get very interesting for you. So, like we have told you already, you good people

should only read good books having good stories as well as some good poems and keep away from those people who always encourage you to do something wrong, and so on. We have also talked about avoiding TV shows and some movies that are not good. You good people will easily know when you come across any of those that we have talked about. After that, you will need to see that there is nothing in your surroundings that can easily appear to be attractive to those in the evil world. So, please see that you keep your surroundings very clean and tidy. We mean this in both worldly as well as some spiritual ways. So, please be aware of the colors around you. Also be aware to see that the good things around you are clean. Please see that if you good people are surrounded by some things like some artifacts or some paintings or some carpets or some drawings or somethings that are fancy, make sure that these do not create some distractions or some attractions to other good people who are around or are visiting you. After that, please see that all in the good neighborhood are good. If you come across some of them who are not behaving in some good manner, then you need not go to teach them anything or advise them on anything. All you need to do is behave in some very good manner. This manner should be so very good that it is easily noticeable by others. Your example of behaving this way will cause others to think more or even copy your good behavior and that will also create some peace. So, please take a note that on some very challenging days, you may even feel like going to them and show them your good might. That will not cause any peace and also it will not create any way by which you or anyone else will be happy. Please always try to find ways that will keep you happy for a long period of time. Please also realise that they may not be some bad people. It may so happen that they are very good souls who would have listened to those from the evil side and are now doing some acts that those from the evil side are asking them to do. So, please realise also that your good behavior can easily attract them to be good. With little help they may turn out to be your very best of all your good friends. At such a point, you should also make it a point to pray some good protection prayers and ask God to give you courage enough to face or be in some company of those good people who are now taking a lot of interest in the thoughts of those from the evil side. Please realise that it is not very hard for anyone to become good even if they may have listened to those of the evil world for some amount of time. One more thing you need to remember, and that is, never to challenge anyone whether they may be good or bad. Challenging anyone causes some very negative reactions. So, please realise that even though you may challenge your family members or your friends, some kind of bad feelings are created if the challenge is not for some very good reason. So, if these can create bad feelings between your families and your friends, then just go ahead and imagine what sort of feelings can be generated between you and those who are not very good or even bad. These are some simple ways by which you good people can protect yourselves from all the offerings or thoughts that come from those who want some of you to follow some wrong ways. If required, we may give you some more ways that are hard but those will not be for all but for some very few. Those hard ways will never let you accept any thought that is not good or any thought that is sent by those followers of the evil world. So, please do realise that once you are able to adapt to some easier ways that we have told you, then

those hard ways can become simpler for you to follow. Please also remember that nothing can be achieved instantly. So, keep on practicing all the good ways till these, automatically, become your normal ways. After that think of getting the good knowledge of harder ways which, in turn, will be more helpful to all you good people. So, please be blessed by God for without which nothing can be achieved.

22. Please all of you good people, please be aware that shift is so very close that it can happen in your lifetime. We mean is, that some of you who are on Earth today, may be able to go through the good process of the shift that we have been talking about. So please do know that all those who are good and all those who are aware of the coming of the shift, will know what they need to do. So, please be aware that they will know what to do; not out of reading of any book, but by the reason of being well guided. So, please remember, as we have been telling you, that the start of the shift will depend on your good call and not that of ours. So, do now understand what we are telling you good people is to be prepared in the best possible way. The number of people now asking for our help is growing up to a very large extent that we have not seen for a very long time. So, please we are asking you to note this fact and be prepared in the best possible ways that you can. Please note that all of you, without any exception, may have to undergo some very difficult times. But all will be taken care of. Those people who will not take advantage of the situation and will refrain from causing harm to other good people, who are also suffering alongside them, will be very well protected. They will be given some extra powers to pull through the event as comfortably as possible. So, please also be aware that most of the weapons that are designed to inflict a lot of harm to all will be completely destroyed. From this event, also some arms and weapons that are very powerful will lose all their power and may become useless to be used in the manner that they were designed to be used. One more point to note, and this is important, is that God has got the good support of many good powerful souls of the other good Spirit Worlds. They are in absolute readiness to extend their help to any extent that God wants. So, now know this, that God will only ask for their good assistance only if it is a must. God wants that all good people help each other as much as they can and always within their individual or collective means. If you good people get afraid of the situation and do not help others, then God may be required to ask for some more good help. So, please do remember what we told you in past. All your valuables will lose all its value; money as you know it, will stop to exist and all that you will then require is love of all you good people to help each other without any expectations from each other. This should be in the same way as we help you. So, realise that we help you good people all the time you ask for our help. This is the exact way in which you should help each other and extend your help to those who would be less fortunate than you. So, please remember that when you help some good people, they may not thank you or even acknowledge that you gave some help that was outside the expectation of any good person of the Earth. Many may take some advantage and do some bad actions as there would not be anyone to punish them or even keep some watch over them. This kind of a situation can cause to be unacceptable to some of you, but you will then see for your very own

selves that things may settle soon. Please ask for our help all the time and know all good people will be very well taken care of at those times, please, explain to others that no amount of worry will get you through this situation in a comfortable manner. So, please let all be aware that all good people will be very well taken care of. Most of you good people, within some very few months will settle very well and majority of you will be in much better position than what you were. This can only happen to only those whose behavior will be good, and also to the ones who can help each other, and they do help others. Please also be aware that all will change, and every aspect is well calculated by us and see no problem as long as you good people be at your best possible behavior. One more good information that we need to give you is that all the good crystals needed to be powered are all now powered by our good and dear God Almighty. Only God Almighty has the authority to do that and no one else in the good Spirit World. Only one key crystal needs to be powered and that will be done by God Almighty only after the shift commences. This particular crystal has a very good power and is used for many different purposes to get some help of other good powerful souls of other good Spirit Worlds and also to control all the other crystals that will be used by others for the time of the shift. Once the shift is over, that may be within three or four days, a lot of work may start, and this particular crystal alone will have the power to restore everything in exact manner that God would like. This particular crystal will be with God Almighty all the time till all is settled exactly in the manner that God would like to give you good people as well as the good Earth a brand new start. All other crystals will once again find their place in the same good manner that God wills. That particular one with God Almighty will go to some place that will only be known to God Almighty. This will not be put away in some known location to hide it, but to be able to be at such a place that those vibrations can remain untouched and also so that it may not cause any disturbance or any interference with other vibrations. Please also know that this particular crystal is so very different that it works with only the push of God's vibrations. There are many more such crystals used by many other good powerful souls of all the good Spirit Worlds that are in existence so far. So, you good people do know that shift is closer now because those asking for our help and those who want our help have now increased and are steady in numbers. The number of good people who have stopped asking for our help are falling. Most important thing for all of you to remember is that everything will be well restored and that all the good knowledge that you have gained will be restored to the same extent. One word of caution here is that in many areas your knowledge may not be of some use to anyone because some systems will change and some of them will no longer exist. So, for those who were involved in such industries will not have any value because their knowledge will not be able to be put into some use. So, with all the systems changing on Earth as well as in heavens, all of you will be much happier. This good situation will make it so very easy to make you live in peace as well as in harmony that the world has not seen for a very long time. So please be blessed.

23. Please good people, we all in the good Spirit World love all of you a lot. Please do make a note of this fact. Because we love you, we want you to learn to be at peace. As we told you and explained to you, it is not very hard, and it is also not very complicated. So, please do realise that the peaceful way of living is not only going to be good for all you good people but also to all the surrounding things. These include all the good birds, insects, and animals. All of these are made to support your good living. If they are well supported, then you good people will get some good support from them too. So, as we had explained why to keep your good surroundings clean and tidy; in the same way you should keep all the surroundings outside your home also clean and tidy. So, please understand that if you keep your surroundings in a manner that is not clean, then those good insects or birds or animals cannot survive in some manner that they are required to be. So, please realise that all the good creatures that God had designed have some purpose. You should not let any changes be made in some manner that they find it hard to live in peace. So, please note that some creatures that have served their purpose no longer exist. Please understand that you should not decide which of them need to be there for you and which of them are no longer required by you. So please do know that this kind of power will never be with you, but still, you will have the good power to maintain all in some in good manner that is required for them to be able to live comfortably. So, some steps that you may think of taking should be in a way to make each and every creature on Earth feel comfortable. You should ensure that you do not make them sick, or you do not make them drive away from their home. You should treat each and every creature as a very important one and that at some point of time they will be very useful to you. So please do know that each creature also depends on the other creatures to enable them to live comfortably. So, if any of the good creatures are moved away, then what will happen is that they may move to some other places to find them and they may not be able to find a proper place to be comfortable. When this happens, they may change their habits and they may then start to depend on some other good creatures that are new to them. Once that starts to happen, then those who need them will no longer have them with them. If this keeps on happening over and over and again and again, then everything in the world will change. Then, the only way all can be restored can only be during the shift or after the shift. In the meantime, you good people may find it very hard to go on without these good creatures. Please remember that you do need all of them to be comfortable. So, if you destroy one of them you will set in motion some way that will remove one creature after another and most of the hardships will be felt only by you good people. So please do know that we are always eager to maintain all on the Earth in a very good order that God would like. Please also keep in mind when we say creatures, we mean all that is and that was created by God and some good angels of the good Spirit World. They include all minerals, plants, birds, animals, and all those that survive in the oceans. So, please do take care of them all and do take some exceptional care for next few hundred years. These few years are very important for all of you good people. Please have all our good support as well as our good blessings to help all of you to go through some difficult times.

24. Please you good people, we want to let you know that you are going to get some good ways that will change almost everything you do. Please do know that very soon we are going to give you some more good ways to get some good energies that will now replace all those you good people are using right now. So please do know that this new source will start with some very small beginnings and will replace many good sources that you use now in some very indirect ways. So, please be prepared to receive this information in a very good way. We have already given some ideas to some good people who are already working on few projects that will bring about this change. So, please do not fight over who's idea is the best. Please think of it as who's idea is the most useful one. What we are trying do now is trying to make you do some good experiments to see how the good things can work in some different ways in some different environments. So please do know that we want all your good sources of energies into one that can be useful at all levels. For example, right from the energies that are required for your phones as well as those required for your homes as well as all good energies required to drive your cars, tractors, and buses as well as all the ways of different travels like planes, rockets, and spaceships as well as all the satellites that are in the good heavens above you. Please also note that if you pick up our thoughts in a very correct manner and if you good people do not fight or destroy some ideas only to get your ones on the table, then all will be very good. It will be so good that each and every one of you will easily be able to have some access to this good energy anywhere on Earth and also with almost no cost to anyone. So please do know that we want to give this good energy a start in your good medical environments as well as in some environments that can bring good music which, in turn, can create some good vibrations. So please do know that those good people who will get these ideas that we are putting, and some more that we will put, need to be tried out in some very safe way. Meaning, that this energy can be somewhat very powerful, and if this gets into some wrong hands, then what will happen is that the good knowledge will be polluted and will cause this knowledge not to move forward. Please be aware that such energies are powerful enough, yet very safe. Please also be aware that any of such ideas that we give will not cause any harm to anyone and no one will be able to use them in such a way to make weapons or to make anything that will be destructive. This kind of knowledge is given with only one good thought in mind, and that is that all good people are able to get this energy without any restrictions. For example, that places that are remote do not now get many things like electricity, internet, or phone connections or even some equipments that are required for some medical purposes all over the Earth. First thing in our minds is that all should be able to get all the benefits of this good energy and at some cost that can be borne by only those who are working on it so that those good people who need to use it are not put in some position that that they may be unable to pay for it. So, please be prepared in few decades to see it happen in a very good way. What we have also planned is that if some people try to stop any progress in this field will be left out of any bad benefits and will not be able to make some another kinds of energies which can be better than the best ones. So, please do not fight and please do be open to receive this knowledge in some very good way.

Please keep in mind those who are less fortunate and do not have some basic energies to cook or even light up their homes. Be blessed now.

25. Please you good people, today we are going to make you aware of some good features of some good way of happenings of some good Spirit World. So please do know that we all can do so much for you, yet we cannot because of some reasons which you may or may not understand. So, we want you to know that if you learn to ask for our good help in some very good and accurate ways, then you good people will stand to gain so much more than what you realise. So, first thing you need to know is that you should learn to help some other good people in some very good way whenever some good help is asked. You good people should know that if someone or the other were to ask you for some help, then you should; but only if you are really satisfied that the good help asked for is something that cannot be done by those who are asking for your help. Now the second thing. You good people should learn to share all your knowledge with all. We mean anyone who will be able to learn from your knowledge or completely understand your knowledge, even to the extent that they may finally be in some position to perform in a manner that is much better than what you can. So please note that this is so very important if all of you were to advance to some good knowledge to be able to create some good things, which in turn, can help not only you or some few, but so that most of the good people who are well educated and are very healthy to be able to learn most of your good knowledge. We also want that those in some medical profession share some knowledge as well as some skills to such an extent that the entire population of the good Earth get all the good benefits. So, in turn, many good people can be well comforted. This is very important to us. So please, if you do these two things well, then all the good vibrations of the good Earth will be so very good that any help you may ask for at those good vibrational levels can get to you very fast. The third thing that you should bear in mind are about your financial arrangements. Please note that no amount of finance that you have can get our help in any way. Please remove from all your minds that the more money or wealth that you offer to us or to any good religions in some situations will be helpful to you. So, please note that such kinds of expectations should be completely destroyed in all your good ways of thinking. In fact, it saddens us that such kinds of actions if set out to other uses would be so very helpful to those who are very unfortunate. So, please understand and then undertake to revamp your financial activities. Please all those of you who have enough; and by that we mean as some individual people as well as some good organizations as well as some good communities. Please all of you who have enough to maintain yourselves, please come forward and think of helping all those unfortunate ones. Please note these three points that we have made. Once you are successful in doing these three things, then you will yourself feel that you good people have moved closer to us. At those times you will be able to see for your very own selves that all your prayers and all the good help that you ask us, are granted in so very different ways that you have never seen happening before. So, please also understand what giving help means. It does not mean giving some support. What we want you good people to do is prove to

yourselves and us that you are able to give some very good help when help is needed. So, please also know that help to any of your family members comes first. You should always help them first. Some family members should not reach out to you asking for help. For some family members, even if you notice that they are in need of something, then you should do your best that the help is well extended. So, please see that all in the family are well protected and that they feel very secured with the thought that they are safe as long as someone in the family is around to help and support them. Please, those in some favorable situations should actually be on the lookout to ensure that all in the family are safe and that they can depend on such members to go out of their way to help them. So, please do be blessed and the more help you extend to all, the better will all the good vibrations get, and they will get stronger and stronger till no bad vibrations are able to mingle with them.

