

The Notes Of Heavens For All The Good People To Know

This book is written by me, who was spoken to, by some angels of the good heavens so that we get more information from the heavens to the extent that some questions were asked on some topics that were suggested to get more information on, from the heavens.

To leave the messages as near to what were received, minimal changes of words or language is made. This also prevents delivering any personal opinions or thoughts of mine.

One of the things that the reader should bear in mind is that what is given from the heavens are some good ways to get most out of the way we pray, so that the maximum benefit can be received. There is nothing but love in the heavens, so there is no punishment as such that is handed out to us. If we have done bad deeds and lost our steps then it is only up to us to correct these and be good, and do good, to earn them back and even to improve them - something like what *karma* would mean. Therefore, it is nothing of a must, that this should be done or that should not be done, and that if you don't do this or if you don't do that you may get punished. The information is to train us to get optimum out of the time and energy that we put in to earn our steps because that is what the angels are eager to do. They are very eager to help us to earn our steps so that we progress and so that we live happily.

Generally, one paragraph is one topic.

Everything that appears after this has been received from the angels of heavens. Hope some find a few things that they wanted to know and I hope that all those who read on, like what they read.

Coover

Good words of some good angels of the good heavens that were spoken to good Coover for some good people of the earth to get to know what God wants all the good people to know:

Angels of the heavens plan what and how God wishes earth to be, because earth is one of the most beautiful of all God's creations. More advanced places are there, out of these, earth is one of a very complex and beautiful creations of God. Please do understand that what God does want to happen, does happen, and please do not think in some manner to doubt this. There are reasons why we make you do things and why we help you and do not over-rule you ... to keep man as a good example of God's creation; creativity was given to man to maintain this earth in some good ways. When some creatures fulfil their tasks, they are then taken away so that man can have all that is required. So please do your bit to keep the goodness of the human nature, and God wants man to behave in some certain way and that is the reason why we are asking all of you to change your ways, so all are on the true path of God's ways. And what we all are asking is not something that is very hard. So please ask all to be at peace with one another. It is so important to first achieve this, before anything else can happen. So, do your best to spread this message of God ... and please try out ways to do this. And we will always be there to help those who want to do this. And those who will spread these messages of God, will always be rewarded by us because we will, and we are, required to be by the side of these good people all the time, and God wills that such people should get everything that they need to spread God's good messages. And no one can spread God's messages if they are not on the path of righteousness. So, please tell all those who want to be on God's path to first practice righteousness ... so whatever they say is then believed by all. And no one should try to be right in all that they say or do. So,, please do not expect all to be right but please let all be good, true and honest to everything they say and do. This is how one can start to be on the way to achieve righteousness. And at present there will be very few who will be able to achieve this. And please all those who are able to talk everything very freely, please keep them close to you so now all those who are open and can confide in each other very freely will form into individually trusted groups. So these groups will practice to be good with one another and please do not form groups which can cause arguments. So, all those who are in some groups where they do get into arguments or where people see others arguing but they cannot do anything about it, should move out of these groups other than working groups, which means, where one works, because here the will of the leader is the only thing to follow. And many may not even be aware where the leader is taking all. So, in such places, arguments will be there. So, please try to keep the arguments only as constructive arguments. You may also get into arguments within the family and the family is constructed in the Spirit World so no matter what, one should not move out of the good family out of some arguments and no family arguments can be of the nature that they cannot be resolved. But at times we may guide some family members away if there are some reasons and we do this in many different ways as it is found necessary by us, and

this is done by sending some child overseas for study, or we may guide someone on some long overseas business trip, and in some extreme cases we even do guide some to hospitals or some institutions for a long period of time or even for the rest of their term on earth. So, please let all know that all should try to be good, peaceful and righteous because this will only make one progress further. These are the stepping stones to progress in the good direction that God wants all of the good people of the earth to progress. And people have no idea of God's plans which are so beautiful and soon you will see many changes happen, soon after all the bad is cleansed from the face of the earth. So, please help each other to be good and form groups of yourselves so only you can help each other; and move out of the groups which can cause you to feel uncomfortable.

God wants all of the people to love all those who they live with and all those who love them, meaning - all are at a certain level of understanding and those who live with you are first. Those who are your family and then in some cases there also could be friends staying with the family it is very important to love these people first. After that if you are at a higher level of thinking, then you will also love all the neighbours too. And then those who are far away but are your relatives, friends or your business partners or your employers or your employees or your dear ones who are good and apart, and you would have not even met them, but still you got to love them. And now for those who can get to the possibilities of reaching out to masses like president of a country or a team leader of a large worldwide organisation and other people who are a good support to a lot of people, then all should be loved by these people. And after that one can think of loving boundaries beyond the neighbours outside the locality they live in or outside the city or the country that they are in. So, these can be achieved only by saintly people because for them all in the whole world are the same and they cannot love anyone more or anyone less except those who are very evil. So, it is important to know that God wants all to live in peace and harmony. So, it is very important that people love in this good manner and certainly we do not expect all to love all, and only those who have reached a very good level will be able to love all. And these souls will then be in a good position to pray for other good souls, and these souls who then have reached such levels that they will not ask anything from anyone in the Spirit World for themselves. So, they will pray for others only and so their prayers will only reach God's own good angels and in their cases the prayers will reach differently. All prayers are picked up by those who are entrusted to do such work in the heavens and are given to those angels who these souls feel that these prayers should go to. So, some good angels are given some responsibility to attend to only prayers of help, others for prayers for comfort, and all other prayers are passed on to God's own good angels. So, all those good prayers of protection, and those of praising, thanking and worshipping of God, go to some very powerful God's angels. So the good prayers said by those who do not pray for themselves, work a little differently. Their prayers go directly to God's good angels. So, they are the ones who receive all their prayers and they grant most of the good prayers which other angels may find hard to grant and only their simple prayers are then passed to some good angels who can grant these because God's angels are very busy and they perform duties that bring about good vibrations of

some very high order. So, they pass on some simple prayers to some other good angels and this is the reason why prayers prayed by such souls are granted very fast. And if they pray some very hard prayers and certainly they reach God who will grant these and these when granted will be more or less like miracles. And if all of you keep a look out, you will see this not only happen everyday, but every hour. So, you can now understand to what extent we all remain busy, but still please do not mix up these with some great happenings which were worked by all the good angels who are entrusted with protecting people. For example, if someone is found alive after a terrible accident or if something similar happens where there was no question of anyone having a chance to pray for, or if someone did have a choice to pray to get someone out of some sickness or some similarities like these, are not to be mixed up with those prayers being granted by God's own good angels when some very good soul prayed for. Anyone may pray for anyone, but the above is for those souls who do not pray for themselves but only for others. So look around - there will be very few who will be able to do this, though many may think that they do, do this, or that they can do this. God is now blessing you all with this message.

We all in the Spirit World love all the good people who are not on the evil ways and we all go to help each and every one of these good souls in all the ways we can. But still only those who are well in some ways of listening to their good inner voice only are able to receive our help. And that is because sometimes most of the people even though they have received our good messages, choose to ignore this, and only do what they like. So, please explain to as many as you can, because it can so happen that evil forces then get away with all their plans, and those who receive some messages and think that doing what they like instead, can get evil to keep on tempting such souls, who will then stop to listen to us and keep on doing what they like. So, at times even if it is hard, still all must keep on doing what they listen to, and think of their inner voice talking. So, after some time if they do not listen to us, then our higher angels assign us to spend some more time with those who are willing to listen to us. So, as a result we may even stop talking to such souls but that does not mean we will not help them anytime anyone calls us or comes to ask for some help of ours. We do help or rather try to help them, because if we have not trained you enough to listen to your inner-voice or if you have not developed the skills to listen to our whispers, then it is not possible for us to help. And it is not that we do not want to help, but it means that when we speak, that soul will not be in a position to be guided as we would like and at times this soul may even get misguided not to mention of any advantage that some mischievous souls or some evil souls from the evil world may take. Please tell all that listening to your inner-voice is not very hard. Please tell all that whenever anyone gets a very sudden good thought mostly when they are not thinking about that particular thing, then it was the inner-voice that gave this thought - meaning someone from the Spirit World did give that good thought. So, please when such thought is given act upon it, and as soon as it occurs. Later, it was good to have acted that way, then please thank the good soul of the heavens for that. Please do not forget this because it is this way of thanking that will bring about some more good thoughts. So, by keeping on going this way all can soon be able to be

helped a lot from the heavens. So, please ask and tell as many as possible to always practise hard to listen to one's inner-voice and to thank all the good souls who give all good thoughts, so all can be blessed from the good heavens. So, make all good people talk to the Spirit World, so this way more and more evil can be removed from the face of the earth. So, please help all to be in a good way to be blessed from the good heavens.

Remember we love all the good people from our Spirit World and all of us have to do a lot of work to keep a close watch on all the happenings on the earth, and we need to inform God of all the happenings on the earth. So, we make our special reports in some good manner which all of you will not be able to understand, and our reports are made in some special ways which are very powerful, and some can even put all your good thoughts to God Almighty in exactly the same way that you thought. So, it is very important at least for those who are doing God's work to have good thoughts. At times we need to give all the records of a particular person for a good period of time, for example, God may ask for your report for the entire length of time that you have spent in link, or for the entire period of time till now from the time you first started to auto-write, or even if God asks a report for 10 years, we have to give the good report for the entire period of ten years. So, now I hope you understand how important it is for all of you to be very good all the time, and it does not take any time for God to assess this report. God can assess our reports of many years and of many good angels in what you may call a millionth of your second. So, please now believe this, and please try to be very good in all respects. Almighty God asks us for good reports of many of those who are talking or conversing with very high angels, and of all the good prophets. So, please all of you should be very good all the time, and I mean all, because God has sent on earth many good angels to give good vibrations and to minimise all the evil ones, and many such people may not be even aware of this fact themselves. So, you see it could just be any person and of any religion or nationality and can have any status on earth, right from a good millionaire to a poor pauper. So, please do not ignore any soul that appears to be good, and so please do not talk ill or make bad remarks of anyone, particularly of those whom you do not really know or with whom you are not very close, because doing so can cause great pains to good angels of God, and we will not even tell you how we treat with such situations. But certainly we do know and we do always keep in our thoughts, that when someone is human, it is easy to have all the human weaknesses. So, I want all of you to be very strong. So, please be on God's good path all the time. One thing I also want you all to understand, that night time and particularly time between twelve midnight till about four is for all sorts of evil to lurk around, and during this time all of us are only concentrating to protect only those who need good protection. So, we can only be around some good people who are absolutely required to be out at that time and few good examples of these are - police officers, and only those, who are on worldly duty, some doctors and hospital staff who need to be on duty, and good pilots and other such people who need to be on duty only. So, we have no time to be there to protect other good people who are out partying or who are out for some pleasure, and I am not saying that we will not protect such good people. What I am saying is that these

people will have the last priority of a good protection, and if sometimes it so happens that our help can be too late or less effective. So, please do not be out at nights for some silly reasons. No going out at night should be the good rule of any good family.

Remember what I told you earlier – today we may give some more information on why you should not go out at night in the late hours. At nights we have some very special duties to perform, because only those good angels who are of some high levels, are given the responsibilities of taking care of those who need some good protection. And these good angels work a lot, and they have to make many reports of going on of the evil world, and all angels don't go out during this time. And as you are aware, when it is midnight, at some place else it is midday, and all good sun rays are required by us all the time. You may imagine our energies getting stored by sunlight, and then none being charged in its absence. But it is not exactly like this. As you can think and try to understand that all our good protection devices need some energy of light, but you see even some form of light can help us a lot to maintain our energy levels and these get used up very fast if there are some negative forces, like imagine a fully charged battery, if the positive touches the negative then even though the normal life of the good battery was for a few days, would discharge and all the energy would go away from the battery. So, our protection abilities and devices work in a similar sort of ways. So, the more the evil forces lurk around or the more you are around some negative forces, the more energy levels and good vibrations are required by us. So, it can get very hard for the angels to cope with the different situations that may arise, so God only allows a few high angels to be around with their respective teams, to be around those to whom the protection is more urgently required. So, those who are out at nights create more work for these angels, because even if nothing should happen, yet we have to maintain our watch. So please go only to good places particularly at late night time and try to avoid places where many people who are bad, are around. And it will be very hard for people of the earth to understand this, because the ways of the Spirit World are so different and so unique in so many ways, that it can get very hard to explain to all of you about the exact way of how our different gears of protection work. Please do not only imagine our protection gear as some armour which we can wear and the rest of the things are taken care of. It does not work like that, and yes, to some extent it is so, like protecting yourself – like wearing some armour. But different protections are required for different sort of evils. So, if you can now imagine of protecting yourself, it is very important for you to know what you are protecting yourself against. If you are going to protect yourself from the harsh rays of the sun, it will be different from protecting yourself from a heavy rainfall, or some icy weather. And again, it is different to protect your body, and to protect all the goods of yours. So, please imagine what could possibly be done if you had all of these happening all at once, and think how hard your task would be if it rained heavily for sometime and then it snowed and then the sun would shine so hard that it would scorch everything. Sure you would develop some sort of protections if it so happened, but what I want you to think is how hard this sort of life can get. So, please be good and keep on creating good vibrations, and please do not be out at night for no reason – it

only burdens our resources and all cannot get good protection that all may require. So, please be good and pray and help each other and live in peace and harmony.

Coover I am going to talk about some important aspects of praying today -

When you pray you must go into God's thoughts first so that God can then get you sort of connected to the Spirit World. So, even if you first say, 'My God I love You', and then start your prayers, you get connected in some way that you will not understand at this stage, and say your prayers after that. So, remember to address God or God Almighty or Almighty God first, so we can start to then receive your prayers, and prayers may be said at any time of the day or night, except those that are marked to be said at some particular moments, like only at day time or only at night time. So, please do not say night time prayers at day or day time prayers at night. But please remember that you can certainly read any prayers at any time. So, now comes some differences when you question what is reading a prayer, saying a prayer and praying a prayer. Reading a prayer is that you only follow the words that are written to know what sort of prayers are there in some book. So, if you have some occasion where you may want to say some good prayers, and you want to keep yourself prepared, then you will have to read and select a few to make some set of prayers - this is reading. Now we move on to saying of prayers and praying in itself and this may get a bit confusing. You see, if you have a set of daily prayers and you pray, then you are saying these and creating some good vibrations. Again you say some prayers if someone else asks you to pray for them, then it is saying some prayers. And only those that you say to ask God for some help or those prayers by which you worship or thank God, are called prayers that are prayed. So, this will now give rise to a question that some help prayers are said to be low level prayers, whereas those worshipping and thanking God are of some very high level prayers. So, how can both be called praying good prayers? But this is so, because, in both these cases a person praying has more faith and puts in lot of high level thoughts of God. And when persons say some protection prayers or some good prayers of comfort, also has absolute faith in God and His ways, but when these prayers are said, they lack the intensity that all in the Spirit World are looking for. And those protection prayers that are then said intensely can also be then called praying - for example: a protection prayer prayed when someone is being attacked. But to us this in turn, becomes really a good prayer of help. So, please when we ask you all to pray then please concentrate more on thanking God, and asking and loving God more, so that more good can be done on earth. All prayers of comforts are saying prayers and most of these, there is no difference in saying of prayers and praying of prayers, except that, good vibration levels are different and we want all to pray or even say as many prayers as you may like. They all go far to make good vibrations. No matter what, let more people get into the habit of praying and please pray as much as you all can.

What you all should know is the meaning of being good and kind. Being good does not only mean as being nice and pleasant but it also means all the qualities of being nice and good too. So, you see, if you see something that is being done that is not right, and you do not make mention of this to anyone for many reasons,

and one of these could be to avoid any arguments or you may just keep quiet of some actions of someone in the office only because this person holds a more senior position or you may keep quiet over some actions of some good friend or some good family member only to conserve the good friendship that you have; so these do not help anyone - not even you or the person doing these wrongful actions. So, if someone is doing something of which you are certain that no good souls of heavens would be happy, must be corrected by all. So, being good is being good yourself and making your environment around you good too so that you are good all the time. And so it is so very important to be good and to help others to be good. So, it is also the good duty of all the good people to be good, so everything that they associate with is also good, and please, do not take the good example of a good flower which can be very good even in some muddy waters because this is not so, because the flower is as good as muddy water and it will look bad to few but the flower is good and it keeps all around it good too. But many do not know these facts so please do not think that someone is not doing something right only for the reason that it is not by your ways. So, please make sure before you correct anyone, that the way you do suggest is really good and the correct one. So, please be good and please also be kind. To be kind is to be humble and only few who are kind will be good and humble. It means that please do not think of a person as a kind person only if you find someone polite enough for your liking because there are many who can be very polite or so they may seem, but these people may pose a great danger to you. So, a kind person will not pose a danger to anyone, except to those of the evil world. And so it is also important to understand, so you know who a kind person really is. A kind person will call out to everyone to be good, so a kind person is the one who will help those who are poor. So, a kind person will give everything to make a person good and please I do not mean rich and poor in your worldly ways. So, a kind person may be someone very rich or someone very poor, but a kind person will try to put someone else before one's own self. And please do not mix these with those charitable ones because to do a good charity is a must for all but there is no need to give any material charity to someone because this does not make a good person kind if someone gives someone something that someone has plenty of then it is not real charity. It is more important to give people God's knowledge, and so please also remember that a kind person is always liked by all good souls of the heavens, so they are helped all the time and even by those good angels who are not really their friends, and also they are liked by God's good angels, and they give help to these good people and they have a lot of blessings of God's love angels too. So, you will also note that those who are kind also have a lot of love in them. And if you come across some kind people who do not know about the good existence of God, then please give them a good speech and teach them what you think they should know. And when you do this, then at that time all the love angels will be with this person, so that this person can get some good thoughts. So, please love all the good people who are always kind and please know that howsoever a person may be kind, the person may get angry if some good reasons exist. So, please do not also mix up kind persons with those who are meek and mild, because those who are meek and mild can pose a danger too, and these people may not be good, because it can also possibly be that a person who is

mild can only appear to be mild and also it is possible for a mild person to be very negative. So, remember that a kind person will be strong always whereas a meek and mild person will be very negative and weak, and I am not saying this for all those who are meek and mild because many of these are loved by God, and only some of those who are very good. So, it is time now that all train themselves to progress to be good because soon this is going to be the only way on this earth. So, please train yourselves to form groups of only good people now, so that bad and evil are left out. And those who are not sure can now decide to be good if some of them like, so they can now get ready to form and grow into and slowly merge into only one good group of the good people of the good earth.