26. Please, you good people should learn to do more for all those who are very unfortunate. You see, what you see around you and what we get to see from the good heavens are very different. You good people only get to see those things that are around you and nothing within you. Not even something within your very own selves. So, please remember that we can see everything that is around you as well as all that goes on within you good people. So, please realise that those things that are going on within you should reflect well in some ways and all your good actions should be based on all that is going on within you. If you do not do this, then you cannot say that you are leading some life that is righteous or even near to righteous way of living. So, please now understand, and this is the hardest way of all the good ways and also the only way to be able to live in peace and harmony, with those you all get involved with. Please also know that will be the first step towards living in peace and harmony. After that comes the good question to be able to live in peace and harmony with all other good creations of God. So, please realise that when the question comes of being able to live in peace with the rest of God's creations there will come some good times of some good disagreements. At those times, once again, some bad vibrations may start to build up. If at those times as you start to be in some good position to be able to lead somewhat of a righteous lives, then at those times please say your good prayers. Those who have some good set of daily prayers, should say them without fail. This way you good people will get the required protection. That alone will keep you happy enough to solve some problems that you good people may come across. You will also see at those times that the wars are slowly and slowly disappearing. This will also be a good help for all you good people. So, please note that by the way you will behave with each other, there would have been some very good changes in the ways you conduct your businesses as well as you will have seen some major changes in all your economic ways. Not only will the methods of doing some business but also some more ways by which you all will trust each other. All such ways will help you to raise your families in some very good ways and all of you will feel very safe; not only from all those wars that you would have seen but also from each other. Meaning, some bad vibrations will reduce to such an extent that some bad ways

like stealing as well as cheating will reduce and will be very insignificant to notice. After that, they will disappear completely. For this to happen, not only you good people will need to work hard, but all in the good Spirit World will have to work very hard too. So, please we repeat that do keep on asking for our help. Please realise that you cannot do all by yourselves. At the same time, we also are not able to do all by our wishes. So, if you keep on asking for our help, then what happens is that we all can work together and that will be the best way to get all from the evil world to move away from all you good people. Once some good vibrations increases to certain levels it will cause some in the evil world a lot of worry. At those times they will be working the hardest and try their very best to see that you are not then able to increase any good vibrations further. This is the time we say is the most important because this is the time when you good people can become strong enough to make some very good vibrations strong enough to overpower those bad ones. So, please note that only at this time you do what we told you good people to do. Pray more and do all that you can to reduce and destroy some bad vibrations by doing many things like diva and wood fire. Once you get across this good period in some good way, then all will be very good on Earth for all the time to come thereafter. So, please do note this very carefully and be well prepared for those days and please teach all good children to learn all of the good God's ways so they are well prepared when some proper time comes and are in good position to be able to take some good control of all those situations that can arise by all those bad vibrations that the evil side may come out with. Please find strength through all the good prayers and through all the good ways that we have shown you.

27. Please, you good people should know by now that the good plan that is set for all of you is to make this good Earth perfect in all the ways where there is no evil and where there is no fear of doing anything that any of you good people may not like or may not want to happen. So, please do know that it is important to have a very peaceful life because you all are going to be blessed with some very long lives and if you good people, if not at peace, would not like to live long enough on the Earth. Please be aware that long life is planned for you right from the start of the creation of this good Earth. Please know that this can be permanently achieved. We all have made notes of all that will suit you in the future that is planned for you. So, please do know that the longer the life, the better it should be in all respects. For example, you all, and we mean each and every one on Earth who will be present then, should be able to have all that those others have, and all will have to be as comfortable as possible. These are very important for all. So, please do your best to see that all on this good Earth do their best and think only of making lives of all as comfortable as possible. What is noticed by us is, some few are trying their best to do all that they can to achieve not only peace but also comforts for more good people. But some of you, who are in influence of the other side, do not allow this to happen. So, please do your best to spread some good message that all should try their best to talk to those few and see that they do not create some bad vibrations. Those who get influenced by some ways that are not good are very few. They do not get anywhere close to be even half a percent of your good population

and those from the evil side are so very few that it is not even worth a mention. So, please do realise that though they are so very few, their influence is very great on you good people. That goes to show that it is very easy for you good people to listen and do and ask for some help or some ways of the evil world. Please realise that those who are now worshiping the evil and are accepting some evil ways are now increasing. You good people are also able to easily spot them so it should not be very hard for you to approach them and give some ways that are good. If they do not agree to do what you have to say, still it will influence their minds. Some may even try to give some good ways a good chance. So, please do know that few good people who are asking some help from the other side could be doing so, so that it is easy for them to get some help. These people would be well inclined to revert to the good ways once they find out that the good help from good Spirit World has some very good values. Then they can be some carriers of messages to others who are worshiping the evil side and are taking their help. So, please do know that a long life is planned for you good people so that you can enjoy Earth more and to keep on progressing Earth to some very good extent so that all in the good heavens are happy. Please realise that the longer you live, the more resources you will need. For that you good people will have to learn not to waste anything. So, please do know that we will be showing you some most progressive ways to avoid all wastage slowly and slowly as you all progress to be good. What we mean is that there will come a point in time where there will be no wastage whatsoever. So, people of those times will have no idea what wastage means. What we mean by that is that there will be so many different ways to keep everything so very useful that there will be some use for everything, even some small bits of paper or bits of garments or fabrics. So, please do be blessed and please see that you give a start to all that we spoke about today like starting to be good, helping those who are taking help from the evil to do good, and to start ways of not wasting anything that is possible.

28. Please, all you good people, please do know that now is the best time for all to start thinking of all in the good heavens. So, please do know, and many of you do know, that we do not recognize any religion that you good people have designed. So, please be aware that we do not, and we will not answer any prayers if they are reserved for only in some of those restricted religions to be prayed only by those good people of those religions. So, please make a note and try to understand that we always look after you good people in some very good ways. We always answer any prayer prayed by anyone, firstly, on need and deserve basis. This has been made very clear to all you good people. So, please also note that those who pray for some good situation and those who pray for themselves and those who pray for those in their families to be good are always answered in some different ways. Please do know that those who help some struggling families and those who help others to be good and ask for help for those reasons or situations are given some special consideration and are almost always answered and they are answered fast. So, please do know that any prayer prayed for some situation and those asking for our guidance or help are always heard and these are heard in some very different

ways. For us to answer any good prayers, you good people should, first of all, pray only to good God Almighty. Please always remember that nothing can be granted by any angels or any good angels, including God's own good angels, if it is not authorized by God Almighty. Please, those of you who control some prayers of some religions to follow, should open up and make sure that if you have some good prayers that you good people have found to be very useful, then you should open up such prayers to all of the good people as well as not so good people who are now there on Earth. So, please do remember that if you create some restrictions, then very soon you will find that we will stop answering such prayers. So, please remember that anyone can pray any prayers to us from any of the religions and we shall see that are listened to. So, please do know that no prayer will ever go in waste, even those that you very well know are not going to be listened to. We also find that many prayers in some good religions also ask us to grant you or someone you wish for, to get some good amounts of some kinds of some windfalls or you may ask for something in abundance, including wealth. Please know that no one in the good Spirit World has some way to be able to grant such prayers. So, please good people what we are asking you to do now is to make some note that praying to God Almighty and asking for some kind of smaller help are very different. So please, when you want to pray for some few things that are very important to you but may appear to be very insignificant to others, can be prayed directly to some angels or to some good angels and they will be well listened to. Those prayers that may be insignificant to you or may be significant to you but are also very important to others should be prayed to only good God Almighty. So, please do understand that the line is very fine, and not only that, but it is also very hard for some of you good people to understand. So, to be safe only pray to our good God Almighty. So, please do understand that if you pray only to God Almighty, you can be assured that your prayers will be listened to. Please, a word of caution here; if you pray some small prayers and if you pray some prayers that you already know will not be listened to, and you pray these to God Almighty, then it will be noted as some more way of not being listened to by some more powerful angels. This will cause you to be unable to pray some good prayers that would have normally reached some very powerful angels. So, please use your judgement and make sure who you can pray to. Another thing we want you to understand is that if you good people have kept on listening to your spirit guides, then it will get easier for you to understand that they are the best to ask for some small help and for all comforts. So, please make sure that for some serious situations and for some good help, you pray only to good God Almighty. So, please do be blessed and please be reassured that all your prayers, no matter what, will always be listened to. Please make some very useful prayers be made available to as many as you can. Please do not keep prayers separate from religions. Please do remember that we do not recognize any religion that now prevails or those may be brought about by some people asking others to follow them without questioning anyone. Please do understand that we only consider those good people who do only good and help others and give comforts to others to be the ones who are following some good religions, is acceptable to us. Please be very sure that anyone following any religion, and then not being good and have no desire whatsoever to help others or give comforts to others are then

accepted by us as some good religious people. So, please be blessed to understand this message in some good way that we are trying to explain. So, please do realise that all go to the same place, no matter what religion they follow once their good term on Earth is finally over. So, please realise that the only thing that you good people need to do is only to be good and helpful.

29. Please good people, today we are going to let you know how we keep on sending some good souls so that some good ways are understood very well. We also send some good souls to keep good vibrations at some good levels that are always required to be kept at. So, please do know that ever since evil has set foot on Earth, evil has fallen in love with this good creation of God. So, after that, evil has tried to make some good copies of Earth and they did succeed in doing that. What happened thereafter is that they had no way and no knowledge to keep on progressing this place in some manner that God did. They found that there was no way that they could progress this place further. They also tried to create some very different creatures to be there but none of them were happy enough. So, evil found an easiest way, and that was to coexist with all the good creatures of God and to be with them and to enjoy all that was offered on this good Earth. Once this was realized by some good souls, they found evil to be very annoying because the evil vibrations started to cause some bad conflict with their good vibrations. Later they found that they could not progress in this manner. Some good people then started to take interest in the doings and offerings of the evil world. This was explained to all of the evil world but some of the good people stopped this good way and asked that evil may and can stay as long as some good people really desired them to be. This way all the good progress started to slow down. Then God sent some good souls to talk to all you good people and to make you understand that if evil remained on Earth, then some good vibrations stand to be disturbed and so some good progress cannot go on and so they should stop from getting involved with them and follow only the good ways of God. They also explained to all the good people who were there, that all in the good Spirit World would always be there for them and will give them so much good help that evil may never be able to give. They explained that the ways of evil world were very different, and it only gave help to those on the evil side. You good people did understand what these good souls, who were sent, explained. After that what happened was that some good people, who were well advanced with some ways of the evil, started to explain that what help can be got from the evil side can never be matched to those of the good side. They also explained that to be good, once you have the easier ways, are very hard. They also explained that good ways are so very hard and to get help from the good Spirit World is not some easy way to get help. They showed them some ways that were so easy, and they showed that to do things in a way that are from the evil side are not only easy, but they also give good people a lot of joy. Then some good people got attracted by those ways and started to try out some ways that were shown to them. Then slowly and slowly more good people started to join them. They also found that good ways are hard and many of the good ways were very hard to follow and that the evil ones had very limited rules and they were not at all

hard to follow. This eased the minds of some good people and some of them started to practice both the good and the evil ways. What then happened was that they took help from the evil side, and when they noticed that they were left out of all the joys of the good world, then they started to seek some joys of the good world and at that stage they found it extremely hard to get anything from the good Spirit World. After that, came a stage when those people stopped to call for any help from the good Spirit World. Thereafter, came a point when they started to think more on the lines of evil ways and started to think that there was no way to get any help from the good Spirit World, and instead if they just did what they wanted to do and if they just did what they liked, it was enough. So, they found no need to take any help from any side. This kept on happening again and again. Please, our good and dear good God Almighty wants all to be at peace. In this message lies the complete meaning of happiness and progress. So, please you good people, do not think it is hard to get our help. Our help is in every action of some good people. Please do notice how you all are now being helped by us and not by those of the evil world. Please understand that those from the evil world are very few but their ways are very tricky, and you are taking more interest in their ways and not our ones. So, please do not fight over anything. Please realise that those from the evil side are so very few that you may not even come across one of them easily. Please consider anyone you come across to be only from the good side. Few of them may be showing some bad ways of behaving but that is all. They are not really bad or evil. Please talk to them and help them and consider all to be some good people of the good Spirit World. Realise you all will be together at some point of time. So, please start to break all barriers; starting with the barriers of religion, countries and then of everything and remain and remind all that we all are one beings of one place and that is of the good Spirit World. So please be blessed by all in the good Spirit World.

30. God Almighty wants all good people to be good and help all those who are suffering at the hands of those who do not want to help them in any ways. So please, these people are so much in need of many good things and most of the things that these people want is some love and some good wishes and some good ways. So, you good people should love all those who are struggling and if you love them, you will automatically help them and create some good means to see that all are comfortable and that all are able to have all that is needed to live some good but some simple life. So, please do know that now is the time when all you good people should get together and form few good groups who can then look after such good people who are struggling in many ways in which they should not. Please also realise that God has planned a lot for all you good people and do remember that whatever God plans can only be for you good people to be good and happy and comfortable. Also remember that whatever God plans always works out and it works out in a very good way by which all you good people will not only be very happy, but you will then try to understand why it took so long for such a good change to happen. So, please do realise that this could not have happened if you good people or some of you good people had not asked for our help. So, please

be thankful of such good people who asked for our help and please let that be some good example to all of you and learn that asking for our help is always good and it always works, and we always try to look into all the aspects of help that is asked for by anyone. So, please do know that when you ask for our help to help others, that call you make is now handled in some different way. Please do realise that those assigned to give some peoples protection take up such prayers and after that, once it is looked into the type of help that is required, it is then assessed how fast it is required. So, please do know that all such help asked for are not for some immediate use, but they also could be for some situations. So, please realise that if some help is asked for, for some situations, then the good angels have to make some arrangements and they may be required to organize some groups of angels so that they can then go ahead with a good plan and do all that is needed to be done. Please also know that all good plans for such needs do not work out all the time if most of the plan requires you good people to get involved. So, please do know that most of our plans involve you good people doing what we ask of you to do but you do not realise this, and you do not follow up with some thoughts that we give you. So, please realise that, at times, we both have to work together. If you good people do not do what is expected from you, then the plan will not work correctly. So, please, when we give you some good thoughts to do something for others, then please do not keep those thoughts out, but please get involved in some very good ways and do all that you can. This is the reason why we stress so much that you good people try to help all. This is because if you create this habit, then when we give you some thoughts to help others, then at those times your reactions will be like some way that is already learnt and at those times when we prompt some plans to you, then you will be acting in a way of automatic reaction and not in a way of following our good instructions. So, please realise, that more than ever, many people are in need of many good help. So, please make some ways by which those who have plenty, share with others and make more and more people very happy and comfortable. Please be blessed and please help others in a small way and then receive a very big reward when our good help joins you good people.

31. Please good people, we want you to know that all good souls who love you, are very keen to see that you do progress and be happy with your progress as and when you return to find some good place in the good Spirit World. So, please do realise that it is so very important that on your return you find some better place than what you were at before your rebirth. Even if you return at the same level, you will be pleased, but your good loving souls and all the rest in the good Spirit World will not be pleased at your performance. This is because we all in the good Spirit World want all the returning souls to return at some better levels than what they were earlier to the rebirth. This is because you did not add any more good vibrations, to not only yourselves, but also to the good Earth. This also makes a difference to all the collective vibrations of the heavens as well as those of all the good God's kingdom. So, please do all you can to see that some more good vibrations are created. If you do not do this, then all the term of your rebirth is totally

wasted because it helped no one and all the resources of ours got wasted. So, please do know that with all the rebirths, as well as with some souls who are specifically sent, a lot of our resources get involved. We need to offer you those good protections that were then promised to you. Not only that, so many spirit guides and other good souls who would have wished your progress, are left without any progress, and all the good work put into being with you, is then completely wasted. So, please now realise what we have to say about those good souls who return without any good progress but instead those who lost their good vibrations after their rebirth. So, please do realise that such kind of returning souls are not appreciated by even those who are very close to them. Sometimes, such souls do not even want to come and receive them at those gates of the heavens. This is because they may not like the new vibrations that those souls returned with or for the reason that more resources to waste will not help and also so that the soul then realizes that what that soul did was not liked by anyone in the good Spirit World. This, of course, does not help anyone; but the soul will keep this in mind and when this soul plans some rebirth again, then this soul will know how to make a plan and will also realise that all that may be planned should be well considered. This soul then accepts more good suggestions of those good souls who would be guiding and advising this soul. So, at those times, this soul will not then insist on making some plan only in the way that this good soul wishes but will take into account more of what the group of the advising good angels have to say. So, please do realise that at those times of plans the good suggestions are so very important to consider. Please also realise that you should know this also on Earth so that it remains with you on your new rebirth. Please also know that all good souls of all levels and all other good souls, including, good, good angels as well as all the Gods, including our good and dear God Almighty, really want every soul on Earth to progress well and return with better good vibrations that are well above the good levels of any soul who return to the good Spirit World, including those that were sent for some specific work. So, please remember that every soul, no matter what, should return with more good vibrations than they went with. So, please do know that those good souls who were sent for some specific work need not return with more good vibrations, still, if they do, then these souls are received in some very different ways and many a times God Almighty Himself receives them. They are, then immediately allocated some more good work to do by God Almighty. These good souls are then given some work that is hard, and they generally always return very successfully. So, please you good people, please spend some more time looking within yourselves so that you reflect well and so that you are able to know where you go wrong and return with best vibrations. Please be blessed.

32. Please good people of the good Earth, please do know some good ways we now ask you all to follow. So, please do realise that some good diva or a candle is something as some minimum requirement when you say your prayers. Especially when you good people want to say a good daily set of prayers, we want you all to have some candle or a good diva and even if you would have just done some good wood fire a short while ago. Please all of you who can and are able to, keep some

candle or some diva going on. This is so that you have some best of good environments for your prayers to reach some of us. So, please do realise that if you always have some candle or diva going on, then it not only is very useful when you say your daily set of prayers, but also any casual prayers that you may pray at any time of the day or night. Not only that, but it also gets to be very useful when you are talking to your good spirit guides or your good loved ones in the good heavens. So, please also know that since it keeps your premises free from all the negative vibrations, it also creates a good atmosphere for our good angels to give you some presence throughout the day as well as night. Please know that at times it is useful when you meditate too. These types of fires are a little different to those like wood fire. What happens at those times when you do some good wood fire is that all bad vibrations are destroyed, yet you will need some sort of presence of some good angels to be there and they are very happy to give their presence and remain there if some sort of fire, that is made with some sort of prayers, is present. Please do know that at those times more good angels who would be passing by may also make a stop and wait there for some short period of time or longer too, depending on each of the situation. Many times, it also becomes a place of a meeting, and some good angels may get involved in some discussions and may remain there to give more instructions or they may even start to give you some good thoughts that can turn out to be very useful to you. So, you can now easily realise and see for yourself how beneficial it is to have a good fire going on all the time of the day and night. More important is the nighttime which is from midnight to some time before the sun rises. At these times, evil or some bad vibrations are very easily created or remain present in some very strong manner. So, a good fire will, most certainly, play a good role to see that these do not develop some great power and that they do not get some ways to affect you in some ways that are not good. Another thing we want you to note is some language that you use. We do not mean those words that can harm others, but we also mean those that are wasted and are said for no reason. That also includes some words that have no context and are said only for the sake of showing some authority or to make the person, who is listening, feel bad. If you use any language that is used for creating some bad vibrations or to make someone, feel uneasy, then please do understand that you are creating some grounds by which you good people can lose steps. So, please remember that some simple mistakes can have some greater impact than what you may realise. So, please do know that some words that may be used could be bad but may not create some bad vibrations, then you can consider them to be safe and may not affect your good steps. Still, these words are not liked by us, and some good angels may move away from such situations. So, in turn, you may miss out on some very important thoughts that they may be wanting to give you. So, please do take into account as much as you can and see that you do not miss out on anything that can be very useful to you by doing or by not doing some few things that are very simple to follow. You will immediately notice the difference that such kind of your good actions can make. So, please do your best and get the benefits of those good angels who want to help all of you.

33. Please you good people should be good for many good reasons and the topmost one is to be able to live in some good peace where you can get everything you need and also some good comforts. So, please do know that there are many ways which can help you to achieve this in some very good and also in some very simple ways. So, please do know that if you good people become a little more honest than what you are, then some good things can start to happen. So, please make a good note of this. This is because if you all start to be honest even by some slightest bit, then slowly and slowly you all will start to trust each other. This is a very important factor in achieving some peace. Another very simple way is to not let anyone go without some good food and some good ways of living, including some very important comforts like, some good and important medicine. So, please do realise that some few things of comforts can turn out to be more important than some food or even some place to live. At times, many want that they be comfortable and then their children be comfortable too. They would certainly want some few things like medicine over some food. So, please see that all get some food but also see that all get some good things like medicine and some tools of communications. After some good things of some good ways are provided, like food, house, and some things of comfort; make sure that few things of communications are also provided. By good means of communications, we mean good tools by which all get to know what goes on around them. That will help them to be prepared of all good as well as bad situations that could be going around. This is also important because if such information is not available, then such people will not be able to be active and they will not know what to do and when. So, please do realise that many such simple things, when put together, goes a long way to create peace. So, please some groups of you good people should also hold some meetings with those who need to be told some few things that are important to them. So, please form such groups and talk to all those good people and teach them all the good ways of living and that too with some resources that they already have. So, please do also know for certain that some good protection is also very important to be at peace. So, please see that each and every person feels well protected. This means that at all levels and for everything. So, please understand that if there is some lack of protection or even if there is some feeling within some good people that they are not protected, then all the peaceful feeling can get very easily destroyed. So, please, we want that all should be protected against all kinds of diseases, all kinds of dangers and all kinds of bad and evil sources as well as all kinds of bad and evil vibrations. Please also realise that to provide such types of protections are very easy and all of you good people should make it a point to see that no one takes some advantage of people who are not educated enough or also it can be that their languages are different or that they are not simply able to understand. All such people need a lot of protection under a lot of different circumstances. The harder part is to provide some protection against some bad vibrations. For this to happen, you may have to try very hard to make more people understand the existence of good as well as evil souls that prevail on all of you good people. To make this hard task easier, you should involve all those who already know about our good existence, to make wood fires as frequently as they can; no matter when they can. So, you see, wood fire will keep on destroying all negative vibrations and so, unless

some more get created, all such negative vibrations will reduce. So, then collective power, in turn, will diminish too. So, please do realise that the few steps that we gave today can be very helpful and will go a long way to reduce negative vibrations and that will move you closer on the road to peace. Please do be blessed now and please ask for our good help as well as our good blessings and collectively work and try your best to get more peace as quickly as possible.

34. Please good people some good messages from God and one of them is that God loves you all without any exceptions and God wants all of you to be at complete peace. So please, we know that all of you already know this from all those times when the first message was given to you good people by some prophets of God. So, what we mean now is some good peace in which not only you but also most of the good creations. Please do notice that these days, as never before, this message is so very important. God wants all of you good people to be at peace with all of God's own creations as well as some good creations that are also created by you good people with some outside help. So, please do know that you will easily know the difference between those two good creations. So, please do understand that only those who are in any ways, or some ways connected to such creations will be in some position to know the difference. So please, for all of you, you all should only take into account those creations that make you feel happy or are of some good use to you. So, please now be able to do all that is required to keep all the good creations in some good protected way so that they can now survive all that puts them to some kinds of danger. So, please do know that for many of those creations you may not be able to do something much. So, also know that some good creations are also of no good use to you. So, we may now stop those creations from growing. So, please do know that those creations that pose some danger to you and your good children should be immediately destroyed. Those of you who are now thinking of making some weapons, should now stop to think about that and should concentrate and try to think of ways of not making them and also think of some ways to make those already created to be made to use less. So please, this way of thinking can also help some people to think that such weapons are actually of no good use and even after making them, these weapons cannot be used without destroying your very own selves who are now thinking of using them. So, please try to also think of stopping as many wars as possible. If you succeed in stopping few wars, then you will also see for yourselves that the need for weapons can diminish too. So, please try to understand, if there are no wars and if there are not going to be any more wars, then all the need to make some weapons does not arise. This will also make some very good people think and take some steps to make many other good souls understand that all the wealth as well as all the good knowledge and time put into thinking of making some weapons can now be used and that many can find it, not only useful, but also very attractive. Such things can make most of you good people very happy. Also, some good amount of wealth, that can be or may be saved, can be put to use to give many good people some very good means to look after themselves as well as their families. Please, we want, and particularly God Almighty wants, you all to know for

certain that many very good people are already thinking this way and are trying their best to get their messages across; but some of you are trying to block all such efforts. So, please do know that if you good people ask for our help and if more of you good people start to think of those who are not very well settled and see that they get some share of, not only wealth, but most of all some love of you good people, then soon the look of your good world will change, and the good Earth will be much better. Then all can think only of some good things for all and not only for few. This way we all in the good Spirit World will be pleased and then we may be in some position to get help from other good angels or other powerful souls of the good heavens. This will make all of you worry free by us providing you all with all the good things you need as well as all the good comforts you need. You will see that many will now have all those things that will make them very happy and most importantly you will see this happen very, very soon. So, please do not now think that you all are not getting any good help from any good sources, including your very own sources of the good Earth. All you good people need to do now at this stage is to support those few very good people who are thinking of making lives of all very good in some ways that all need to get involved. At this point it is very important that they get your full support. Please do not, do not talk anything bad or try to block their ways. If you cannot support them, then please do get out of their way no matter what. Please also do not stand in their way and in the plans that they may try to make for all you good people. Please be blessed and please do remember to ask for our good help and please protect all those who need protection and please be some **kind** people of the good Earth.

35. Please good people, please do know that some good things may soon start to happen, and your good lives will become so good that, slowly and slowly, you all will love being good. You all will see the good benefits of being good and you will be more peaceful than what you may realise. So, please do know that to go on achieving this, you good people should only take upon your good selves to be good and be good in such a manner that some of whom see you behaving in some different manner also start to behave in a similar manner so, you see, all good people will want to be good. The only thing is, that many of you good people are also doing some good things that are right and very well-liked by us, but many of you do this in some good manner that is not exactly out of love. So, please be kind to all those who are around you and also be very kind to those who ask you for your help. Please do not consider such people to be poor and that they have reached out to you because they do not want to do things for themselves. Please also do not think that they want to be lazy. Please do know that some of such thoughts may be very valid and some may reach out to you for such reasons, but it is up to you to ensure what the good situation really is. So, please do not deprive anyone reaching out to you for some help. Second important thing for you to know is that all that you want will also be some wants of for others too. At some point it can be possible that what you want is also required by someone else. At those times, you should make it a point to assess and see who can benefit more out the use of those things that you want. So, please do realise that it will always be in

your minds that you may be able to put into use such things much better, but that may not be correct. So please, even if you feel that other people may be in a better position to make use of those things, still, you good people should have a good long discussions between yourselves and see who really should get some benefits of those things. So, please do your best and help as many as you can, particularly help those who reach out to you because such people would only reach out to you because they somehow feel that you are their best hope to get some help. Please also know that those who love you, should be well loved in return. So, please try to understand what we mean. Please understand that those who love you, may not say that they love you or even try to do something that you may consider is done out of love. But as far as they are concerned, they did do something out of love, and you will know this for certain. So please do not ignore such good people. Please always realise that anything you good people do out of love and not out of some expectation, are always liked by us. In return, they are then able to get a lot more help from us. Please understand that some help from us, if only available to some good people, is always very good because such people only seek help for others. So, please also realise that there are many different people with many different thoughts who want to do many different things. So please, those of you who want our help for anything, please do ask. There are many good people who also ask a lot for our good help for others, and we very easily try our best to grant them, but only if it is really useful to all of them. Then, there are very few people who do not ask for our help for themselves, but they always ask for our help for other good people who are very unfortunate or for those who are struggling a lot. Such prayers are then always answered without some exceptions. We may only not grant such prayers, or some calls for help, if they can go against some plans of our good and dear God Almighty or if those good people really need go through what they are going through. So, please be blessed and please do your best to be good and then to remain good. So, please look forward for some very good times of Earth and be blessed to be able to now understand things in a very good way once you are in the good Spirit World where we all can have some good discussions.

36. Please all of you good people, please always realise that the world outside your one is very large and a different one. For all of you to be able to see that, all the good realms need to be completely broken and done with. There should not be a single soul present in any of the realms of the good Spirit World. After that, when you good people will be able to be with only God Almighty, at those times you will be in some good position to have all of the good universe and you will get to know the complete working of all that goes on outside your good world. Please do know that those who are already outside all the realms are able to know all of the good working of the good universe. Please know that this is the reason why we want all of you to come out of all the realms as soon as possible. One thing for you to note is that once you are out of the realms and are able to know and to be able to take all advantage of being able to travel all over the good universe, you will realise that those who are now working to help all of you on the good Earth are not able to do

so. So, they also do not get some benefits of different vibrations for some very long time. So please, you good people do not realise what you all are missing out on. You also do not realise that you are also missing on the real beauty of this good Earth. Therefore, you are not able to enjoy your stay on this good Earth in some manner that you should be enjoying. So, please do realise that some of you are working in some good manner that is working in some opposite way of some who are trying to make this world of yours better and better. So, please do know that there are very few of you who are trying to stop this good work. So, please do realise that, that all depends on most of you good people to create some good vibrations that will help those who are trying their best to make this good world better for most of you good people. Please give up all those ways which attract you to get some pleasure or some joys or some attractions of bad vibrations. If you all become very good very soon, then not only you will be in some better position to enjoy this good Earth, but you will also be able to enjoy the good heavens and much more. So, please do know that there is a lot that you good people do not know. So please, when we say that this good Earth is one of the most beautiful creations of God, we mean that there exists no other place in God Almighty's universe that can have all those good vibrations that are found on this good Earth. The good vibrations of this good Earth are not only a bit different but are some unique ways of such existence of some good vibrations. So, please realise that no other place, so far, in God's creations exists where there is some presence of such vibrations; where can exist some different kinds of creations giving out different vibrations and also be present at the same time on the same place called this good Earth. So, please do not think that there does not exist any other place where there is no beauty like that of Earth. There are many more places that can give you more vibrations and good ones which are so very different too. You all will surely like them more than what you can get on this good Earth. So, please realise that when we say that this good Earth is one that is most beautiful creation of God, we only mean what we explained. That there can exist so many different good vibrations assembled in some way that is so very unique that there is no other place where you can find such type of coordinated vibrations. So, please do know that there are plenty more places where the good vibrations are also unique, but they do not represent those that are found on this good Earth. Also know that for you good people to know of those good vibrations you should be able to travel very fast and very far. So please do not, at this stage, try to look for them or even think of getting close to them or even detect them. So, please do realise that this can only happen in absence of any realms, which in turn, means no bad vibrations of even of slightest kind. So please do be blessed with this good knowledge and please try to become very good and that too very fast so we all can go to God Almighty together and ask for His good blessings to be able to help Him and enjoy more under His good direction.

37. Please, you all should know that some places of good vibrations are far away. So, please do know that you may need, at some point of time, to get these. The reason is that those good vibrations are then going to be required by you for many reasons.