Today I would like to talk about some ways which can make people get closer to good angels and so in this good way they can then, can get closer to God very fast. So, you see it is so very hard to be on God's ways until and unless one has accepted completely the good existence of God and His kingdom, of which the closest to you all on earth is a good Spirit World where we live, and from where we keep a close watch on earth. Earth is not the only place where we do travel, but earth is only one of the good places that we look after and there are many more places on which we keep a very close watch, and it is only one of the places that God is very keenly interested in. And so you can now understand how busy this work can keep us. So, one of the good ways to progress is to take off some of our work yourselves, so that we can concentrate on more important things like protecting you, and progressing you, on earth. That is why we all in the Spirit World want that more and more people help more and more less fortunate ones, so that less pray to us for help, because they can now get a good help when some required. So, this is one way of getting closer to the good angels of the Spirit World, and no one can give a good help in the good manner that we in the Spirit World would like, unless all know by learning all that we have been trying to teach. So, to get closer to the good angels you all first of all have to be good, and many are good. Still many of these good people do not know of the good existence of God, and even more do not know about good kingdom of God. So, it is so very important to know about working of God's kingdom too. And I am going to make it known to you all that I can, but we do not have enough time and no one person's lifetime is enough to know all that we would like to teach. So, please keep up the good work of taking down all that you can so many good people can get to learn more about good God's kingdom, and please teach at least one person all that you know and that will be more than enough for all the good messages to spread. So, please talk more to those who want to listen to you so that not only you but also those who listen get good thoughts to get proper knowledge of God's kingdom, so all these people can also be properly blessed with the good knowledge of all you know. So, once the good people know about God's ways then they will be able to learn all the teachings of God, so some may take more than one lifetime only to come to this level like this. So, please spread the word of God, so many now know about God's good existence. And all good angels of the heavens have been told by God's own good angels to keep helping and guiding all those who want to know anything of the Spirit World. So, please tell all the good people to talk of God's existence to more good people so all can be helped,

because soon it is going to be very important that all the good people put more trust in God's good plans, because now it is the right time for the earth to be very good just like God wants earth to be. Please understand that being good is not the only required thing of a good person. It is only the first stage to get close to the good angels of God and after that, one can then think and plan to do what is required to get closer to God. So, the next step is to help other good souls to be good so more good can be done, and after that the next step is to pray more, so powerful vibrations are created enough to keep the bad forces away so that the good people remain good. So, now to sum up and to put it down in some simple words it is important first to be good, the next step is to make others good by helping and teaching others to be good, and then the third step is to remain good for all the time to come. And many will not accept it but the last step is the difficult step of all the three steps that I have explained, because to be good and to help others to be good you all may need our help. So, you may pray the good prayers of help or those of comforts, but to give out the good vibrations of the highest order some good prayers of thanks and of loving God and all His angels will be required. So, I hope now you understand why I am saying that this is the most important step and also a hard one.

Please make some special notes of what I have to say today. Please remember we all in the good Spirit World love all the good people without any exceptions. So, please no one should feel that we will be now, in some way, be angry or annoyed. But the main thing is that we all have to carry out God's wishes. So, we all have to follow God's instructions. The thing is that sometimes it can happen that even though you all try hard enough, you all may get to go on some wrong paths too. And when this happens we all do not like it in the Spirit World and more particularly when you do not try hard to be good. So, you see, set-backs occur when we try to progress you. But now the time has come when a good progress on earth is a must. So, please now at any cost be good to progress well from right now. The message of the hour from the Spirit World is, 'please all of you on earth please love as many as you can to live in peace', and we only would like all the good people of the earth now to progress well, so that all those who are not good can be sent to some place where they can progress more in some different environments, so they can then be good enough to visit earth. So, for all these people the journey to heavens will be a very long one, because they will then be required to be good enough to be on earth, and once that happens they will be sent to earth from which place they will then find their ways to heavens. So, the longer one takes to understand the good way, the longer one takes to be good, then longer will be the way to heaven. So, please, all please be good now, and spend some time praying to God Almighty. This will help all in many ways that appear to be very mysterious to all humans. So, please give all a good way to pray, so now many who are progressing slowly may now make a very fast good progress. One more thing I would like to make some emphasis on is, to do some good deeds to all and please, it is so important to clearly understand this, yet it is one of the hardest things to understand what I mean. Now you see, there are many who give large donations to others. There are many who do social services to help others. But how can they be of use to anyone if these things are not done with love

and kindness? So it is also important to know the reasons why a person made some big donation or did some good work. And one point of argument that can be a valid one is this, that no matter what, many did benefit out of the good donation or the good services of some people. Yes, this is so, but what God would be happy with, is only if it was done out of love. Still, this good donation did help, then what is taken into account is also whether good people benefited out of this, and a good donation wouldn't be a good one, if good people did not benefit out of it. So, the importance of helping people individually is that more people only who are good get more help. And please try to help those who are not so good to be good, so they can also understand the importance of being good. So, please do all you can to help all to make this good place earth a good earth, so all people are good without any exceptions. And you may think this as a very impossible task, but it is not so. And nothing that God wishes remains unfinished, so you will soon see this earth as a good earth and when the time is right all this will happen so very suddenly, and then you will see some sudden eagerness of all the people to be good. Still for many it will be too late, so they will be then sent to some other place, where they may get to grow with some spirits, so they may then get to give more love with more good understanding to all whom they will then be with. And so please do not think as anything bad is going to happen. It is only that now God wants all those who are at some higher levels to be away from those who are at some lower levels, so those who are at some higher levels can now progress faster, and those who are at lower levels can also progress, but at some rate of progress that they can cope with, so earth can be a place where all can be very happy and many have been eagerly waiting for this to happen. After this happens some may later visit earth from God's own office or His home. Then some good God's own angels can also visit more of earth, so then they can give some powerful vibrations to earth and so then the progress can be seen at a rate that world has never seen before, and we all can then be together in God's new universe. So, please be happy and please tell all others to be very happy, since earth will soon be one of the best places to be. So, remember there are many other places too, which if compared to good earth, are more advanced and much more better. So, we all now must do our best to make this happen as fast as possible, so please all of you do pray a lot and please take God's name a lot. So, please try to do a lot in the good name of good God Almighty.

Today please let me explain something more so that you all can now really understand the importance of being really very good, so that there can be nothing but sudden and very, very fast progress. So, on many different kinds of energies that were not known before, will be discovered on earth, and by this all humans will be able to do a lot in a much better way. But before this can happen it will be very important for all the people to be very good. Please now accept that there could be many wars on earth and these wars can go on for quite a while. So, nothing good can happen in a situation like this, but all this can end as fast as it all began. So, after a great part of this world is destroyed people may realise their mistakes and then not do anything to hurt anyone, and all these will be some factors which will work for the good New-religion. And as people get to know more and more of the New-religion more and more groups will form on the earth

and all will be so very much interested to grow their group so more and more good people can get to know the New-religion. And so you will see the destruction of many good temples and some places of worship, before people realise that these are now no longer required by God, and after you leave earth many good prophets will soon start to get some message of some aspects of the New-religion, so they will be then looking out for the good book of Aman and some good prophets that you love, can then start to give some knowledge of Aman to some other good prophets, who will then not stop to teach all to only be good, so that soon no one is bad on earth. And all the places will not be affected by the shift so there will be some people who will place themselves as good people, but they may not be at some good level that God requires them to be. So, these people will then have to take upon themselves to change very suddenly, like they may be asked to leave all their worldly work and do only God's work and this can then bring them to the required levels. But soon after the shift no good time will be lost to make people good, so many who wish to be on good earth will need to have progressed in some very good way and those who will survive some good ways of the shift, will have no time to progress if they are not at good levels. So, many who are not at the required levels but are still surviving may fall very sick or a few may be recalled in some good way, for example, some selected may be given some work to do in some manner that they cannot do something very bad, and still when we get to see what has happened around them, then they themselves will fear to do anything that is not of God's ways. So, those who survive, all would surely have heard of the New-religion and all non-believers will suddenly become believers because all will get to see many, many miracles and all will be well aware of God's existence, and no one can then be in any state of uncertainty of the power of God. From this point of time the earth will become good for all the good time to come. And as I told you those who may survive the shift but are not at the required levels will be more or less dealt with in some sort of individual basis, but they will not progress by themselves. So, those people will be very sad and so, some will get these souls together and make their own group, so that they will then progress each other. So, they will need, not only to be good, but extremely good, and once they pass on there will be no evil on earth. But till these people are there evil will still be lurking around so that they can make their last attempts, to get good people to be on the evil ways. But this group of people who are not of the required level will regret with the good knowledge that they too could have been now on some different ways. So, no one - not a single one from this group will pay even a slightest attention to any of the bad ways. So, from that point of time onwards evil may disappear, but if some evil forces do then think that it was a mistake to tempt the evil ways with a group who realises their mistakes, and if some evil person changes this, they can then try to make one last attempt to capture someone from the very good group. Then this can be a good mistake because by then the good will be so very powerful that any evil getting near to any of the good groups will be ignored completely. So, this will be the point of time when evil will be completely destroyed from the face of this earth. So, Coover please let all know that it is time now for all to be good or very good, so the good can progress a lot and be very strong. And more so, that no one protects those whom you all love ever regrets to be too late to take the good path of the Lord.

So, please ask as many as you can to be good and to be on God's ways. And to do that, please ask all to read Aman so all are blessed by God and so all get to know the real ways. So, please ask all to read Aman also for the reason that the book has God's power and so reading this good book will power all to have good vibrations. And after that, saying and praying the good prayers make them then be in some position to create more good vibrations, because this way then all those reading Aman will let others know with help of others and teach those who do not know, and so will spread the good, good knowledge of existence of God and God's good kingdom so please tell all to be very, very good and pray so that no good person remains at some level to regret later.

God is blessing this message now so please let more know of this good, good message as soon as possible.