One of the main reason is to get some good knowledge of different ways of travels. So, please do know that the good knowledge can only be unlocked by those good vibrations. So, please realise that those vibrations will also be required to make some dramatic changes in your knowledge of medicine and some parts of science. So, please do not think that you may have to travel to those places to get some of the effects of those good vibrations. These good vibrations can be had by any of you good people, but, if not required, you will not be able to get those good vibrations. Those who will need them the most would be some people of science. So, please also know that only being some person of science is not going to be enough. The more important aspects would be to be able to contact us through any means. Those means could be some ways that is already made available to you good people, that also includes some good ways of meditation. So please, these may not be the only ways because some good people of science may not be able to accept our good existence, still they should be at some very important levels to be able to accept our good thoughts. They should be able to meditate in a very good manner so that at those times we are able to take them to those places of such good vibrations. So, please do know that once you good people get this good knowledge, then you will need to create some good means of travel to be able to go to many places where you cannot go now or even think it possible to be able to go to such places. So please, some of you who are able to do some good meditation, should keep on doing as much meditation as you can and as long as you can. So, please do understand, if more and more of you good people can do more and more good meditation, then what may happen is that your good meditation will make you get such good vibrations that are different. Such ways will also be able to give those who are working in some fields of science, get the benefits of those vibrations that you pull in your good meditation. So, it is so very important that those of you are able to do some good meditation are also in some good fields of science and medicine. What we mean is, that we would like many of you who are in some fields of science, including those who are in medical fields, do more good meditation. So, please do know that we are well aware that many of such people are already doing such types of meditation, but please be aware that you all are not doing it in some correct manner. Those of you who are aware that you are doing some perfect ways of meditation, then please do talk to those who you are well aware that they are not doing so in some correct manner. Please do not think that your good word will offend someone or that they may not be taken into consideration. This will not happen because at those times you good people will be telling something that is going to help those people and also because we will surely be present at those times. We will help all the good thoughts to get well communicated across. So please, it is so important that all those who are meditating talk and try to teach all that you know of all the good ways of meditation. What we also want is that, even though your ways may not be perfect, still, you should try to teach those who have not even tried to meditate. Please try to spread this message across all good people that practice of meditation is always very good and that to get some good returns of some meditation takes a very long time. So, please ask all not to give up trying. Please let all know that at those times many good angels gather around and try to see that you try to do your meditation in some

good ways that can turn out to be very useful to you. Then your good vibrations get better and better. Even though you do not see any benefits, be assured that you are benefited a lot and that it may not be noticed soon, still, after a good amount of practice, you will be so much, in some good ways, to notice all the good benefits. So please do not seek any benefits of meditation. Please now be blessed to be able to better your meditation. For those who have not started yet, please be blessed to be able to start.

38. Please good people, please do your very best to help all people and love all people too. So please, help all your loved ones, on Earth, first. Please give them so much of your love that it is always understood as some good love of yours. So, please be aware that we all in the good Spirit World love all of you and that it also includes God Almighty and all His good angels. So please, not a single person now, no matter how bad you may think you are or how bad deeds you may feel you have done, please do understand, for us, we understand that all the evil will prevail on all of you good people. This will happen at those times when your minds are not well focused. They will prevail upon you or ask you to do few things that you would not normally do. So, please do know that this is one of the reasons why we ask of you to pray daily and as many times in a day that you possibly can. So, also know that some simple practice of praying in the morning as well as at night before you retire for the day. This will help you a lot. So, please do be aware that many things that was told in past are not being followed by many of good people. This is because you good people have not really understood what God Almighty or any soul in the good Spirit World really want from you good people. So, please do know that all we want is that you good people live in peace as much as you can. This is the only way through which you all will be in some position to stop all wars and to put an end to all the evil ways, including all those things of the evil world. So, please do know that on the road to happiness you good people will come across many hurdles that are put in front of you. You will need to cross them all very confidently. So, please do realise that as you good people will stand to cross the hurdles one by one, the evil will start to keep on adding more and more such hurdles, including some that you may find very hard to get over. So, please do know that they will also try to take advantage when your minds are very weak. Please realise that your minds can get very weak during the times and places of war. Please, at those times, please do not forget to ask for our good help. Please also know that we are also talking of some smaller wars that are going on within yourselves, your families as well as your good homes. Please start with those first and see that you try to make each and every member of your family happy. This can be done simply by doing good deeds to them and by helping them. Please see that all in the family feel very safe and that they feel more safe because you are there with them and for them. So, please do know that all of the good angels do have some ability to give you good blessings of love. So, please do feel protected yourself. Please do now know that all of you are now well protected, still, you good people do not trust us to give you some help you need. What you do is that you ask for some help when those are not really needed, and you actually do not ask for our good help

when it is really needed and when there is some good need for us to step into your doings to do something or to undo something. So, please do now build up some confidence that we will surely help you to remove all the evil ways and also all the evil creatures and some evil from the face of this good Earth. So, please do keep on asking for our help for such situations all the time of the day or night. So, please do know that we all are also blessed by our good and dear God Almighty to be able to get all the good resources to destroy or remove, as the case may be, evil that you good people may ask us to remove. So, please do your best to see that you all are happy by removing all the bad feelings that you may have for anyone on this good Earth. Please make more and more people love more and more people so that there is only room for love and that there is no room for any evil anywhere on this good Earth as well as in anyone's mind. Please keep your minds strong, particularly when you are not well enough or when you are in some arguments with any of your loved one, including all your good friends as well as your good neighbors whether you know them well or not. So, this is one more good way to keep evil away by making sure that all the room in your good minds are only full of love so there is no place for any evil or any evil thoughts to enter your good minds. So, please be blessed with all our love including all the love of our good and dear good God Almighty.

39. Please good people, we are all very pleased with few of you who are doing their best to help more people who are very unfortunate or some who have now no other way but to be in some kind of situations where they can only hope for all their needs, only on those good people who are now prepared to help them and support them. So, please be well aware that there are many such good souls than what many of you good people are aware of. At the same time, there are many more who are not at all willing to help any of such souls who are now suffering a lot and also those who cannot look after themselves or their families or their children. So, please be aware that there are more of such souls who are not willing to help and that there are so very few who are willing to help. So, please realise that such good souls are not able to come out in the open to ask more souls to come with them to help some souls. This is so, because they do not want to impose on anyone and also, they know that even if they talked to them, any such help would only be because they did ask and not out of love for some good souls who are so very unfortunate. So, please do know that even if such souls did help after some good souls talked, still, they would only help when they are spoken to. This is not good for those souls who are already helping out of love. So, please do not think that these good souls who are not involving to get some help from other good souls are not doing some little bit to get some help. So, please do realise that those souls also have no time to put in some effort where they may, or they may not be able to get some good help in some good and successful manner. So please, those of you who notice that some good souls are doing their very best to help others, then please do support such souls and see if there is some good or some small way by which you can be useful to them. So, please do know that sometimes when more people are in need of help, more people should be ready to help. This is because

few good people cannot and may not be able to do a lot for many such people who need some help. So, please do realise that many good people who are very wealthy do give some of their wealth to make lives of some people more comfortable or to give some good ways of helping many. More is always needed because if some projects are started, then these projects also need a long time support or else all the efforts that were put will get wasted. So, please do not think that if some big projects are established, some big souls only can help. Any willing soul full of love can support such projects. Please know that even some very small help is some help, and it will be well received and will be well appreciated. So, we in the good Spirit World will always bless all good souls who help some unfortunate souls. Please also understand that we look at all the help that was extended and we do not look at who then contributed how much wealth and to whom. What we look at is, who put in how much effort and to whom. So, please do not think if you were not able to part with some wealth, you will not be appreciated by us. So, please do know, and we have always made it known, that we only look at how much effort was put in out of love and also of parting of some wealth out of love. So, please now do your very best to help more unfortunate people. Please note that when you good people give some help out of love, some very different kinds of vibrations are created. What happens is that many good people will certainly bless you, but what you do not realise is that good loving souls of those you helped will also bless you. Please also know that when such types of blessings are given, at those times, some souls ask some good, good angels also to bless them. Sometimes, some special angels also get allocated to them. At those times they progress a lot and make many good steps forward in their individual levels. If some help given is very extraordinary, then such souls may also skip some levels and then get good returns of their efforts. They are then well received when they return to the good Spirit World and there can be some celebrations. Please know that these kinds of events do happen in the good Spirit World, but they are not very common and are very rare. We have given this information for those good people whose wishes are to give good boost to their steps of their levels. Now please do realise that this is one of the safe ways that you can try to step up your levels. So, please do be blessed some of you and return to the good Spirit World in much higher place than what you were at with some good blessings from us.

40. Please good people, you all should be well aware that we in some good Spirit World do exist. So, please do spread this word and please teach all those who are interested to get in touch with us, all the good ways of getting in touch with us. But please remember to let them all know all about all kinds of good and bad as well as those who are not now controlled by any source good or bad know all about their existence. Please do let them know that someone may also teach them some ways that could be more easy to get in touch with many other spirits. So, make them aware that some even try to cause harm to those who are not doing this with some good protection. Protections are needed, not only so that some evil or some different kinds of souls do not disturb them or interfere with their good ways of communicating with us; protection is also required for some more good reasons,

like for good ways of being able to concentrate on communication as well. Some protection is required to ensure that your mind is completely focused on what we need to say when you good people communicate. This is the most important reason of all. So, please do remember to ask for some very special protection so that you can have some very good communication with whichever soul that you then communicate with. Please do ensure that you do ask for some good protection against any soul good or bad or not so bad, who try to give you any thoughts that are different to who you do now are communicating with. Please remember to ask in a way that you only are able to concentrate with that soul that you have chosen to communicate with. Please ask that you then do not get any other thoughts from any other soul from any of the Spirit World as and when you communicate with some good souls of the good Spirit World that you have chosen to communicate with. Please know that this is to be asked only once in your lifetime of the present term. This is because you will then not need anything more for such kinds of protection. So, please do realise that this is it and it will not be necessary to ask for every time you do your communication in future. So, please do know a very important situation that should not be failed to ask for protection is at the start of your communication. The most important thing to ask for, in any of the communication, is that you have complete protection during the entire period of your communication with the soul that you have chosen. You should specifically ask for protection against all souls of the evil world. So, please do note that some souls from the evil world will always be very eager to get in your way and do their best to see that you fail in your way of being able to communicate with any of the good souls of the good Spirit World. After that, please ask for some God's protection against any soul who then tries to disturb or disrupt your communication who are outside any of the Spirit Worlds and who are independently in control of their very own selves without answering or without being in slightest control of any souls more powerful than them. Such types of souls can also misguide you or give you thoughts that no soul from any of the good Spirit World would ever give. So, you may not then be able to understand why such thoughts came to you in the first place. With such kind of happenings, you can be made to doubt everything, and you may feel that you can then never be able to be in some position to be able to communicate with those who you want to. So, please do be aware that you do ask for this good protection in a very good way and with a lot of emphasis. So, please also know that there is one more type of protection that you should be asking. This protection is to be asked for any kind of disturbances that may happen in your good surroundings. This is very important too because when you get disturbed from any of the outside sources, you lose your good connection with those who you were communicating with. At that particular time, you may get distracted, and you may lose your control over what you were doing. So, please remember that if such a thing were to happen, then please do stop immediately and ask God Almighty for some continued protection in some very short and some very brief manner and then continue from where you had stopped. Now, this is not for some protection, but this is to let you know how you should end your communication. You should thank all those who got involved in your good communication. After that, you may say some few good words to them and then ask God to give your good thanks to

all those who were with you. Lastly, thank God Almighty and ask Him to give you many more good communication and communication ways. Then please ask God to give you His good blessings so that you are able to improve upon your good skills. Please, only after that please get disconnected from your communication. So, please do know that there are plenty of ways of good communications, and different ways have different manner of asking for some different protections. What we talked about today was mainly for some ways of receiving some good thoughts in some very physical manner like typing or writing or carving. So please, we do not need to do this in some more good and and higher ways of meditating or other good ways. For such ways, information may be given on some very individual basis. Please be blessed and learn more and more.

41. Please good people, please do your very best to love all in the good Spirit World as well as on the good Earth that has been created with so much thought as well as some good protections and some good ways of being able all to live at one place together. This is the reason why we all would like you good people to think and make you do some few things in some very good ways. So, first of all, you good people should be very happy to move anywhere to being able to live in peace. So, please do realise that happiness comes only with some feelings of gratitude. So, please do be very thankful for all that you have. We do plan some people to have a little more than some others. This is only so that they, in turn, support who are unable to support themselves or their families or their children. So, please do realise that even those who have more and have not worked to get more, then what they have, they will lose their wealth to those who will notice that they have some wealth but do not know how to use it. So, please do know that those who have worked enough to earn some wealth should do their very best to see that they do help others with their wealth. So, please see that no good person is left alone to struggle all by ones' own self. Please be sure that at such a point of time, some good ways of showing gratitude comes up. So, please realise that gratitude does not mean that you are now grateful with all that you have so you are now free to do what you like and spend your wealth in some manner that only you like. To understand what real gratitude means, is the way that you are able to share what you have. What we mean is not like sharing some ride with someone when you are traveling somewhere. So, please do not think that you are sharing your ride with someone who is not able to have ones' own transportation. We also do not mean that you share something with others for some short period of times or that you pass on something that you have made some good use of. All such examples are not some good ways of sharing. So, what we mean and what we want you good people who work enough to be able to earn enough wealth for yourselves as well as your families, should actively see how you can now be of use to people who are struggling, so you good people are then showing some ways of caring for others. This is only because you have enough and now you are able to show some gratitude by passing some wealth to those good people who are not able to make some good living. This may be because they do not have any means to earn some wealth by ways of working or by some way of being helpful in some ways or the

other. So, please do realise that there are plenty of people who are very willing to work and get some wealth for their families, but for many reasons they are not really able to do so. So, please do know the real meaning of gratitude. This starts in a small way and then needs to spread in some very big way. Please realise that many groups are in existence with sole purpose of helping such people who do need a lot of help. Please do be aware that in spite of such good groups existing, they are unable to give some help in some very clear manner in which the help is actually needed. Still, these groups are very well welcomed by all of you good people. So, please do realise that sometimes it is better to let only few or, maybe, only one member give some opinion and see if that opinion is agreeable to all in the group, or many in the group. This way more work can be done. It is so very important that all the good resources are spread as per the needs of people at some places of interests. What we mean is that everything on Earth has been created by God Almighty for all the good people of the good Earth. So, please do realise that some products can only be produced where it is warm or hot, and the others at some places that are not so. Yet, all the good products produced everywhere may be required by all the good people all around the Earth. So, please do realise that it also includes all kinds of food products as well as some minerals. So, please see that there is equal and fair distribution of all such products. Please understand when we say equal, we mean as needed. Meaning, at some places many people will be living and so, they may need more than others. So, please see that they get more as per their needs. This is what we mean when we say or ask you to distribute equally. The most important thing to understand is to understand the meaning of gratitude in a very correct manner so that all of you can be very happy, and so that you can then be on the road to achieve peace.