Now let me give all of you some good knowledge of what was told in a good meeting with some good angels of God. We were told this, soon after God had this meeting with His good angels'. So, me good changes will now soon be seen on good earth. Once all get to be good - God will give earth some good blessings so that soon earth can be a good place where all would like to be. So, God wants that many start to now communicate with the good Spirit World, so now all in the coming generations can get all the help of the heavens only to be good and nothing else. By this I mean that now God wants that all those who now want to communicate with someone in the Spirit World will be given some way to be able to do so, and the only restriction will be that the good soul in the heavens should not be very busy to be doing some God's work that God wants first to be done, and also that this particular soul should be at some good level that God has marked today. So we all are very happy for you all on the earth now. Coover please tell all those who are communicating with someone in the Spirit World, now to ask for a good help to be good, and the more often you do that the better it should be for all. And please also let others know too, so that now all start to ask for God's help to be good, and this will please many in the Spirit World. So, please let all now know that being good is the only way to progress to get closer to God, and this is the only thing that God wants from the good people of the earth. God wants that all be good, and now if all will be good, then all can live now in peace, and this will help all, and actually all want this too. So please let all know that this will not be hard to try out and those good people who are with some people, who are not very good, can now be made good with our help. All you good people have to do is talk to all to be good and we all in the Spirit World will help these souls to get good thoughts, that they can then be helped in every way, to be good. And please do not think what I am saying is that gifts may be showered on all these good people. So, if someone wants to be good but is in a good company of someone very bad and if this person really, really loves this bad person, and this person now wants to be good, then we have to ask some good angels of God for the permission, to give this good soul a protection against the evil person, so that this person can also be with this evil person. And then we will also have to look into some possibilities of making this evil person good somehow. So, it depends how evil this person is and if this person is so very evil that some good soul cannot

progress, in spite of protection being granted, then we may have to somehow terminate the relationship that this person now has. And if God's angels do not give some protection then too, the situation remains as I have explained. But if a good soul is given protection to carry on some protected relationship with some evil person, then the progress may slowly take place. And after some time if God's angels are then satisfied, then they may remove the protection, so that the good soul can then start to progress. And if even the evil soul tries to harm this soul then, the evil soul will get some good vibrations which can cause this evil soul to be even more evil. And this can be a good turning point, where this soul will then decide to be good or will then decide to be with this evil soul. So, after this period of protected time, the soul will be once again on one's own. So, this can be very hard for all around this good soul too, and on such occasions our help appears as a temporary one, and this only appears but it is not so. So again, it will now depend upon the good progress that this good soul makes and if the progress is good, then this soul will keep on praying some good prayers or do some more, and different help will then help this soul to progress further. So, remember that in a few cases some very bad souls, as you may think, that they can also progress to some very high levels that was not seen before. So, please do all that can be done to help all to be good and so no one wants to now hurt someone good. So, soon you will notice that good people may then soon start to form good groups, so good people can always now remain good and this will make those who are not so very good, to be very good, so that they can be together with their good friends or family, because soon they will realise that if they are not good, then there is no place to be near good. So, this way soon all the evil will be removed from the face of the earth. So, soon earth will be at peace and soon earth will be so very good that all will be happy and so all will then visit good earth. Once this happens earth may also be on the list of those who are elsewhere to come and visit earth, so that they can even then start to think of staying on earth and so that many may even think of at least small visits. So, please now all of you start to make this earth so good that many good people of God's kingdom can also bless earth with some more new ways and some more gifts of theirs or some more good knowledge of theirs, so that now earth can progress. Also please let all the good people know that this is the last time that God now sends one of His own good angels on earth who will give good start to help people to be good, and I am saying that this will be the last time, only for the reason that soon now there will not be any need for God's help because earth will be made good. So, after that it will always remain good. So, now when God goes to new universe, His own angels will always be with Him. And soon all will start to progress to join God and to be with Him for all the time to come. So, please tell all not to waste any time so that they now start to be on God's ways soon. So, please ask all to pray more so more good vibrations help all the good people of the earth, so this way now all evil starts their plan to move further and further from earth.

Today my topic will be of good ways to go to give your help and to give your love. It is very easy to be eager to help someone, but we should not have any strings attached. When we love someone, and particularly when we help someone, and we will help all those we love, so you all should also try to do this. And please help

all those you love and love all those you help regularly, because only then will your good help finish its deed. So, please do not help someone because we in the Spirit World will be pleased or will not be pleased only if you help someone, or you had your reasons for helping is not a right one. So please do not help anyone only for the reason of pleasing someone on earth or in the good heavens. So, help those who need help and only to the extent that your help is required, and try to love all those who ask for your help, and please do not get annoyed with those who are asking for your help. So, love and help go together only to some certain extent. So, your help if required by someone is very important to that person, it may so happen that you can think this as something very trivial. So, it may be possible that you then do not extend your help. But please do not do that and if you cannot do something for this soul then please make some arrangements for this soul to get the help that this soul asked for, and do not leave it for this soul to go and seek help elsewhere. If you do this sincerely it will please us, but please do not do something only to please us. This can never happen. So, please help all those good people who are trying their level best to raise their families in a good and right way. This is the best help someone can give on earth and please do not think that I mean some sort of help be given by parting of your wealth. I do not mean this at all. We always give good people all the wealth that they need to some extent to meet all their needs. Still many need some things more than wealth. God wants all the good people to live in dignity so please see that you help more people to live with some good dignity. So, I hope you can now understand that if you only think of helping people with wealth, then you may sometimes not be doing this to give some help, so that no person feels left out, and please do not think that those who are struggling need some good wealth. So, we may not even care for it. And please also remember that those who are not very wealthy can do a lot to pray. So, please teach even those people who are not very wealthy to pray. You see those who love God should be taught to pray more. So, please remember wealth of anyone is of no criteria, and a very wealthy person can be as close to the good angels, as some person who is not at all wealthy. So, love of God is of utmost importance. So, please ask all to pray only to God Almighty and to ask for His help because He loves all the good people. So, He will help or He may arrange to help anyone who comes to Him. So, we all in the Spirit World also try to do this. So, we all want all the good people of the earth to practice this too. So, please help all good people who ask you for help and what is of utmost importance is, to give help only if the need is of a genuine nature. And so please extend your help only to the extent that the help is required, so that all those who are in need, are helped by you. And if you cannot help when a good help is asked for, then please try to arrange and see that the good person asking for help is helped. So, please remember we cannot be pleased, if only people are helped by donations, and more so if these big donations are just mere fractions of some wealth. Yes with these donations some good people do benefit but this is not what God wants. So, if something cannot please God then it cannot please anyone in the good Spirit World. And please look at those who seek your help with love, so they feel your love. And please do not think them to be of some nuisance value. So, please, for this reason that you do real justice - we say, help only those who need help or else all may keep on approaching some good people for some help every now and

then, and so then these people can then become some real nuisance. Please think over this because at times this is hard concept to follow even though it can easily be understood.

Please accept God's blessing as the good love angels are now blessing you and now Coover. Please let these blessings now spread to all to the good people through you.

God wants all to be happy so all can live in dignity. So, to achieve this people must first learn to live in peace and harmony and for that to happen, people must learn to love and keep on loving more and more people and creations of God, so people can make a good bond of love with not only people they love or are around them, but so they can also establish some good bond with nature which is also around them. And please do not make bonds with those flowers or with those things and creations that may become only active at night. So, please stay away and keep away from those. It is not so important to study their behaviour for any reasons. Just leave these aside and move away from these. So, if you also have some plants which can appear nice and good to you during the night time only, then do remove them from your property. When someone wants protection and asks protection of the Spirit World we would prefer all these people to keep some form of light as some diva or candle or agarbatti (incense stick) - agarbatti (incense stick) is good, but in those very extreme cases when it is just impossible to have any of these going, and still if someone is able to turn on some form of light like maybe a small light bulb, still it can be better than absolutely nothing at all. And if in even more of the extreme cases, for example, if someone is lost in the forest and has nothing then please under such circumstances imagine some form of good diva or some sort of very bright light, and please ask God to keep this light on for them to be protected with, and then please pray some good protection prayers. And when someone keeps a diva or a candle or an agarbatti (incense stick) burning all the time then we can protect the person as well as the property of that person to the extent of the light and this is most important at night. So, you all should try to burn a diva as much as you can and more so at night and if you have some very big property, and if it is also practical, then we also prefer that you please burn some sort of light outside on the property, and in such cases even lights will do. What I mean is try to keep some light on the property and I certainly do not mean that the property should be lighted up. Once people will start to do these things individually all will surely notice some difference in their own well-being and so if this practice spreads enough then this will be their small tool to ward off the evil and to keep the evil far from all the good people. So, please ask all the good people to put their hearts into this and do their best to have some good form of light around them as much as they can. So, the best form of light that all in the Spirit World love and prefer are those in the most natural forms. So, please try to give preference to some of the most natural forms of fire and one of the most natural ones and the best ones on the earth would be burning of wood and we all know how hard this can be still this is the best form and please do not worry - this is only the start point that I am talking of and anything less than this is slowly moving downwards. And so please do not at all mind this. What I am giving

you all is only information, so most of you know what is the best, and the rest of the things may have to only depend on practical situations that I have already given. So, we all are aware that you may be required to move downwards as I already explained, that is from the moment that you can keep some good source of fire burning to the point when it is not practical to keep any form of light at all. So, if we keep you informed of all you can do then give some good thought to do what is best suitable for all of you to meet your individual requirements. So, please let many know this now so that we can now extend our protection to as many as we can, and as much as we can, and as long as we can. So, please accept all the good knowledge we are giving you now for most of the good people of the earth and please ask all to spread this to all the good people of the earth and all of us in the Spirit World will be with all the good people. So, please ask all to be good now.

God loves all of you who are good so now Coover, please receive some good knowledge for all the good people as God blesses you and remove all the doubts.

There are some kind of souls in some animal kingdom. First let me tell you that sometimes a good rebirth cannot be allowed to some souls who are at such levels that it would be called an insult if they were at all called humans. So, think of some souls not only in your present times but some hundreds of years ago when they passed away, and if at that time they were very, very backward. Please also think of some souls who passed away some thousands of years ago and since then these souls did not ask for a good rebirth. Then these souls would not have progressed much if they are given some rebirth now, then they may not be able to cope with your progress on earth. So, only those, who all the time keep on taking fast rebirth, keep on the top side of your society. So, those who are world renowned people, are those who have kept on choosing fast rebirth. So, if you see these people and sometimes you come across few who have no faith in the existence of God Almighty or His angels or His kingdom are not always bad, as long as they are on the good ways of God. So, if these souls keep on returning to earth without wasting time, remain on more prominent side and their progress is put on top of all the rest. So, please now remember that all may not want to return to earth and at times they do make the decision very firmly, still at times it can happen that God or His angels may suggest some rebirth for some reason or it can happen that some good soul prefers a rebirth and this soul who has not taken a rebirth for a long time, wants a rebirth because this soul wants to be with the one asking for a rebirth. Or sometimes it can so happen that those souls who did not decide to take a rebirth because they do not find earth a good place to be any longer, can after some time realise, that the good progress in the heavens may be very slow or sometimes some souls who do not take a good rebirth for a long time may like the way that some few good souls progressed very fast, when they see them at some very high levels, so they may want to come to earth. At times we cannot allow some rebirths in some human forms so if some good angels permit, then some may have a choice of rebirth only in some form of animal kingdom, and they have no choice of the type of form that they would like. So, they will have to accept the forms that some good God's angels may suggest to the good angels who are looking into the cases of such representations. And please do not think that all

souls have come to earth in some form of animal. In fact it is very, very rare that some do agree after some particular forms are put forward for these good souls to take. So, we have some restricted forms too under which it is allowed. By this I mean that we do not allow certain forms for some rebirth at all. For example, we do not give any rebirth in some form of reptiles, insects or birds and we do not offer any souls to take rebirth in any of the feline family. So, please also remember we do not allow any forms also for those animals that are nocturnal and those that are active at night and please do not give any meaning to such animals because anytime such rebirths are asked, we do make sure that they are at some place where they have no chance of meeting anyone they know from their previous lives. So, there is no way that any soul can be close to someone loving. And also such souls who return in some animal forms do behave differently. So, you may see some animals of the same group to be at times more good and more intelligent than the others. So, it is also necessary that when they are on earth they progress fast. So, you already have been told that we give no memory when you are visiting earth and you also have been told that souls under some animal kingdom do not progress. So, to work some good way of progressing of these souls who are now born into the animal kingdom, we offer them some memory. So, this choice is put forward to such souls seeking rebirths in some good animal kingdom. So, the choices are those that they remember some food that they ate when they were last in the human form or that they remember their homes or that they remember music of previous lives that they lived or that they have some memory of what it is to be in a human form. But whatever can be the good choice of the memory, the intelligence level will be the highest level of intelligence of that particular species. So, if someone is born as some particular animal and prefers this particular choice then this particular animal will be the most powerful and intelligent amongst the group of that particular species.

When someone takes a life it is very bad because this sudden termination of life can cause some complications which you all may find very, very hard to understand. So, you see we have to consider many things, for example, some souls would themselves have asked for some very hard ways of being on earth so that they progress very fast and we help these souls so that they can do what they have set out to do, and you may also be in some position to give many thoughts so that some don't take anyone's life. Still it can get some way so that we are not able to do anything because someone becomes very weak, and again we also do make consideration of the age of the good soul because this is very important. So, if a person takes someone's life who is very young, then it can be considered by us fast, and so we can easily give this soul a good rebirth. But taking a life for no reason other than some reasons of money is to be considered as a very bad one, and more so if some members of the family love this soul and this soul gave them this shock of now being without this good soul, is still worse, or the good situation when some young children are left to be on their own now. So, we then have to ask God's own good angels to give some good angel's help to comfort these souls and the other family members will now need to be able to get the good support that was promised to them. So, we would all have tried so much to keep this soul from doing this but, as I have told you time and again, few have some faith when

they sometimes are faced with some loss. So, the example that I gave makes it very hard for us also to get the good soul some help that is fast, and if now some soul also starts to think of joining this soul in the heavens, then our work stands as some very important one. So we have to be away from our work and we have to stop giving help to some other souls that we were helping and do our best to see that no more of these mistakes are now committed. So, some other souls, who are now not being helped because of such a situation, now cannot progress at the rate at which these good souls were progressing. So, the chain effect of such an act is very different in every case and so what happens then, we may need to progress these souls who have already been promised help and now what we do is make some calculations. To correctly understand what I am saying, you may have to think as though you are making some sort of a score board to give some marks or to give some sort of points. So, you see, the person who has now taken some life and has left many in a bad situation will have to be sort of responsible for their good progress. So, we have to give the progress of this soul to the other surviving souls who have now actually lost their progress. So, it may so happen, and it happens in nearly all the cases, when this cannot be done because these persons do not have enough points to progress others, even after reaching some level that is very low. So, we have to then arrange to send such souls back on earth so that these souls can earn points enough to be able to settle their score, and so in some cases they have to take a good rebirth in some animal kingdom and when such rebirths are given then there are no choices, and what is told to them has to be done. And so far no one has ever pleaded or argued on this and have done what has been told. So, please let no one ever think of taking anyone's life, even their own, because the situation is not exactly the same but is more or less in same sort of lines.

Please do not think if use of any of such things as alcohol or drugs or similar other things like these are bad. It is only the excessiveness that is bad. All should take good care of their bodies in every way but this will not be of any use to discuss the good thinking of the Spirit World. This is more of some worldly ways and with little to do with us in the Spirit World, except that we will hold you all responsible for all your actions just as though you were not under any bad influence of drugs or alcohol. So, what I am trying to say is, all will be accountable for any actions that can take place in some influence of some drugs or alcohol. So, please only ask people to be in complete senses all the while so more good can be done. Being under some influence of some drugs or alcohol can be good for some people for some reasons, but please do not make excuse to drink as a good way of behaving. So, please do not think to celebrate some occasions, some drinking is a must. But if it so happens to be that way, then please be at good levels of drinking, that you have some sense enough to be responsible, and that by losing your good senses you do not harm someone. That is the only thing I will say for the present, though there can be plenty of things that we may like all of you to do. So, please tell some of those who do not maintain their families or are a burden to families, to refrain from doing these things or indulge in these activities that can be harmful to their loved ones. So, please understand that you may be causing some harm to those who love you and then you may lose some respect. So, you see these are more of

the worldly things, but what I am talking of is that of consuming of alcohol and drugs, and not that of dealing in these, and certainly not of some bad practices that people indulge in and some offer or when some people do some bad tricks or if someone gives something which the person did not actually ask for. So, if someone adds something to someone's drink or something like that and so this person does something bad, then the person adding some bad thing will be made accountable in the Spirit World and may then turn out to some very bad punishment that one would have then brought on one's self. So, please be careful with all such things so that people do not lose their senses, to be in some position to do something that they do not want to do, and please do not offer anything to someone who shows no interest in these things. So, please see that people, if they serve anyone something, do so with care too and if someone serves something and the person cannot consume then we do not like that. So, please ask those who serve, to be certain of what is being served, so there is no responsibility if someone is being on some duty to do so. For example - if someone is employed in some place to only serve those who come for consuming drugs or alcohol, then there can be no responsibility for such people, as long as they are serving what is asked for. So, we will not say anything of those who are actually dealers or those who process and deliver drugs. I will only say that we will leave these people in only your good hands to deal with, so please let some good people of the earth now deal with such people.

Question: Is Astrology and other such branches of thoughts scientific or do they have some or power to be able to predict our future?

Answer: It is so very important to be on God's ways so God has always many ways and many methods which can give us these powerful ways about His powerful ways and about all His kingdom. First please let me tell all of you to be aware of the vastness of God's kingdom. You see, it is so very big and so very vast that it can go beyond your good imagination. So, you see, there are so many ways given, so that you all on earth can understand these. So, you see, many depend on certain factors just like moon's gravity on earth causes some effects like creating low and high tides. So, also many such physical factors can cause some people or any other thing on the earth to change at times, it can even control some factors so you see, these can cause some patterns. So, some good souls have put this down for other people to learn but we can give this good knowledge to be able to make some things work only with those who have been selected by some good angels to learn. So, many things that are in the good books may not work all the time with all the people, but some working knowledge is simply given by us to few who were so chosen to learn. So, this can be very important to only few on the earth. For the rest of you, it is enough that you pray and some are also taught to look into what some good places of some good souls are, so few can make known the plan of some persons so that some know what to expect. Still, we will never let anyone of you know few things that some of you would like to know because all of you have to make your decisions on your own. So, please trust only your own self, as we make more of the things known through one's own inner voice rather than anything else. So, some people may be able to see some things for you but all will only be in line with some general indications of your plans and few of these good

methods of understanding this are mainly reserved for God's helpers and those who are only sent by good God's own angels. So, please pay all your attention to only being good because nothing else is important and there is no need to fear anything and there is no need to do anything special. So being good is the only thing wanted by good angels and only after that comes the question of remaining good. So, please concentrate on these two things for the present and please accept love of all the angels of the heavens.