42. Please you good people, please be blessed with some good and some different information today. You good people always wonder what the good Spirit World actually is and after that what to expect as you return to the good Spirit World. We are well aware of this question that is on each and every person's mind, whether you accept our existence or not. So, please do know that you were sent with some very good protections that are required at all times that you are on good Earth. These good protections are against all the good vibrations of the good Earth as well as some vibrations that are not so good. So, please do understand that the good souls of yours do require these protections for many reasons, and also for some ways that you may require to enjoy all that is on this good Earth. So, please do be aware that it is for this reason that you do not or are not able to remember what the good situation was when you were in the good Spirit World. So, please do know that now when you return, all those good protections will be dropped by you, and you will return in some form of energy that you first were. We mean the form of energy and not the purity of your good energy. So, please do know that to return to all those in the good Spirit World, you surely need some level of purity that is now put in place for all in the good Spirit World to understand. If you do not have those levels of purity in your good energy self, then you are sent to some place where you will be able to improve upon your good ways of your good energy

development. So, please do know that a lot of resources go when you take some rebirth to be on the good Earth as well as when you return. So, please do realise that it is not the only question of some resources, but it is also the question of some good angels that need to devote their efforts to support you all the time. Meaning, when you are on the good Earth as well as when you are in the good heavens. So, please do know that when you good people do return, you return with some angels of the heavens who are very powerful. They have to take good care of you on the journey because you are not able to do so. So, please do know that when some of you who are very good, are returning to the good Spirit World, can immediately know and understand what is expected from you. You are then able to understand many things without any explanation from any of the angels. For every soul that return at some levels lower than the ones that are sent, need to have few more angels to give you some company on your journey of returning to the good Spirit World. Many angels start to let you feel that you are not alone and that now you will be well taken care of. They will also let you know that you may have to return soon by taking another rebirth and they will explain all that needs to be explained so that you do not further think when you reach the good heavens. They also explain that you ask all to support you and help you to decide the plans of the next rebirth. This process starts on your return journey. So, please do not be under some impression that you can only start to think of some good return only once you are in the good heavens. What we find is that very few such souls really make some decisions at this point of time. So, please do not think too much about that because all good souls in such places will think of being able to generate some more vibrations to then be with all the good angels of the heavens. So, please do not think that you will be left alone to think about your next steps to be taken. You will find that any place in the good heavens is a very good place. Some of you may take a bit longer to decide what next step should be taken. Now what you will notice is that all will look very familiar to you as well as very different as well as very new. So, please do realise that due to this reason, to decide some rebirth can get very hard. Some souls on their return journey do think and discuss their plans and realise that a quick rebirth would be the best. Such good souls are are then sent very fast and a good meeting is then made immediately. This is because they already discussed with those good angels who were with them on their return journey. So, please also understand that many places do keep on changing. You see, what happens is that the number of souls at some place in the heavens keep on changing and so the places of their ways of being also keep on changing. So, the returning souls find the place to be familiar but different. So, please do know that any place in the good heavens will appear very good to all returning souls. This is mainly because there is total absence of any negative vibrations or any bad vibrations in the good heavens. The good returning souls are now without any protection that they had on Earth. Meaning that all souls in the good heavens are outside any physical system of regulations. So, they do not have those kinds of protection. When they return, the good vibrations are then attached with those souls who have similar vibrations and then they work together to generate higher and higher good ways of generating better and better vibrations. All souls then help all to be able to achieve some highest forms of vibrations that God Almighty can

then be pleased with. Once this is achieved, God Almighty will come to greet such souls, and help them to then be in some position, to be in some position to be able to help many other good souls to achieve the same results. After that, the real glimpse of the good Spirit World takes place. So, please do know that such souls will then be guided to some place which they can call their own place of rest. So, if and when their projects that were allocated are finished, then they can come to such a place and then meditate and make their place in some ways that they may like. This way and some ways to describe to you are very difficult so, we always say that it is a very good place where all of you will be very comfortable and where all of you would like to be. Please do be assured that this place is something, as we said, hard to describe in words and out of your world to be able to understand. You all would not like to return to the good Earth unless you are very sure to be able to return in the same way and with the same vibrations that you now have. So, please do be blessed by all of us in the good Spirit World.

43. Please good people, please do remember all that we tell you. It is so very important to always remember what we have told, and this is because of several good reasons. One of the most important one is for the reason of being able to do what you need to do at that time in some very correct manner and also in some manner that all then can happen exactly the way that it should have happened. So, please do understand that, at times, you need to be in some ways that your mind is very clear so that you can get in touch with us or your spiritual guides in some good way so that you do know what exactly to do when such a good establishment is then achieved. More you remember, the more you will be in some position to guide good people who then ask you for some guidance or for some help. Please also realise that we, in the good Spirit World, at times, are all ready to do something for you when we know something that you are going to ask, and we wait for some correct establishment of communication to be achieved. Many times, you do not remember to do or what you should do. At those times we are unable to do some good things that we could have done to help you. So, please remember that when you need to get in touch in a very good and very fast manner, then you should make it a point that you have practiced enough. Also, you should know many different ways to get in touch with us. After that, you should then select some of those ways that you find are easiest and by which ways you are able to get some good messages very clearly. This means you can now be able to get in touch with us in more than one way. After that you should try out some different methods of trying out those ways that are fast, as well as those ways that are more clearer where you can understand more better, and the other ways that are faster but less clearer. After that, if you would have tried some methods that are more than two, then you should select only two out of all those methods that you tried. Once you have selected these two methods, then you should try out both of such methods regularly and also then, you should spend some more time to meditate. By that we mean that you should meditate for at least two hours in two days, or you should meditate everyday for over half an hour. Only then will you be able to get to some stage where you can get in touch with us instantly. So please, if you are not able to do some good

meditation in the way we asked you to and if you do not have had enough time to do so, then please be aware that you will then not be able to get in touch with us instantly. So, please do realise that to get in touch with us fast and to get in touch with us instantly are two different ways. So, please do be very, very sure that if you have not meditated for some good amount of time, then you just cannot connect to us instantly. The reason why we are emphasizing on this is because you may think that you have now achieved some good ways by which you can now connect to us easily and clearly and fast and you think you are now able to get in touch with us as soon as you would like without doing what we asked, then this is not so. At times, you may feel that you did get in touch with us instantly and you were able to get some very good guidance from us and then you may wonder how that could have happened even after we have said that this is not possible. So please, then do be aware that you were not connected to us, but you were tricked into understanding that you were. So, please do be aware that when you get in touch with us in some manner that needs to be immediate or instant, then at those times you do not ask for any protection or you do not get any protection correctly from the good Spirit World. A good protection is always needed and required. So, please do know that those who do a lot of meditation of which a lot of devotion is developed for God Almighty and His angels and some good angels of the good Spirit World, then such good meditation give such people some sort of protection. This is so because some different angels get allocated to them and their sole purpose is to give such souls some very good protection all of the time. So please, also do be aware that those who do meditate for an hour a day for more than six months and thereafter, are allocated such good angels of protection. Those people then do their best to be in touch with all in the good Spirit World. After that, they spend their time to teach more of what is in the activities of the good Spirit World. These good souls are also in some very good position to attract some attention of some very powerful souls of the heavens as well as some good angels who are always in need of some good vibrations and this way, they are also helpful to give such angels some of their own good vibrations by the way of being with them and then giving them some good information to such good angels who can then correct them if their thinking was not very accurate. So, please do be blessed and please each and everyone of you please meditate.

44. Please good people, please do know that all the good information that we want to give as well as all that we gave, is for all of you. So, please do know that it is for only some of you for the present. So, please do know that as the time goes by and as more and more people start to become more and more good, this book will be made available to all. So, please do understand that all this good information will only help all of you to know more of what goes on in the good Spirit World and not to make you feel that this is a very good place and so make it attractive for you to come here so that you are attracted by what we say. This good information is given to you all so that you do realise that there is a lot going on in the good universe and so you good people can only realise that being on this good Earth is a very small part for all of you to enjoy. So, please do know that you good people have already visited many of such other places. So please, even though we try to tell

you that it is so very nice to be able to travel far and wide across the good God's universe, still, you good people only imagine that the good Spirit World is a good place where you all can go and enjoy doing nothing. You also think that you will be very happy because of some absence of some few things like sickness and hunger and so on. So, please do set your minds to think that this is really true, but still, you good people will have to contribute a lot. So, please do know that most of you good people will have to work very hard in the good Spirit World. This hard work that we are now talking about is very different to working on this good Earth. So, please do realise that some good vibrations need to be controlled on Earth no matter what. What we mean is that, even after the good Earth joins with the good heavens, still, the good vibrations of the Earth may need to be well looked after and well maintained to keep them well focused and well aligned. This is so, because you good people will be returning to this good Earth all the time and that too with all the good protections. For this reason, we ask you to keep those vibrations that the Earth will need, to be good. So, please do realise that on all the other parts of the good universe you good people will be without any protection because such good protections are only required when you good people are on Earth. So, please do not think that the other parts of the good universe are not as beautiful as Earth. So please, you should understand that the other parts of the universe are very enjoyable and beautiful, but the beauty of the good Earth is in the fact that many, many different kinds of vibrations are present at the same time and such a way of keeping all the good vibrations are not there in other parts of the good universes. Still, other parts are enjoyable and may be more, but all that we can say for now is that they are totally different, and they are assembled in some very different manner than you find on this good Earth. So please, also realise that in absence of any hunger, thirst, or sickness, you good people will have a lot to enjoy, but this enjoyment will be in some very different way and you all will still keep on returning to this good Earth all the time because of some many other reasons. Please do be aware that you will be returning by your very own wish as well as by some good wishes of some very powerful angels of God or by the good wishes of God Almighty Himself. So, please do be aware that only those who are not in any kinds of realms can be aware of the different parts of God's good universe where all of you can travel. So please let this be some way of your thinking that you good people will always return and that too in some very progressive ways and also you good people may be able to live here on Earth for as long as you wish or as long as some very powerful angels' wish. So, please be blessed by God and return with some better vibrations.

45. Please good people, please do realise that, without any doubts, you all will be more happy if you all are at peace. Though it is very easy to understand this, you good people do not work together to achieve this. This is because of your ego that you all have within you. The greatest place where your ego work is within yourself where you feel that what you have in your good minds always is the very best way. So, for this good reason all should do what you think is the best and what makes you most comfortable. So, please do realise that to be at peace, you should give some people what they really want. So, please do understand that if someone

wants some few things that they really need to keep themselves well protected and well nourished, then you good people should see that all help and all good things are made available to them at some very, very reasonable costs. At times, you may also need to make some few things be made available to them even without any costs to them. So please, we are only talking about those things that are little more valuable than what they may need to survive. So, please do know that those who may give such types of support to others, will always be rewarded by us. So, please do understand what we mean by rewards. As you yourself know, you need to be at peace so that happiness can then easily follow. So, now please realise that if you good people do give such support in some good manner that we just mentioned, then those people will get so much happiness that they had never experienced before. Please realise that this type of happiness is one of the many different sorts of happiness. This is more different to some joys that you good people sometimes go through. So, please also know that such good people will not involve themselves to do something to be noted by others as some very good acts of theirs, so the happiness is even more. Such types of happiness also gives such people, whether they accept our good existence or not, some different vibrations. So, please do know that, thereafter, such people will always be very happy and such people will also do their best to help some others to be able to support themselves on their very own. Meaning, that they may even teach some good selected people to go over and be with them so that they can, in turn, learn more ways to make some ways so that they then, in turn, can then support, not only themselves and their families and their children, but also be able to give some help to those who are less fortunate than them. So, please do realise that many good people will now start to realise that more needs to be done so, they should not only think of themselves, but also others, as well as all of the good God's good creations. So please, for such souls comes a time that they stop to think of caring for their families and their children and will then only think of all others who need help. They will then actively try to find out who and where such people are. They will stop caring for their own families and their own children because they have already taken good care of them, and also, they would have taught all in their families, not only to able to take care of themselves very well, but also, they would have taught them to look after other good people too. So, please realise that they will love their own families the most and they will always support their families, but they will spend their time doing something or the other only for others so that more people stand to be benefited to learn to be able to live in peace. So please, if you come across such good people, then please give them some very good and some very unique blessings so that they are then blessed and so that they can do even more. So please, more and more of you good people now do turn around to be able to do good and to now only help others. So, please do know that few are already thinking of some very good ideas to see that all get all the good necessities, including good comforts, and all they need is some very good support. So, please do know that they only need some support to be supported. Not something like some wealth or some good amount of time of others. They only need their good ideas to be supported because if they do not get some required support, then no good people who have wealth to support them will support. This would only be

because they would not have come across some good ideas of such good ideas of such good people. So, please do know that anyone coming out with some good ideas by which all or many unfortunate people can be supported, then please all of you good people who do realise that such an idea is a very good one, then please do go all out and support such ideas. Please do know that all such supporters will have good blessings too. Please be blessed to be able to do this.

46. Please good people, you all should know by now that the best way to do any good meditation is with full concentration and good focus. So, please do realise that there are many, many kinds of good ways to now meditate. Many of them are so very different. So, please also realise that those who do meditate, meditate for several different reasons and requirements. So, please do know that some of them are well understood by all you good people. So today, we are going to talk about some ways that help you to get in touch with some of us whilst you all are on Earth. So, please do know that when you do connect to anyone of us in the God's Spirit World whilst you are on Earth, then what you are actually doing is meditating. So, for this explanation, please do be aware that when we say something about meditation, we will mean methods by which you may get in touch with or connect to someone in the good Spirit World, and we may not refer to any of those that you may choose to relax or to improve your good health or by those that you may want to maintain your good health. We will also not refer to those ways that you may choose to then exercise your good bodies. So, please understand that all those good methods of contacting us may not and do not involve your deliberate action of concentration as well as focus, but both of these need to be present at those times of meditation. Please know that this statement may be very hard for most of you good people to understand, still, you all will understand as you may go about meditating in some good ways. So, please do now understand that the simplest way by which you may get in touch with us is by thinking of someone. So, when you good people may think of someone that you love very much, may they be on this good Earth or in the good heavens; what happens is that your good angels get in touch with those angels of whom you were thinking. This may make you feel very nice or very comfortable. So, after that, those angels of whom you were thinking, try to give some good thoughts to those people straightway or they may wait for such people to be at some ways when they are well focused with something. This could be watching of some TV show or reading some books or maybe even when they sleep. So, at those times they let such people know that you were thinking of them. If at that point of time such people are able to receive those thoughts in some very good manner, then they will themselves get in touch with you and tell you that they were thinking of you. At that point of time, you may wonder how both of you good people started to think of each other. So, please, this is some simple explanation of one of those methods of simplest meditation. You may feel that this way cannot be called some meditation. So please, the more deeper way of meditation would be when you good people pray with full devotion and concentration. When you do this, there is good exchange of thoughts between those who are praying and those good angels who are present at those times of some praying sessions. So, please do realise that at those times they listen to your

prayers and also at those times, if they want you to do something or if they want you to not do something, is then conveyed to you. So, at those times, they may give you some signs to do, or not to do something, as per their wishes. This may have nothing to do with what you are praying for. This is totally a different thought that they give. So, please do be aware that those thoughts are very important for all of you good people to follow. The next method of good meditation would be those by which you make some notes of what is being told to you. This is done in many different ways and for many different purposes. To give you some examples, it could be in some ways when some good or powerful souls of the heavens give some good messages to some of you, and then you note those down by remembering them or by writing them down at that very point of time or at some time suitable at some time later stage. They can also be in some forms of pictures or sketches or drawings or some paintings. So, please do realise that different people do this in their own different ways or methods. Some good people may have some good ways by which they may note all those messages at the time that those messages are conveyed. Like by writing on some paper or some book or even by typing. It is also possible that you may write on some different surfaces or some different articles, like some writings on the ground. Another way by which you good people do meditate, is by only then thinking of someone you know in the good heavens. In such types of good meditations, you may get some good amount of peace, and you can also have some good interaction with them. This can give you some very different ways of being happy. After this, the hardest way of good meditation is that you try to get in touch with any soul who can give you some best of all the good vibrations, but only from the good Spirit World. Such types of meditation are of the highest order, and these can be well achieved by few of you in some very good manner. In such kinds of meditation, you good people can get such types of good and different vibrations. Once you experience such good vibrations, then you may not want anything else. Such a way of meditating can be achieved by very, very few. Those who do achieve this, then they do not want to do anything else but to be in good thoughts of God. They may even give up everything they have and like, like good food or good ways of entertainment and so on. This is because they do not find any pleasure or comforts from anything else except from being in thoughts of God and thereafter, they do not involve themselves to do something that will take their time away from being in good thoughts of God. So, please be blessed to get better in your meditation.