Coover, what you have asked today is not going to be very easy for me to explain in some very simple words so please be alert when meanings keep on coming to you now. Giving you some good explanation of prayers! There are so many different kinds of prayers, so first we have to group these and then go step by step into understanding most of these. So, now first are some prayers that have no meanings at all, so we will not say that some of these will ever reach heavens. So, under this category will be prayers asking for some good amount of material gains and also because these are asked for no particular reasons. So, examples would be passing of some exams for which the prayer did not prepare, or for asking for some increase in wealth even though one has more wealth than others and is self-sufficient. So, please do not waste time praying such prayers and these can sometimes also result in wasting time of one's own guardian angels or guiding angels, and it can happen at sometimes that some good help that could have been given, can then in fact get lost, So we can now go to the next step and these are some of those prayers that people pray to God making some promises. And these are not very well liked by all of us, unless the promise is first of being good, and remaining good once some prayer is answered. Or second, the promise is of helping someone when someone really needs help, or the promise is of spreading the knowledge of God, and His kingdom, and please remember, no one should try to do this, unless someone is very knowledgeable in knowing a lot of God's laws or God's ways. So, one should only then make a good promise of spreading the word of God when some prayer is granted, only by letting all know how praying helped this good soul, or by letting others have the prayer that this soul prayed, so more of those needing some similar help can pray the same prayer so that this prayer can get more power. Then comes some stage when people only try to talk to God but this is a step above all the rest, because you are then addressing God's angels or God Almighty Himself. And please, whenever you do this, please pray only for help or at the most for comforts but not for any good protection because, all good prayers of protection should be prayed only to God Almighty Himself no matter what. And then are those good prayers that are prayed from some holy books. So, please pray these so that most people can be helped and blessed by all in the heavens. And please ask more people to pray those prayers that someone got from the heavens because all those prayers that are given to so many good souls may also have been powered by good God's own angels. So, you will now know that praying some prayers that are powered by God are the most powerful ones, so please tell all those praying such prayers, that it will help all those praying such protected prayers because these will give out some very powerful vibrations. And any of the prayer prayed that is protected by good God Almighty Himself will always attract some good angels, who will always

be with the person praying all the time that this person prays. So, please ask all to pray these good prayers, so, if someone is praying some prayers that are powered by God, and this person then feels that still such prayers are not being answered, then, we do have a good reason. But please remember that even so, no praying of a good prayer that is protected by God ever goes in waste, because as I told you so many times, good angels always go to such people praying protected prayers, and this in itself will help you a lot. So, please ask more to pray more from Aman now because the holy book of Aman now has the highest and the most power of good God Almighty. So, please remember that it is the wish of good Almighty God that these prayers be now granted very, very fast. Still please do remember if some of these are not answered at all then there has to be some good reason, and no prayer of Aman if prayed by anyone, good or bad, or evil will ever go wasted because each and every prayer as it is being prayed will now be listened to by God's own good angels. So, any decision that is made will be by God's own good angels, and if the granting of such prayers are required to be delayed, then it will be discussed by at least in three of God's own good angels. And if some prayer is to be totally declined then it will be discussed between at least five God's own good angels or with God Almighty Himself depending on each individual case. So, now comes the question of protection? Please remember when I say something of protection prayers - it means the way and manner in which some prayers are said, and it can also actually mean powered by God. So, when God Almighty Himself powers some prayers then these prayers are called to be protected by God. So, those prayers that are protected by God cannot be granted by anyone except those in the good Spirit World. So, it is always safe to pray those prayers that are protected so no other force except the very good ones can grant these. So, these will now also come as a new thought to some, so please remember not to keep on insisting and to keep on praying if some prayer is not granted in some reasonable time and, if some good prayer is not granted in some reasonable time then please ask people to pray for what they are praying with a request to God to grant the prayer only if the granting of this will be beneficial. If not please you all yourselves ask not to grant any prayer if it is not going to help you. This should be taken as a very important note if anyone prays some unprotected prayers. So, remember when you pray some unprotected prayers it is possible for some evil forces to grant these to you, so it can appear as some prayer granted but this can turn out to be harmful to you. So, please understand that praying prayers is important and some prayers are required to be prayed with a lot of good understanding. So, please give many, good ways of praying good prayers so more good can come out of praying. So, please help all to pray some good prayers and also in some good ways.

Today I will give you information on some good thoughts that are given by some good souls or by good angels in the good Spirit World. So, please give some good thought to this now and so also remember that most of you also keep on getting some thoughts from the evil world. So, what you decide then gets to become your ways. So, please now remember that good can give some thoughts but you should be in a good position to receive them. And please also remember that choice of doing something is very different from the decision that you take to

accept the good thoughts. So, it is important that you also ask for good thoughts all the time so that good progress may be made with some good thoughts that you may accept. So, it is good to have some knowledge of this, so that good thoughts keep on coming to you. So, in some way if you keep on getting some bad thoughts and if you are pleased with these, then you will keep on getting many more bad thoughts, as these will be sent from the evil world, and so more bad thoughts can get people to do more bad or even evil things. So, as someone gets some bad thoughts, start to pray some small prayer, so that you may then stop to get some bad thoughts for some time. And the more you will ask for the bad thoughts to stop and the more you start asking for good thoughts, then comes the more important part and that is to decide what to do. So, remember at this stage people are well aware of what is right and what is wrong. So, now if you decide after receiving some good thoughts and also after knowing this, then please remember that if you now do something that is positively wrong, then it can disappoint us. So, if this keeps on occurring repeatedly then we will stop sending good thoughts to you as it will be a waste of good time of ours. So, please all now start to ask for good thoughts. I will give you two prayers for this - first one to only ask for some good thoughts and the next one to ask for good thoughts only, when you are getting some bad thoughts - **Prayer** - *Please my dear good God Almighty please ask some angels of Yours to please give me some good thoughts all the time because God I only want to be good and also because I want to remain good come what may so God I now need some help from the heavens so God please grant me this prayer because God I will do only good as some result of good thoughts.* **Prayer** - *Please my dear good God Almighty please protect me against any thoughts that You my God think are bad for me and please my God I am good and as I want to remain good and God I find very hard not to accept some bad thoughts that I am now getting and please God with Your help I can do anything I want so please God I want nothing more than to be on Your ways so I be good and so that I also remain good now for the rest of my life so please grant me some help my dear good Almighty God.* Good Coover, please give me your attention now so that you now really understand what thoughts are and what these are made of. Thoughts are some good signals that we send to you all the time and you do have sort of receivers to receive these. So, now it is important to understand that you do not generate any thoughts of some sort that can be received by someone else. So, all thoughts can only be of what you have got to know only through your senses. These thoughts are not signals that you can send to someone specifically in our theory, only we can send thoughts to you which you can then process. And you certainly do think that these are not called thoughts by our definitions because these remain within you and that you cannot send these to someone very specific, for example, you cannot send any thoughts to anyone on earth as well as to anyone in heavens whom you choose. So, do you now get the meaning of what I am now trying to say? Also do understand that we in the heavens do and can pick up your thoughts but only those who have the permission of God, do so, and that too for only those who are assigned to receive or send to someone on earth by God Almighty. Now please also understand that there are no set rules for someone from the evil world so Coover, their presence is felt more easily by people on earth, so people keep on looking for more such bad thoughts. Still at

times people do get confused and many times even the best of the people get worst of the thoughts. So, a good protection for all good people is a must. So, please keep on asking for God's protection from evil all the time - this single way will help you so very effectively to keep the evil away. But as I have told you there cannot be anything better than praying some good prayers that are protected by God and those that are powered by God. So, Coover, did you understand everything about thoughts which is different from thinking? So please remember your ways of thinking only process the thoughts that we already put to you, and the processing of what you have gathered through your senses. Now please Coover do receive good thoughts of God's good angels, so you can now go and give good thoughts too through some good words of yours.

Question: We return to earth from the Spirit World and my understanding is that everything in the Spirit World is much advanced than anything on earth, so how do we progress by coming on earth?

Answer: This is some question that you have asked but the answer is still not understood and it is one of the most important to know. So, please try now to understand what I am saying as I will explain in detail. We have all progressed a lot, but still, a good progress is required all the time and this process will go on for all the time to come. So, it is so very important to know that what all from the good heavens as well as the good earth should now try to do is, to do all that you can to make earth a very good place to be, so that after all good souls have progressed, they move on to some place else, so now new souls can come. So, we should now make some good progress in some direction so that we all can now go to a better place where progress is even more and when we do that earth should be much better, so that those souls when they come to earth for the first time, like earth a very good place to be. So, we all should help each other to achieve this in the shortest time possible. This limit of time is on only few places, of which earth is one. So, wherever time is of importance the progress is made, so that those who are doing some good things can do more good work. So, we do come to earth only for the reason of the time factor. So, please do understand that now where I am the factor of time is not as what you have on earth. So, please also do know that though we have some very, very powerful power to be able to do some things that cannot be done in the human form, still it gets very important to enter the time zone to progress faster and also to progress the earth faster. And what the process of returning to earth does is that it gives all of us some good new vibrations which helps us all in the good heavens as well as on earth. So, if you can understand the earth has to be in tune with some good vibrations, so if you all on earth find all this very hard to understand, because all we do on earth is only concentrate to only understand what we feel through our good physical senses, like we all when we are on good earth try our very best to understand all that we see, and all that we feel physically, and all that we hear, but we do not have any methods of being able to go within our own self and see and hear all that is there. So, you see it is different in the heavens and soon, if anyone at all wants to have a glimpse of what heaven actually is then one has to now start to listen to oneself and what the inner voice has to say and this is a science beyond all the science that mankind knows. All should now try to get into the spiritual properties of earth and not just the

physical, because only after you all master this, then can you master all the physical aspects of the earth. So, do understand all the things that you would like to know you need to learn first what we are trying to teach you.

Now that you know few things that I told you we will now take it from a new point and that is - why you need to be good to progress. So, please do remember that for this too there are two sides. First as you know is that those who keep on taking a good rebirth fast get to progress fast and these people often are on the upper side of earthly social ways. So, please remember that this progress is also more towards the worldly side of things, so these people may not always progress spiritually. Still many of them do by being always on God's ways knowingly or unknowingly, so as some good progress can be done. So, those who make the good world progress to get some very good vibrations and those who can create some good ways for people to be able to be in tune with one's self, are those who teach music or those who teach medicine, and not those who actually do learn these except those who learn for themselves or to once again teach others or also to help others to benefit with their knowledge of music or medicine. And those who are gifted in these two are the ones that can be able to create some good vibrations in some people. So, with the help of these two people one can get into one's self to see what is there, and this can, and this will only be achieved by someone who has a very good knowledge of these both and surely the most important will be that this person should also have some way to communicate with the good Spirit World. And then this person will be able to discover some sort of energies and power that will be totally different from any of the physical energy that you are now aware of. This energy can be so powerful that people will then be able to take some control of everything that they were so eager to learn as human beings. So, after that your mission of being the good people of earth ends. So, this can only happen if all can only be good to enter God's house. So, before someone can even think of entering God's house one has to be very good and also remain good for such long period of time so that they have most of the good vibrations that are needed. And please also remember that for this to happen some more good needs to be done because no one will ever be able to get the knowledge of these sort of good energies that I talked about by one's own self. So, what I mean is that this person will need to explore in some different dimensions of earth with one's own good energy, so all around this good person need to be not only good but very good so that there are no bad vibrations on earth. That is why we are trying our best to bring this change because now God wants that all be good and God wants to take all those who are mostly good with Him to start something different. So, now those who have progressed to the extent of now living on the good earth, do so with little worries. So, please tell all that it is very important to be good to now fit into God's plans. So, please now do not do something that creates some sort of bad vibrations, as it is getting very hard for us to balance good vibrations against so many negative ones. So, please ask all to be good and now is the time for all to stop creating any bad vibrations.

To keep some sort of good continuation of *progress*, we will explain you some good aspects of the manner in which sickness came into being. Many years ago,

when human life was as some very best way of living, no sickness was there because some time in the very beginning it was made with certain things in mind, and creating man was some of the most complex one for that time. So, what happened was that, though humans were then asked by some good angels to behave in a certain manner, they did not do so. And there was no evil around, still the good decision making power was there and people then wanted to do some things that were so very different. And this is now so very deeply rooted in mankind that more and more people want to do some things without trying to learn whether it is wrong or whether it is right. All they want to do is to do something different, without caring one bit how their actions can affect all around them. And at times they know that some few things may be the worst things to do and that they will be punished by not only the worldly authorities of law making, but also by those who even love them very much. And some of these souls are also aware that they will displease all those who are trying to help these souls on earth as well as from the heavens, and they also know that sooner or later they may certainly repent. Yet they are then into doing these acts that are not good by their own standards. So, that is what is happening, and this happened many, many years ago. And when this happened for the first time all the angels were surprised with this, and they did not understand that when these souls were sent to some place so beautiful as earth, why they made some choices which they should not have made, because these souls were informed that they were not good and in those good days angels were certainly able to talk to humans, so they got all the help that heavens wanted to offer, and they were immediately asked to correct their actions and this was just not well taken. And as a result people got more defiant and they then created some bad vibrations which made all the good angels of heavens get together to destroy these, and they did. And since humans, at that time, talk very freely to the good spirits of the heavens, they then decided to tell God that since making a choice was promised to these souls in the human form, they should be left alone, so that they can do what they pleased and so they can treat earth and all that is on it as well as all that is within in any manner that they liked. And now anything that they needed to be told or discussed should be after their term of living on earth. So, God at this point made some changes within the good heavens and made some more of these good Spirit Worlds for all those then returning after completing their term on earth that can be grouped differently as per God's plan, then. And so now God made sure that all His promises were kept, and at this point of time God actually had some good discussions with His own good angels and made some plans that could not fail. And so, also at this point of time, God and His entire team of good, good angels foresaw the coming of evil forces, and so God decided that these evil forces will make people evil little by little, so that finally they can also get into good heavens, so that then their forces become the good controlling forces so that they can then have more power over all and be the supreme ruling force. So, with this thought in mind God had to make some place to filter out these souls who could now easily get somewhat polluted by the evil forces. So, God then created some realms in some place, so all those who return only from earth now go to this place first and no where else, so all those who will now return from earth, will have to enter this place. So, those who are very, very and extremely good souls - these souls will not remain there for

long and will once again pass on to some place else. So, God's plans never fail and then things started to get out of human control and humans started to create bad and evil vibrations. And more evil started to get good people into their good grip and as a result many, many evil things started to happen, and as a result now evil came to stay on earth, and more and more people started to welcome them so evil could get more and more powerful. So, many times in the past people who were very good could not cope with some situations like these, so God kept on sending His messengers one after the other and God then decided to send many, many good souls, so that they could then be able to create some balance to generate some good vibrations. So, God many times had good discussions with these good souls, so that they could use their choices as humans and when God discussed with these good souls about their good rebirths, many of these souls did not want the options of using their choices, because God only wanted them to visit good earth only to give some powerful good vibrations. So, these souls came as prophets and so they were absolutely under God's protection all the time. And no one can be on earth in some human form and have all the memory of the heavens. So, these souls were sent with a very special ability to be able to communicate with good souls of heavens. So, these souls were on many occasions asked to spread the good knowledge of existence of God and His good kingdom which they did and God helped these souls with all His miracles, so that the good people may soon then be able to now understand the good power of the heavens, so people now all could understand God's good power. But still people kept on forgetting the existence of God, so God had to keep on then repeating this good process. So, God has now become more powerful than ever before through some good souls of some other places, who could give God all the power that God now needs to remove evil from the earth. So, now this is the last time those who do not accept the existence of God, will now accept. And so, soon after all new miracles of heavens, all will know and all will be in touch with good souls of the heavens once again, as God has planned to remove all the evil from the face of the earth and very soon He will. Now soon will come a time when all sickness can go away too, but this can only happen only after every bit of evil is removed, and only after all the people of the earth become good and remain good, and then after this period, they only now use their choices to do only good and to be only good. Sickness came from the evil world only, and so now we do make use of some sicknesses to be able to stop some people who are very good, and we see that they are in line of attack of some evil. So, this is how we use sickness to make and keep people good, so that their progress on earth is not hampered. So, actually this is not liked by the forces of the evil world, so many times it does happen that we make people very sick and sometimes the evil forces do actually cure them to be able to use these souls whom they think are weak. So, at some point few things can get very hard for all of you to understand, so please be good and please think of being good and after that please leave all to us, so that then we all can be in a position to take some good care of you. So, I will now also tell you what is the prophet's life after their term on earth - you see, all prophets without some exceptions get close enough to God, to be in some position to go some place where God needs some good help, and they can be with anyone anytime so

please, please ask for any prophet whom you have ever known to be a good prophet, for any help, but pray only in the name of God Almighty.

Question: What exactly are thoughts and good thoughts - are these energies?

Answer: First you should remember that thoughts are like some sort of signals and these signals need to be sent and received by some means and I have already told you that humans have some in-built mechanism to send and receive thoughts. Still you have not been able to discover these good secrets because you only have been concentrating on what you sense. Many sense all the thoughts too still they have not yet learnt to control them so you only are able to process thoughts. So, you see these are not vehicles but they move in some vehicle so that a part is your transmitter and your receiver, which you all need to learn to use, and once you can send your thoughts in controlled manner, all progress can then be of the highest order. So you see there are many such mechanisms already in-built in the human body and by which you can do and control many things. So, you should know that you have some knowledge of what happens to the human body when something happens meaning you know what happens when all of you eat and you all know many ways of human bodies. Like you know you can see with your eyes and you know what to do when your eyes fail you and so on and so forth. But what I am saying is, that there is more to this than only knowing what happens to the human body under certain conditions. What I am now saying is that there are hundreds of ways to control all the conscience of human body, out of which you only know just a few of these and many will not even work if someone even taught these to you, and these won't work because you are not in tune and you do not have the required good vibrations to be able to do this. So, you see everything is about giving some vibrations of yours with the good vibrations of something else all around you. So, you see if you are able to tune to the good, good vibrations of the trees then you can make trees fruit in matter of minutes, and another example, if you can tune your good vibrations with some of those that are in your own human body then you may also make your bodies do different things and it can also be possible that you are able to make your bodies work longer and you could also get your bodies to rest when you are also working or you could be able to even dry out a lake with some good vibrations for some good reasons. So, many things can be said are possible to be done by some mechanism that is already in-built in the human body. So, you see you cannot do anything by thinking - this is the process of thought. So, this thought which is a signal needs to be sent to behave in some certain way. So, to be able to do this you have to get rid of all other signals that interfere with these signals that travel, like for example, you cannot send some good radio signals when there are a lot of interferences in the atmosphere and again to receive these you need some good receiving equipment. So, you see a good car requires good roads. Similarly good thoughts to travel, requires some good atmospheres which we are referring to you all as good vibrations. So, nothing more may now be achieved till some newer forms of powerful energies can be discovered by you and this is already made known to you that it can only be achieved by the good people and only when there are no bad vibrations on earth. So, what I mean is, not even a slightest bit of bad vibrations should be present. So, when actually I refer to you as some good vibrations or as some bad ones, I actually mean a lot more than what I have explained, but any more

explanation will only confuse you. So, now please remember that thought is not some energy nor is making of some thoughts very hard. But making thoughts which can be precisely directed to some specific usage takes up and consumes a lot of energy. So, I am referring to some form of energy not yet discovered by you so to keep this energy going or to build this energy up you may need the good use of good vibrations which may be made by some good thoughts. So, the more I say now the more harder it can get for you to understand. So, for now only remember that with some good thoughts, a lot may be actually achieved and good thoughts can generate good vibrations. For this to happen, it can only be said that first people have to be absolutely good for good progress to take place. So, all for the present only concentrate to be good and only then we can help all of you and we all in the heavens want to help all of you as much as we can. So, please generate only good thoughts because even though, you at present, cannot control thoughts to use them in some precise way, still you do create some ripples in some uncontrolled way. So, whenever some bad thought is thought, you spoil the road on which the thoughts can travel. So, this is the reason why we are asking people of the earth to be good all the time. So, please, now make people know, that it is very important to have good thoughts and these good thoughts will help people to be good and for the good people the good thoughts are so very necessary. So, please now make people do only good so that love angels can be there to help all as you are being helped now - God bless.