47. Please all you good people, please be sure that what we are going to talk about today is very important. So, please make it a point to remember all that will be written today. So, please do know some good aspects of now being able to communicate with us in some very good ways. Those good people who have practiced enough, will be able to now get in touch with us well, soon in future. Some good ways may change, and it will be you good people who will be making some good changes. So, please do know that we are referring to those who go to make some good way to do a lot of good practice to get in touch with us. Those who can then make some reasons to communicate with us will be blessed to be able to do so for some good reasons. So, please do realise that some of you good people

have plenty of different reasons to communicate with us, and the most popular one is to seek some good answers to some good questions. So, please do know that this good reason is not a good reason from our point of view. So, those good people who only want to be in touch with us so that they can get answers for others and so to help them, are better in our ways of observations. So, we try to help them to get a better communication. Please, also, do know that many a times we select a few of you to give some messages to make you feel nice. What we mean is that you get some sorts of vibrations that can make you feel comfortable as well as fresh. These kinds of good feelings will make you feel fresh and you may then want to do more to be able to receive some more good vibrations in some good and similar manner. So please, we also have some good people to do some work of guiding some people. Such people get a lot of good messages and many of these good messages are for all the good people. So please, if you come across such good people, then please do your best to be able to understand all the good messages that are noted by such people. So, please also know that some good messages are compiled in some good manner that is required for the good information of some good people. We give some very good messages with a lot of good protection and such messages are most important messages of all the good messages. So, please know that you will easily be able to know which of all the good messages are those made with some good protections. So, when you read some good messages and find them very hard to understand will be the ones with a lot of good protections. So, please do know that if you come across some messages and find them very hard to understand, then there are some few good ways by which you may be able to get to now understand. One way would be to ask those people who took their time out to receive such messages. Please do now understand that this may not be possible for many and also if such good souls have returned to the good heavens, then there will be no way or manner by which you good people may be able to ask them. In such events what you should do is to read such messages over and over and again and again. If you still cannot understand them, then please ask God for an angel's help to make all such good messages be easily understood. One important thing to note now is, that if you have read some messages and you have not then really understood them and then if you have read them the second time and then got some good understanding of these messages, then please be sure that some good angels did help you and that too without you asking for any help of any angels. So, please do realise that such messages are of some very high order and try to do some biddings if there were any good biddings in those messages. So, please do know that such messages may help you a lot for some good situations or else to make your daily lives easier. So, please know that many a times such good messages can be from the Light of God or from God's own good angels. So, please pay more attention to those good messages. So, please also do understand that many good messages may only be for those who are receiving such good messages. So, please do realise that if such people tell you that they have received some good messages and also if such messages had some good biddings for you, then please do follow them. Please be blessed by us.

48. Please good people, please do know that this book is specially and specifically being given to all you good people so that you can have some more good knowledge of what gets involved in the good Spirit World. Also, so that you good people can understand and know for certain that there exists another good world outside yours. You may also realise that we all come from and are at the same place. So, please do realise that few of you have developed some ways of taking part in some ways of the evil world and that is causing some more problems than what you good people do realise. So, please do know that our ways are so very different to those ways of the evil world. You do not realise that, and you feel that what is now available is of good ways. You think that anything that gives you joy and makes you feel good and comfortable, has to be some good creation of our good and dear good God Almighty. So, please realise that anything that gives you joy or makes you comfortable, and that very thing causes pain to someone else, that cannot be from our good Spirit World. This is a very rough way to access some ways that are not good or are not some good ways of our good Spirit World. So, please do realise that only those good ways that can give joys or comforts to all of you good people only, can then be some good ways of any Spirit World that is good. So, please do know that all of you good people do need to pray more and think more of all those good souls in the good Spirit World as well as all the good souls of the good Spirit World. So, please now understand that we can easily help you to remove all the bad ways as well as all the bad actions by only wanting this and asking us to remove all such thoughts as well as such ways. So, please do let more and more people know that if they do make this their good wish, and if they do ask to be helped in this way, then we shall always be there to give you all, all the good support that you all may very well need. So, please do your very best to see that you pray daily if you do now are praying regularly. So, please do now think of what we just said, and also meditate on this good thought so that you keep on reminding yourselves as well as others to analyze and filter out all the ways that are directed to you from the evil world. Please also understand that you will need to do so very actively and think deeper than you do think so that you can soon easily know such ways and all those thoughts that are directed to you good people from the evil world. So, please do know that we have been telling you time and again that you good people will not be able to get over the bad and evil ways all on your own. This is the good reason why we keep on reminding you good people to ask for our good help all the time. Please also be sure that any help asked for to overcome some ways that are not good will always be available to any of you good people who will ask for our help. No question about that. Please also know that anyone so asking will see and easily know that our help was certainly there. Not only that but it was very fast too. So, please do your best to see what evil ways are affecting you first on individual basis, and after that on collective basis. As we said, only if you think over and try to understand in some very deep manner, will you good people will know and correctly identify all the ways that are of the evil world. You will easily understand how such thoughts come to you, and once you are able to do this then things can get very easy for all, meaning, you good people as well as us. So please be blessed with more such messages that will be given to you.

49. Please good people of the good Earth, you are so very blessed to be now able to get some good messages from the good Spirit World. Please do realise that this can only happen as all the vibrations on the good Earth keep on getting better and better. Please do notice that we always keep on sending some good souls at some good levels to be with you and help you to solve some good problems that you may have in your daily lives. So, please do know that only such people do get some good messages from us because they have now chosen to do only good God's good work. So, please do know that such good souls are very keen to help all of you good people because they have some good ways to connect to the good Spirit World instantly. So please, what you good people do later on is that you keep on asking for their good help also after they do return to the good Spirit World. So, please do know that once they do return to the good Spirit World, they cannot really help you good people. This is because they were sent for some very specific work. Once this is done, their part of helping you is over. So, you good people should realise that they can only help you if our good and dear God Almighty allows. So, please do know that God does allow them to help all you good people for one or two generations. After that they are sent only if there is some more work that God wants them to do. In such cases what happens is, that if you good people still keep on asking for their help, and if they are once again sent on the good Earth, to do some more work that is different to what they did before, then what happens is that their good vibrations get disturbed, and they find it very difficult to carry on with the work that they were sent to do. So, this way of keeping on asking for some help from those who helped you at some point of time, is not very good. This is one of the most important points that needs to be noted so that you then only ask for some good help from some angels of the good Spirit World who may be around you, or you may ask your very own spirit guides to help you out. So, please do know that it is so very important to ask only those good angels who are around you to help you in some good situations that you do need some help. So, please do realise that you good people keep on asking for some help from some good souls over and over again. Not only that, but you good people even keep on teaching others to do the same thing. So, please do realise that you good people are helping yourselves, but you are not helping those other good souls who need to do their own work. So please, what you should do is, if some good soul did help all you good people because they were sent to help, and at that time they return to the good Spirit World, you should ask God that they help you always for all the time to come. Also, you should ask that they help you only if they have time to help you, and if they are busy, then ask God to allow them to then nominate some other good souls who can have the same ability to help you good people in the same manner that they always did. So, please do know that you do not do this. That takes up a lot of our resources that you good people do not realise. So, please know now that once some good souls do help all of you with some good authority of God Almighty, then please do ask God in the manner that we have told you now. Please also understand that such help should be some very small help that you may ask for. Also make sure that you do not pray to only them in some manner that they are the only ones who can now help you from the good Spirit World. If you need some good help of the good souls of the good Spirit World, then the only way is to ask

God Almighty. Please do know that many good angels are given some very high level permission by God to authorize some good help for those who are seeking some good help from the good Spirit World. These powerful souls have authority to help all of you good people in some very specific ways. These souls are not known to all you good people. So, the only way to get in touch with these souls is to ask God Almighty for any good help that you may need. So, please do realise that even such powerful souls are not in some good position to grant you good people every prayer or help that you may ask for. It can also then happen that if some kind of help is asked for, but they do not have any power to grant, then they in turn have to go to good God Almighty and ask for some suggestions or some powers to be able to take some further actions. So, please do know that such actions can only be authorized once. Meaning, that if later some another situation arises that is exactly similar to the one that was earlier given some good clearance by God Almighty to do something in some particular way; still, such good situation cannot be settled in the same way that was done earlier. Meaning, that the whole process will need to be done once again. Please do not worry much and do not keep on asking for help all the time. You good people get worried for some reasons or the other. Please do be aware that we will always help all those who seek our help or seek help from anyone in the good Spirit World. So, please do realise that if you even approach some good soul and if this good soul is in the good Spirit World, then this good soul will help you. If this good soul cannot help you, then some other good soul of the good Spirit World will help you. One word of caution is that if you ask for help from some particular soul, then you just cannot be absolutely certain that this particular soul is surely in the good Spirit World. So, please ask for all the souls of the good Spirit World and ask that this particular soul may help you only if this soul is in the good Spirit World. Please be blessed with more good messages soon.

50. Please good people, please do be aware that some good movements are also going on in the evil world. So, please do be aware that some souls of evil world are now very active and are going to do their very best to make you good people be in some ways to behave in some very different manner. You good people will be subjected to many doubts and you good people will start to trust each other less and less. So, please be aware that this will not only happen between some groups of you good people, but also between your good friends as well as within your good families. So, please now do your very best to notice some vibrations that can make you get some thoughts of getting some ways to now cause some distrust between each other and also some bad feelings within yourselves so as to make you stop being good. You may also get some thoughts or feelings that can make you think that you should not be in some ways to help others. So, please note that these kinds of feelings can arise in any of you good people. Even those who would have had some very good and powerful relations with each other will get these kinds of different vibrations thrown at you. So, please do ensure that you do not easily get distracted by such vibrations. So, what we are telling you is that not a single person who is good will escape this situation. So, please be cool headed and do not give in to such vibrations. Since these are going to be directed to you good people from

the evil world, you may think that since you are good and also so that you pray some good protection prayers, you good people may not get affected and that you will then be easily in control to escape such vibrations. This is not going to be so. So, please do realise that we are calling such vibrations *different* vibrations and not bad vibrations because these will be directed to you in some ways that can also now get to you in some different ways. So please, what you will now have to rely more on are those things that can keep your environments clean by doing a diva or lighting some candles or doing wood fire more regularly. So please, those of you who do light candles, please try to make it a point to light more than one candle. So, please those who now choose to do only wood fire, please do this every second or third day and those who choose to do diva, please do them on daily basis. Please do know that this is only for those who feel that those different vibrations are affecting them. This is not for those who feel no evil vibrations and also, they do not feel anything different or not feel in some way that some good friendships are now at stake and also so that they do not feel that some family members are now behaving differently. These different vibrations will only be thrown to those good people who have complete trust in the existence of some good spirits of the good Spirit World and also that of our good and dear good God Almighty. So please, now you good people should also realise that many things are now going to be very different on this good Earth only because many people who are now trying to be good, are not liked by anyone in the evil Spirit World. Please also be aware that as many people start to be good, the days of shift will get nearer by the day. This is the main reason why some in the evil world do not like. So please, also do be aware that this is only the start of what is going to be now thrown at you from the evil world. So, if you fight this hard and if you very knowingly try to block all the bad vibrations, including negative ones, and also these different ones, then at those times you will get to see the real power of the evil world. Those times will really be some very hard ones for you good people to go through. So, please do not let this information be a worry to you good people. We all in the good Spirit World are well prepared for all the events that are going to unfold. So, please be aware that those times when good people will ask for our help to fight all the evil vibrations and all the evil creatures, will be the time that will be the hardest that mankind would ever see. Please do be aware that though this appears to be very scary information, we will see that none of you good people suffer in any manner that you may call 'a lot of stressful suffering.' So please, do not now panic or make others panic with this information. This is a process that we all will need to go through, and we shall make all possible things to be made available to all you good people. There will be hundreds of good miracles so that you will very easily notice that we are there by your side, not only helping you, but also making your lives more bearable. So please, those of you who do pray regularly, should try to do your best to see that you make it a good point to now pray daily. So, please teach many to pray daily. For those who are not praying at all, please start to pray as much as you can. Please do understand that we are asking you to pray only for the reason that you good people do think of us more and so that you also remember to keep on asking for our help and so that you good people start to talk to your

spirit guides more and so to make your ways more efficient to be in some position to contact us. Please be blessed.

51. Please all you good people, please do be well aware that there are many, many different souls in our good Spirit World that is now controlled by our good and dear God Almighty. These different souls have different kinds of vibrations which makes them be valuable to do some different kinds of work or different places to visit. So, please do be aware that only some souls who, like twin souls, are powerful enough to travel, not only in all parts of our good Spirit World, but also in all parts of all the good Spirit Worlds that may be controlled by any other powerful souls of any good Spirit World. So, please do try to understand that such souls are there to help God Almighty a lot. Many of them can also be some own good angels of God Almighty. So, please do be aware that all souls that are working in the good home as well as offices of God Almighty, are such souls who work very hard. This is because they have some very good vibrations that are required to do some very important work of our good and dear God Almighty. So, as we have already told you, that though some good *twin souls* are equally powerful, they are the only ones that do not work at all unless they are required to do so. So, please do understand that such souls are called as *free souls* of all the good Spirit World. So, please do be aware that some of these souls may be so powerful, that they may be more powerful than some of God's own good angels. Still, such souls have to do all the good biddings of God's own angels when they do give such good souls some good instructions. So, please do be aware that those instructions that are given by God's own good angels are always for the reason that God would have asked them to. So, please also do be aware that they may also give some good instructions that God may not be aware of, still these souls need to follow all those instructions that are given to them even if they are more powerful than those souls who are now giving instructions to them. So, please also be aware that though we call such souls *free souls*, yet they are not free to do whatever they would like to do or whatever they would want to do. Such souls are called *free souls* only because they work completely independently and can organize their work in any manner that they would like; and also, because they do not work in any team that has some other soul to instruct them what to do. So, please do realise that very few such souls would be on Earth at some given time. So, please do also realise that only if there is some very important need for them to be on Earth, they are there. So, please do know that if they are sent to give some messages to you good people, then they do so, and come with some good team of other angels that they were allowed to select with good blessings of God Almighty. Please also realise that even though they may select some team to support them whilst on Earth, still God Almighty or any of His own good angels may then make some changes or even select some good angels that they would select. So, please do be aware that what is observed by us is that nearly on each and every such occasions those selected by God Almighty or His very own angels, perform much better in the team than those that were previously selected. So, please also do be aware that some very powerful souls of all the good Spirit Worlds, including our good Spirit World, do have some different powers because they possess some vibrations that are so very different.

So, please do know that such souls are the fewest of all the good souls of all the good Spirit Worlds. These souls do not visit Earth and do not respond to anyone on Earth in any manner, including some very powerful souls who do meditate in some very good ways. These good souls who are so different always only interact with some of the most powerful souls of all the good Spirit Worlds. These souls are also very independent souls though they may not be called some *free souls* because their work is always under some supervision of some more powerful souls than they are. So, please do be blessed with more such information.

52. Please good people do be good for all the time you now have on this good Earth. Please do realise that many of you good people are now very sad of all the good and the bad happenings that are now going on on this good Earth. So, please do know that we have made many plans to offer you good people many good thoughts so that you good people can try your very best to help all those who need your good help. So, please make a lot of effort to make many people more comfortable. So, please do realise that there always comes some time that makes you good people go through some hard times. At times, you good people may also go through some very hard times. So, please do be aware that all that goes on on the good Earth, always comes to our good attention and we are always in the know-how of all that is going on as well as all that needs to be done to correct all that was done because some of you did some few things that were prompted to you good people by some souls of the evil world. So, please see that you do not involve yourselves in some practices by which you good people start to call about some souls of the evil world to help you. So, please also do realise that you good people can very easily be tricked into calling them or involving them even though you may have no good or bad intentions to call them or invite them or even think of them. So, please do be careful, as we have previously told you, please do not ask for any help of any souls that you do not know by asking for any souls or angels that are around you to help you. Please also do not invite any souls even if you know those souls who have now left Earth for their future journeys. So, please always ensure and make very certain that you ask for help of any souls of the good Spirit World. Please also do realise that even if you ask for some souls that you knew in this present term of yours and is no longer there, and you feel that this soul is now in the good heavens, still, please do ask for their help through God or through some angels with request to send help of such souls or any souls as long as they are in God's good Spirit World. Please also do be aware that you may call upon such souls asking for their help, and they do come to your help; that they can only come if God allows it. At times, what happens is that we do understand who you are calling and why. So, many a times we then send some good souls or some good angels, depending on the type of help that you need. So, please do not hesitate to ask for any help from any good soul you know, or you knew or even those you never knew, as long as you ask to be helped by someone from the good Spirit World, and preferably by someone in God's good Spirit World. So, please also know that to remove some good doubts, you should ask your good spirit guides to get involved even in getting some help for you. So, please do say something like: *'My good and dear spirit guides, I need some very urgent help from God, so, please*

do get me some good soul to help me from God's good kingdom to come to my rescue and get me out of this situation that I am in'. So, please do know that if you do not make a request that some help is requested only from God's good Spirit World, and all you ask is that you be helped by any soul who can give you some help, then you have made some open request for help by any soul. So, please do realise that such help may even be given to you by some very mischievous souls. These souls can then upset your lives and you many not even be aware that it was a doing of some soul only because you asked for some help. At times, some help by mischievous souls can be even more damaging than some help of some souls of the evil world may do. So, please remember, always when asking for our help or some help of some good souls of the good Spirit World what we have told you. Please always be blessed by God in all your spiritual quests.

53. Please good people, please be properly blessed by all your good loved ones of the good Spirit World. So, please do try to learn and remember all that is being told to you, because this is some way by which we are now passing on some good information to you good people. So please, you all would have already noticed that most of the good information that is now being given in this good book is something that is known to you already and still it is very different. So, please do know that we are now releasing this good information to you after a very long time which is very different. So, please also do be aware that we give new information in some small ways all the time, but this time the new information is given only for those who have been able to understand all the previous information. So, please do be aware that to understand all the given information of this good book, it is going to take a very long time for you, and even for those good people who know almost all the good parts of the good New-religion. So please, you will also notice that the more you will read this book, the more better understanding you will get; not only of this book, but also of all the other books of the good New-religion. So, please do also note that for those of you good people who would like to take a lot of interest to know, not only of the good New-religion, but also of all of the God's good kingdom; then not only will you have to read all these books but also you may need to read them over and over and again and again. So, please do know that the good and correct and complete information of all of the good God's good kingdom will only be available to all you good people only after all you good people are no longer in any of the realms of the good Spirit World. Still, do be well aware that you will only then get some information of all of the good God's kingdom and nothing more. So, what we mean is that the good information will give you the good knowledge of the good kingdom, but you will not be able to get some good experiences of all the good kingdom, nor will you be in some position to be able to visit all the good parts of the good kingdom of our good and dear good God Almighty. This is because all will have some different powers, and so you all may have to do different things. So, please do know that still, some of you who would have had been in some realms for some very long time or if some of you have taken more rebirths than some others, then those few souls may not be able to travel to some parts of God's kingdom for some very long time. So, please do not think that this is for all the time to come. So, please do realise that to go to some parts, or even to visit

some parts of God's kingdom, even for a very short period of time, you do need to have certain types of vibrations that are very vibrant and powerful enough to make you feel comfortable and to be able to perform or even to be able to be there for some time that you want to be there. So, please also know that most of you good people, who have good thoughts should try your very best to give such good information to as many as you can, but in some good manner that the person listening can then understand. So please, even if you are not aware to what level such people are at, still, you should make our information in some good ways that may appear like some good stories or even some good discussions. So, please do remember not to only go ahead and give this good book to someone so that they can read and find out for themselves that they cannot understand and then leave it to someone who can explain, to explain. So, please remember this carefully and do understand that some good parts of knowledge can be given to some good people so that they get more information too, but in some good way that they are comfortable to understand. Please do not go into lot of details with them. We the good angels bless all who may read this book.

54. Please good people, do know that God wants all you good people to now realise that there is some very high power over you so that you are well protected and also so that you can now progress in some very good and fast manner. For this, God has sent many good souls to make you understand all our good existence, but you good people were not able to understand all that was told for many good reasons. One of the most glaring one is that there were very few good people who understood all that was told by such good souls and also what was written by some few of them. These good people who then understood the good messages in some very good manner were not able to express themselves in some manner that could be understood by many. This was because they did not, or were not able to explain to some good people at the good levels of each individual level that some good people who were trying to learn; and also because few good people started to challenge such people who were doing nothing else but explaining what they experienced and what they got to learn from some souls who were specifically sent to help all you good people and also to make you well aware of all our good existence and also that of our good and dear good God Almighty. So please, you good people, please try to get some good information and some good knowledge by reading all the good books of the good New-religion and also those good books that were written along with some good help of ours to some good soul who wrote all the good books of all the New-religion. So, please do be aware that you good people will still have to take some help from those who already know the good New-religion very well. Along with their good explanations, you good people should read such books many, many times. This is because you good people will not get any knowledge on your first reading but you will only start to understand few good thoughts. After your second reading when you will read the good books again, you will get to know what was mentioned when you first read some good thoughts of the good New-religion. Only after that, those who will actually get some good benefits that they got from their earlier reading will read more to be able to learn enough to be in some good position to then be able to teach some more good

people who are very willing to learn. Only those who may read these books several times and try to remember as much as possible will then be some good prophets who will then be well respected by many good people. So, they will then be very interested to know more from them so that they can now be in some position to think enough to put forward some good questions for which they need some good answers for them to then think further. This way more good people will be able to then think of more good questions and this way more people will think of getting together so that there can then be some more collective thinking and so that more questions can be raised till there comes a time when many will surely understand and then acknowledge the good existence of all of us, and all of the God's kingdom and certainly that of our good and dear good God Almighty. So, please do realise that enough people do put some trust in some existence of some good power as well as some bad ones. Still, you good people are not able to distinguish some power that are very different. For example, like that of some good souls being somewhere in the good heavens, but still they do not know the difference between some souls and some angels or God or some souls of the evil world. Please now be blessed with more knowledge.

55. Please good people, we are good in some good Spirit World. So, please note that when we say, 'we are good', we mean that all in the good Spirit World do not give out any vibrations that are bad or evil. So, please do know that in the good Spirit World we have many reasons why we do not have any vibrations that are not good, and this is because we all in the good Spirit World love each other in a very good way of loving. We do not think of doing anything but helping some good souls that need help and support to increase their vibrations. Specially to those who do not have total good vibrations within themselves and for that they need to take many rebirths. So, please realise that there are many souls in the realms of our good Spirit World and that the vibrational levels are so very different at all the realms, still, no soul wants to see that any soul loses the vibrational level that each soul has built up. So, please do know that no soul on their own desires or on their own will, be in some position to give out any vibrations that are bad. Once any soul returns to the good Spirit World, the only thing each soul wants to know and checkout is whether any good vibrations were increased by them, and if not, they feel hurt and then they immediately realise that their term on Earth was not as they themselves expected. They immediately start to think what they should do for now developing future good vibrations. So, all of their thoughts are now focused on developing more good vibrations right from that point onwards. This is one of the good reasons why no bad vibrations are now created in the good Spirit World. So, please do realise that if there is no scope to generate bad vibrations, then no good vibrations can now be reduced in the good Spirit World. So, please do also realise that those in the realms, no matter at what levels, no further bad vibrations can now be created, and the purpose of realms is to keep these vibrations locked at the same levels that they are. So, please do realise and know that those souls who do some good work in the realms and are able to step up their good steps, still they remain in those levels till they take another rebirth. So, please understand that if some soul did step up their good steps of their level, and then it so happens that

they step up of steps also stepped up their level by their good vibrations, now being at some acceptable levels of the higher level, still these souls will now have to remain in the same level till they return after another rebirth. So, please do realise that such souls are now very eager to take some rebirth only because they want to move up in their level of the good Spirit World. So, please realise that such souls who plan out their rebirths in some hurry, end up making poor decisions. Therefore, such souls sit down for another meeting, if called upon by some powerful angels, and also if they so wish. This second meeting is always very useful, and many souls have been very thankful, and they have thanked such angels on their return of their rebirths and have realized that how the change in their plan was really very, very helpful. So, please do know that such souls, almost, at every meetings of their future rebirths do then follow and take onboard all that is suggested to them and they almost every time return with vibrations that are much better than those that they came down to Earth with. So, please good people, do know that all is always good in the good Spirit World. Please be blessed as you read on and on, this book.

56. Please good people, please do be aware that most of the good people who want to be good are being helped by us in some very good and a very different way. Please also be aware that those who want to be good and those who want to follow only the good path, no matter what, are now being taken as some good followers of the New-religion. This is the reason that we consider them different and so our help is given in some very different way. So, please do be aware that many of such good souls are trying to be so very good that, no matter what kind of situations are put before them to make their lives easier, still, they do not care to take up those ways that they may even feel are some ways that are not good. These people need your support a lot. So please, all you good people, please do try your very best to look after such people. So, please also do be aware all you good people, that it is so very important that you all support each other a lot because we do not now want to see any more time being wasted or any more time that slows any process of being good. So, please do understand that we have been asking all of you to be good, and support each other, but this message is not very clearly understood by all, mainly by those who have a lot of wealth. So please, do your best to see that all of the good wealthiest people do now open their eyes and see the hardships of all the good people, and take some steps actively to see that more people, who are good, are well supported and that they are well provided with all their needs as well as all the good comforts that they themselves would always would like to have. So, please do know that, if such good people do not act on their own, then please do ask our good and dear good God Almighty to help such people to get some more good thoughts to do what we all are expecting them to do. So, please do know that, if they do not change their ways in few short years, then please do pray some collective prayers asking God Almighty to now intervene and make all good people be well protected as well as supported as well as comforted. So, please do know that such good collective prayers should only be prayed by those who are very close to those who read all the good books of the good New-religion. So, please do not ask for more people to join in only for the good reason that some big group of people is formed now to pray this good collective prayer. So, please do

know that even if such a prayer is collectively prayed even by some group with as few as seven people, it would be enough. So, please do understand that we are not meaning that the group praying such a prayer should be limited to only seven people. What we are saying is that the group can be bigger, as big as you would like, and at the same time it could also be smaller than that. So please, also make a note to include as many good prophets that you can, to be able to join you all in this good collective praying. So, please do realise that we are really very slow by all our expectations and so we now want to be very sure that you good people do now involve yourselves in some good manner to see that the steps of good and well planned shift can now take place very soon. So, please do now realise that the good plans of God Almighty never fail. This has not ever happened in the past and this will never so happen in any future time. This is because whenever any of the good Spirit Worlds ever wants any help, all of the good Spirit Worlds that exist, get together and see that all help and support is given to any powerful soul of any good Spirit World if ever required. So, please now be well aware that all is now in place as God Almighty had planned, but the whole timeline is not in order and the whole process has slowed down. So, please do make sure that more people get involved in praying and in trying to understand all the good New-religion. Please also make it a good point to do as much as you can only in the good name of our good God Almighty. So please, for now, that will be enough if you do all that is being told today, then the good process will be in place once again. God's blessings to all of you.

57. Please good people, please do not go to some place and say that that place is not a good place. So please, what we mean is that we need to spread all good vibrations throughout the good Earth. So, if you say that some place is not a good place, then what happens is that you good people unknowingly create some good vibrations of some different kind and that stops some useful vibrations be stored there. So, please do know that we are not referring to some places that are dirty or filthy where many people may not like to be. So, please understand that we mean those places that are actually very good but you good people are not aware of that fact and that you are looking at something that is different and are not looking at the good vibrations present at those places. You good people may have some different ideas of that place and so you say that this place is not a good place to be. So, please do be aware that you good people should always try to learn to pickup and understand different good vibrations that are different. So, first of all you good people should develop some practice to understand what you get to feel some of the vibrations at some particular place and see if you are able to concentrate enough to be able to do some very small meditation. If you are able to do so, then you should say a very small prayer and then see if you can very surely feel that that good prayer did reach us. So, if you then feel that you were not sure whether the good prayer did reach us, then you should know that that place has some good vibrations, but that place is not meant for you to pray from. That way you good people should keep on practicing to feel different good vibrations for different purposes. Using the same example, you good people should, whenever you can practice and wherever you can practice, and see what each place you

think has some good vibrations and for what good purposes. Meaning, you should see if some particular place is suitable for building a house or a factory or a laboratory or to use as some storage yard or to be used as a farm and so on. So please, what we mean is not to use this practice to put into practice for such good purposes. We mean only so that you are then able to see for your own selves that you are now able to feel for your very own selves some good different vibrations. So, please do understand that, also this way you can find for yourselves some good places to pray from, may it be in your good homes or outside of your homes. It may also be in some nearby parks or open places or next to some river or some sea. So, please try to see and learn to detect these different vibrations. The reason how this practice can become useful would be that if you have then practiced enough, then you will easily be able to detect some vibrations that are then created by those from the evil world. So, please be sure that if you have practiced enough, then you will not get easily tricked into accepting some thoughts that are generated to take you away from God's path or slow down some good progress that you are now making. So please, also understand that if you do come across some places and you did like to pray from that place as you were then practicing to feel different vibrations, then please do not think that now you should pray from this good place. Such a place can be so selected only if you had some good practice in the past and not now. If you want to select a good place to pray and have a good practice, then this is a good way to understand how and from where to pray from. So please, good people this is one way that will be useful to you good people to understand the feelings of different vibrations that are all around you good people. Please be blessed by all of us.

58. Please good people, we are giving you more good information now, only for the reason that you know more, and so you can then get to learn some real reasons as well as some more practical things that do exist around all of you. So, please do understand that the more you know, the easier it will be for all of you good people to correctly understand all that is around you; and more so if all the things that do exist even though you are not sure of. So, please do note one important point here. We give this information for the reasons that we have told you, still, such information will only be well understood by those who have reached some levels of understanding of our good God's good ways. So, please do be aware that if you good people do discuss these informations amongst your own selves or amongst those who are only learning to get on good God's good ways, then you good people will only get more confused. You may also lose some confidence in what you have already learnt so far. So, please do understand why we keep on telling you that this particular book is only for those who do know all of the good God's good ways that have been given to you so far. Also, this book is so designed that only those who do read, understand the information on some very individual basis. Meaning, that those who may read this good book now, will get some good understanding of all the good information. After that, as they may then progress more, and so when they read this good book again, then the good understanding will be very different to what was understood earlier. So, please do understand that, if the good understanding of each person keeps on changing, then so will the

good understanding of all other good people too. So, if some of you keep on discussing this book with all, then the confusion may set in, and then it can also then lead to some different ways of thinking which will then become all discussion that will lead to nothing. So please, even if anyone read this book by mistake without knowing all of the good God's good ways, still, we did bring to notice to all of the readers that if they are not able to understand this book or if they feel something differently, then what they should do. So, please do take care and do not discuss amongst yourselves anything that appears in this book. We now think that we have mentioned this in some ways that is now understood by all those who are now reading the good importance of reading for your very own selves. So please, we also want you to know that good God Almighty has allowed this book in the way it is being presented only after good consideration that it will be very helpful to all you good people in the end to understand all about the good Spirit Worlds that do exist, including the good Spirit World of our good and dear God Almighty. So please, all souls that lead any of the good Spirit Worlds are very powerful and they need to be so because only they in their own worlds can do few things individually that no other soul of that particular Spirit World can do. So, please do be aware that though there are many good Spirit Worlds, each good Spirit World is at some different vibrational level. So, please do now understand that this is the reason why all good souls of all the good Spirit Worlds cannot travel to or even visit some parts of some good Spirit Worlds. Some good souls have some good abilities to be able to adapt themselves differently, and so, such souls can then almost visit any part of any good Spirit Worlds. These souls are then mainly used or selected to go to different parts to get some different vibrations or to carry some messages or to get some useful information only for those good and powerful souls who have sent them. So, please do now realise that the good Spirit Worlds are so vast that even good God Almighty or any other such powerful souls are still not aware of existence of many such good Spirit Worlds. We know this, and we can say this because time and again we come across some powerful souls of similar vibrations that we did not know earlier. In such events we send some good souls who are capable of adapting to different vibrations to ask for a good meeting, and then we get to know each other and we then create some more powerful peace in the good new universe. So please do not get very excited to make such information be widely available; though you may make aware that many good Spirit Worlds do exist. We, the good God's own angels bless all you good readers of this book.

59. Please good people, please do be aware that good God Almighty has now given all of good angels, who are involved in writing this good book, some very good resources and some very good ways of explaining some good ways of the good heavens. So, please be sure that now you good people will need to have some good ways as well as some good resources to be able to understand all that we are going to tell you now in this good book from here on. So please, we have already let you know that you good people will not be able to understand much only by your first reading of this book no matter how much you know or have learnt from any of the good prophets that were now involved in teaching you good people

some good ways of the good Spirit World. So, please do also be aware that this book, as you would have already understood by now, is not involved in any sort of teachings. This book does not require anyone other than your very own self to understand all that will be made available as well as all that was made available till now. So, please do not think that you will also be able to remember all the information given so far or that will be given in the future. So, please now understand that this book will not have anyone to be there to explain anything to anyone. So please, it is only up to those who will read, to then realise how much they want to learn. So, please also understand that there is nothing much to learn from this particular book, but there is a lot to know from this book. So, please do understand that since there is nothing much to be learnt, there is no one to teach, yet there is a lot to know. This knowledge is now given for some very good reasons. One of them is that the eager ones should be in some position to know more. So, please do try to understand that the more you will know, the easier it will be for all of you good people to learn how to behave with each other. You good people will also be able to understand the good importance of being good. You will also then be able to understand that that will be the only way to be able to live in peace and harmony. This way you will be able to be in some control over all the good vibrations, and then also remove all the bad ones. This way you will also be able to always keep all the good surrounding's vibrations good. This way you will be able to be in good control of all that will be existing on this good Earth. Then, at some point you good people will also be in some good position to make more souls of some other good Spirit Worlds also to learn of all the good vibrations as well as all the good different vibrations of all the other good Spirit Worlds. Then, after you collect such good vibrations, you may easily be in some good position to be able to create some good places that are very good and also very different to the good Earth that you now live in. So please, we once again repeat that all you good people will have to read this book so much to be able to clearly understand all the good information that will be given. So, please do realise that you will have to start teaching your good children, right from the time that they are born, all the good ways of our good and dear God Almighty. So, please do realise that what we mean is that some good awareness should be always created amongst all your good children. So, please do know that you should start with explaining and creating awareness in their minds without thinking that they would be too small to understand all that you would like to talk about. After that you good people should also make them aware that our good existence is there and that they can ask for our good help. After that, they should be made aware of all the good New-religion. Once that is done, you good people should teach all your good children to be in peace and also give them the full control to then be able to learn and practice the good New-religion in some very good way. They should also be made aware that they should do all in the good name of God. Thereafter, they should be left alone to understand what they would like to do in some specific or some special ways to go about and be in some good way to carry on living on this good Earth. So please, by the time comes for them to read this good book, it can also be possible that the good vibrations of this good Earth would have changed a lot, not only that, but vibrations could get very good. What we mean is, good enough to get some

different vibrations. So, please do understand that different vibrations can be made available only in some ways that you can learn as well as get them from the different good Spirit Worlds. Once this can happen, all on Earth will be in some very good position to always be at peace, and to such an extent that the question to be able to live in peace and harmony will not even arise. So please, you good people, please do know that our good and dear God Almighty will be very pleased. One more thing we would like you all to know, is that once this good Earth joins with the good heavens, all souls will be in some good position to be able to communicate and also talk to our good God Almighty. So please, we mean that even if you are in different parts of our good God's universe or also when you are in any part of any good Spirit Worlds. So, please also do be aware that you can go or visit other good Spirit Worlds only with the good permission of our good and dear God Almighty. So, also do be aware that God Almighty will always be aware of who is where, and if they are required to be recalled from anywhere, then so will it be done. So please, we are very happy to bless all you good people, who are reading this book, as well as those who will read this book in future. So, please go ahead and do your very best to read and understand as much as you can.

60. Please, you good people should now pay more attention on how you can now explain to some more good people of this good New-religion that has been launched for the good benefit of all the good people of this good Earth. So, please do now remember all that was told to you in the past. Please do not bring more good ideas to such good people who are now trying to understand, particularly from this particular book. You good people will have to learn some very good ways to explain to all, some very good ways in some good manner and in some very good different ways. So, please do understand that few people would not have had any experience of any good religions. So, they may not even have some good value in asking for our good help, let alone be able to be in some good ways of praying to some good souls of the heavens. So, what we mean is that some people would have been aware that some of you good people do pray and that you do also pray to many, many different souls of the good heavens as well as that of the evil world. So, they may not really be aware of what is going on as far as some good ways of asking of our good help is concerned. So, please do realise that such good people need to be explained a lot, and also in a lot of different ways. First of all, they should be made aware that there are many souls in the heavens who can help them when they do ask for any help. So, please do realise that the first thing that you should make them aware of is the existence of many, many such souls that do exist. What we mean is that you should explain and bring to their attention that there exists some good souls and some bad ones and also some who only want to create some ways of distractions in any ways that they can. So please, let such souls know that it is always only beneficial for the good people to ask for some help only from those souls who are very good and are also interested to help them so that they feel safe and also so that they can then progress. So, please let them know that good souls only reside in some good Spirit Worlds. So, they should only seek help from those souls who are in the good Spirit World. So, please also do then make them aware that the good Spirit World is only headed by our good and dear God Almighty.

Therefore, they should only seek help by asking God Almighty to help them instead of souls that they may not even be aware that they exist or that they would be in some position to give them any help. So please, from thereon, ask that they should feel very comfortable to ask God Almighty to help them and let them know that God Almighty will then assign some good soul of the good heavens and also that of the good Spirit World, that is God Almighty's good Spirit World. So please, if the person listening is already aware of the good existence of the good Spirit World of God Almighty, then also make such a soul aware that also there exists other good Spirit Worlds that are quite similar to the one that of God Almighty. So please, also let them know that no matter what, whilst asking for help from the good Spirit World, the only soul who come to help are from God's good Spirit World. There is no way to approach any soul from any of the other good Spirit Worlds. So, please also make them aware that this is the good reason why praying only to God Almighty is very useful. So, also let them know that they should feel free to ask for any help, and also let them know that they should not ask some good help if such help is already available by approaching someone of the good Earth. After that, please do make them aware that God's New-religion is already launched and that they should try to learn most of it through some help of some messenger or some prophet or someone else who is well aware of all the good teachings of the good New-religion. So, please be very sure that anyone explaining anyone, this New-religion, will be well supported and there will be a team of good angels to make both of these, who are teaching as well as those who are listening, understand. Not only that, but both of such good people will be blessed to see that they do understand a lot, and also that some more thoughts go into creating more good interest to learn more and also to move further. So, please do know that those good angels, as we said would be with both such people, are selected by God Almighty Himself. So, the good powerful thoughts that can then flow will be of the highest order. So, also do be aware that this way more good people will also join in to listen more. If this does happen, then please form some small groups wherein all are very comfortable and discuss more and more till you are not able to give any more information. Please be blessed and see that you move forward.

61. Please good people, please do be aware that the good process of shift is completely complete. We are only waiting for some more events to take place so that you good people feel very comfortable to ask for our good help. So, please do realise that as soon as some aspects of shift starts to happen, there will be a lot of disorder on this good Earth. At those times, those who are aware that the process of shift has started, should be well prepared to draw some good attention of those who do not know about this good plan of God. You should not only guide them but also make them aware that good people should not be afraid of anything and that soon the good helpers of God will be on the way. For those who do accept our good existence, should pray more and ask for our good help as well as our good protection. You should be making some good preparations and see that you have all that you may need and that you have all the ways of communications. So please, what we mean is that some disruptions may cause some forms of communication to fail, so you should have more than few ways of communicating with all those

who you good people love and are also very close to. So please, also make few of your loved ones also be aware that God's helpers may also participate in giving you good people some help if you need. So please let them know that they may not talk to you or even look at you even if you are in some very bad painful situations. This is because they will be well aware of who needs the quickest ways of help and who is in need of urgent help. You good people may think that you require some very urgent help, but they will have ways of knowing what the best thing to do is in that situation. So please do not waste time of yours as well as theirs by asking them anything. Also, please do be aware that you may not even be able to understand them even if they talked to you because their ways of communicating will be very different. They will be able to pick up all your thoughts as well as all the vibrations of all that will be going on and they will be acting accordingly. Please also be aware that they will only do the biddings of God Almighty and of no other authority. So, please do realise that they will not be in any position to entertain any requests or orders or instructions from anyone else. This is also one more reason why asking them for any help will be of no use. So please, also make all aware that they should not think that these helpers have come to take over anything from Earth. After some time, you will then realise that all they are doing is giving some help in some manner that no one on Earth would have been in some position to do. So please, all your requirements of help should only be directed to our good and dear God Almighty and He will ensure that all help in accordance with His plan is extended to all of you good people. Please, we again repeat that all those who are good will be well noted by all those who will be there giving you good people help. So, please do know that in the process some good people may also be recalled. So please do not think that only evil is being destroyed. Please be calm at those times and help all and expect disruption to your daily life. God will bless all of you.

62. Please good people do be aware that there is a lot that you are not aware of. So, please do now meditate. The more you meditate, the more good thoughts will be poured into your minds. With that happening, the more you good people will then realise that the good God Almighty's good kingdom is so very vast and wonderful that you will not be able to travel to all the corners of His good kingdom. Also, it is impossible to travel to even some very small fraction of His good kingdom with any of the good means that you have right now or in any future ways of your good ability to travel. So, please do try to understand that only those in some good spirit forms can only travel all across God's good kingdom. Still, you will not come across any soul who would have travelled to all the corners of God's kingdom. What we mean is that those who would have travelled to all the parts of good God's good kingdom are so very few that there is a very little chance that some of you may get to meet them or get a good chance to travel with them. So, you see, this energy is so required to travel more in the good God's good Spirit World. You good people will be able to find it more easy to store in, in your good energy field by some good meditation. In such sessions you may also get some good instructions to ask certain good angels to help you to get this good ability to travel when you are in the good Spirit World and when you are outside any realms. Therefore, please do try

to realise that that will be your first wish when you are outside all of the good realms. So, please do also try to understand that the good thoughts which will be poured into your minds will be retained for all the time to come in the future. So, please do some meditation. Please also be aware that all may not be in some position to be able to get such messages and this way will be open only for some very short period of time, say in your worldly time, for about next one hundred years. So, only some of you good people who will take up some good ways of meditation and improve your good ways of meditation, will get a good chance to be able to get such type of energy when you return to the good Spirit World and also when you are no longer in any of the good realms. So, please do know that this way of giving energy will always be available to all souls those who are outside any realms; but you will need to be selected to be in some position to receive this type of energy. Also, do be aware that those who are selected to travel to some other good parts of other good Spirit Worlds will need still some very different type of good energies to be able to perform such tasks. Once you are so selected for such tasks, then you are eligible to get both types of energies. After performing the good tasks for which they were sent, they will then be able to travel in any parts of our God's good kingdom. Please also do be aware that to travel to any parts of God's good kingdom, you do not need to take any permission from God and you are free to travel wherever you like. The only thing you will need will be the good energy that is required to travel such vast distances. So, please be aware that similar energies in the good Spirit World cannot be obtained by meditation because no soul in the good Spirit World meditates. These kinds of energies, including some more different kinds of energies are given only if you are given some tasks to perform or also on request if you so want some particular type of vibrations. So, please do be blessed and please do meditate as there are many good benefits that you may be in some position to get. So please, also be blessed to be in some position to get those good benefits which you may enjoy and which you may wish.

63. Please, you good people are going to do well in all the good progress that has been planned for you good people by our good and dear good God Almighty. This good progress is going to be a very good help for you good people to achieve what you need to achieve. That is, to be able to live in peace and after that to live in harmony. These are two different things. Once you good people are at peace, then you will find it a little hard to remain good. After that, will come the hardest part and that is, to live in harmony. So, please do realise that if you find it hard to achieve some peace, and after that you think that to live in harmony is going to be even harder, then you can only realise the amount of effort you good people will need to put into achieving it. So, please do realise that you good people do achieve peace and after that you do remain good. Then the thing is that in some ways it will be very easy to live in harmony. The problem that you good people will face is trying to show the rest of you good people which would be the best way to keep this good world now peaceful for all the time to come. At this point many good ideas will float around and you good people will find it very hard to then choose which one to follow. This is because at that time you will need to see some good standards in all the good aspects of living; and that also includes all those in every branch of your good lives.

Meaning, in all the parts of financial systems, political systems, scientific systems and so on. So, please also do realise that things will change in all the good aspects of your good lives which includes on types of clothes you people will wear, what you good people will eat; also, in all the good ways that you will travel as well as in all the good appliances and devices that you will use. So, please do understand that though this would be the hardest phase to go through, it will also be the fastest. So, please do know that at that point of time, people will not fight over things, but they will find it hard to understand some concepts of some ideas that will be then put forward by some very good minds. So, please also do realise that few things in some energy systems will also need to change. This will be hard to then give some thoughts to understand which one to choose. So, please do understand that we will give all the good minds good thoughts to be able to make them understand which one will be the best for you good people. Still, one may think and feel that their very own ideas are the best. So, that point of time things will get hard, not only for you good people, but for all of us in the good Spirit World too. So, please do be blessed that good times may get to you good people very fast now. So, please make it a good point to help; and mainly those who are less fortunate than you. So, please give this good idea a good start to now practice this within your very own families and expand to your good friends and then to your good neighbors. So, please give your good families some good ways and find that your families come first for all the good help that is needed and by families we also include all your good extended ones too. Let good God's good blessings fall on you good people.