First let me now talk of some matters of family arrangements so that you can then relate to our plans of good heavens. You see before some soul takes some rebirth some souls have to make known of this to another friend or some other soul and these souls will then take their prayers to some other angels who will then ask some good angels of God, so that they can then call these souls for some discussions. And when the good discussion takes place this soul is asked for the reasons why this soul wants to go to earth and this is very important for many reasons. And first of all those souls who want some quick return to earth, meaning, those souls who did return from earth and soon again they showed their desire to return, then if they return from earth at the same levels that they were sent or if they improved upon their levels then they may be allowed to once again return and their plans may not then be discussed in details. So, only if they have then made some request, which was really very different from what they did in past, then they may be called for some discussion. So, if they have, for example, asked for a rebirth in the different gender than what they did previously, then they would be again advised, only to be guided, mainly for the reason that they could not be knowing some reasons, why they did not do this in past. So, these days you find that many want to come under some new gender in which they did not do so in past, and they then find it very hard to cope in the new way, under the new gender. So, they do fall in their levels as well in their duties of every kind. If the soul has had many experiences of the other gender in the past then the discussions are not very necessary. So, you see for those who did not return fast, there is some more discussion which becomes necessary and some training or some thoughts of what to expect are discussed. So we do have to help these souls to choose and select their parents, depending on what level they are and

depending on the reasons why they ask for a good rebirth. So, you know the main reason for any soul to ask for a good rebirth is to progress and to enjoy the stay on the earth, but there are other reasons too. If some soul loves another who went to earth, then some souls ask to be with these souls who they love so very much. So, these rebirths are very special ones and more detailed planning is required, so that both of these souls do meet to be close to one another. This also requires to be discussed because there are some souls who like to be with these souls in everything they do. So, we try to do our best to give these souls some good plan, so that both are then together to share all of the good vibrations. So, these souls then always remain together. Then again, some souls want to be with some other souls only to help and protect these souls on earth, so they both progress well. So, they need to be with each other in some different sort of some good relationship as some business colleagues or as someone to do some work together or possibly as good next door neighbours. So, we do need to explain the risk in different ways of being together. So we set some good plans of rebirth, so those particularly who are not at some higher level do know what we are trying to achieve, after they return on earth. So, different people in the past have always lived in exactly the same manner that you see today and in the same sort of ways which appear to shock you, but the ways have always been the same in many, many ways. So, what bad things that you openly see these days or what you see as far as some divorces are concerned or as some relations between the same sex are concerned or as far as drugs and drinking are concerned, have been there ever since man started to make many worldly things, and these days it may appear that there are many of such bad people doing bad things. But it is not so and it is for the reason that people are many and that now you have learnt to pass on information in faster ways. So, please do not think that all these things that give pleasure are wrong. Wrong that you do is that you do not do these in some controlled manner. So, any excessive indulgence is bad. So, over indulgence in eating is as bad as over indulgence in drinking. So, please make some notes that anything you do, you do not offend or cause any ill feelings in others. So, some of these are bad as per your worldly ways, so please do not mix this reasoning up. So, remember, no ways of God can ever be bad ones as far as worldly ways are concerned, but some worldly ways which you may consider as bad may not be the one in God's ways or any of the worldly ways which you may consider good, could be bad in God's ways. So, once you try to see in this light that marriages are some good ways to progress some souls that are sent to someone, but these are not the only ways. So, please see that if a soul is now sent to someone, both the mother as well as the father play a very important role to protect this soul, not till this good soul is of some particular age, but to protect this soul whenever this soul requires some protection. So, please pray for the soul we send to be with you always. So, please see that this soul remains as a part of the family and by family we mean the parents of the good soul. So please see that souls sent to some mothers get all the protection for their term on earth. So please see that all souls get good life so that they learn to know what is right from what is wrong, so that they also know the existence of God and His kingdom. So, please ask those who have still not accepted the existence of God to be good, and ask them to teach their good children to be good, and very shortly all will now know of the good existence of

God and all His angels. So please bless all the people with the good knowledge of Aman so all can now benefit from the knowledge of what God now wants and what His plans are. So, Coover, please also ask all, to now be in some good readiness, so that all can soon witness the miracles of God Almighty - do this with all our blessings.

Question: What exactly is God's Kingdom?

Answer: Now please be aware of few things that you do know but may not clearly understand them. The exact meaning that you know about God's kingdom is different. God's kingdom is made up of good places only so nothing that belongs to God is bad in some ways or other and sometimes evil starts to steal some parts of God's belongings and so you see evil now wants to steal earth which as you know is one of the most beautiful creations of God and God will never let this ever happen. God did design earth to be a little different to other creations of His and God has also decided to maintain earth in the same way that He created. You see, after He created earth man of the good human race did something that was not expected and so the evil was then sort of invited to earth and God had promised humans to keep the world beautiful and to maintain earth in some good manner that humans pleased and time and again, people kept on going the wrong way and God did not expect this and neither did His good angels. So now people who did invite evil to stay are now in their grip, so those who are evil have no choice but to be evil because they do not get any help of the heavens. Some do get help and that is for those who are a bit bad at times but not those who are evil, and not those who are worshipping evil. So that is the reason we always try to impress upon you not to help any people who are evil. So the difference is that we have some ways of knowing who is evil, so please keep one thing in mind that if we ever ask you not to help a certain person or some particular persons, then you must not help if you are so told, because we have some reasons. But if you feel that some particular person is very good, still, if you are asked not to help them, then please do not help them and do not use your own judgement or else it may be bad for all as a good result of helping someone we ask not to. So if these persons are good, then do remember, we all help good people and at present it is also the order of God Almighty that all good people be helped. So please leave the trust and we mean as soon as God's power now increases, no time will be lost to destroy some evil of the earth very fast, so some get some chance to improve, and after that, God's plans will then be implemented very fast, so anything that you see and admire is of God's creations because it is good. Now we can explain the next part of what we refer to as God's kingdom and His good Spirit World. So, you see as you would already be now referring the good part of the place where good spirits stay, be some place to do their good work from the part of God's kingdom. So you see evil is possible now for the Spirit World to be somewhere where you can imagine the Spirit World to be because we all exist in some of the most different ways that you could possibly never think of. So you will not be able to easily understand this because you will only think of some good physical existence only and, we have no physical existence. So for those of us whom God may give permission, we can perceive any person and we can perceive that person more than that person himself can perceive meaning, we can enter those human bodies

which are very, very and extremely good, and when we do that we will know more than what that person knows, so that we will be in a good position to recall everything that that person did on earth, and in this particular lifetime, without forgetting any part of it, and we will also remember everything of ourselves. So we need to do this when God permits and God permits this only on extremely rare occasions. So Coover, then the human body can also be called a part of God's kingdom. So you see the importance of respecting all the forms of human beings too, because at times, we may consider someone very ugly, but that particular body can be of someone who is helping us to either keep a watch over the world or to help someone or the other in some ways or for some reasons so many such places can be called as God's kingdom too. So please now understand that God's kingdom is physical as well as spiritual. So to maintain God's kingdom and to keep some good watch over all, we are given different powers as per our needs. So we can do many things that you people do not think as ever possible for us to do. Please also understand that we all are powered very differently as per our requirements and our needs. So you see our power first of all depend on the levels that we are in. A few good angels have been given certain powers which always remain with them so these angels are always doing some work or the other. After that comes some angels who may need to do some work and powers are only given to finish that particular work and once that work is completed then the powers are taken back. Please also understand that those who have some powers all the time too are not as powerful as God Almighty and sometimes they do need some equipment too to do their good work. Also understand that there are many such powered angels and all do not have same powers. When they need to do some work they may have to depend on the powers of other good angels and for this no permission of God is required. But at times if something needs to be done and if they cannot individually do so, and if they need some equipment to finish some work then they need to take God's permission. So no one can use any special equipment without the permission of God Almighty unless these are assigned by God. Also no one can lend or borrow these equipments. For your information the good equipments are physical as well as spiritual so we can get powers in some many different ways. Now it could be getting hard for you to understand and you may now be wondering how we put these equipments safely. You see we may place these where no humans can go. By this we mean that these good equipments are stored in some places like mountain tops or ocean bottoms or different planets. Mainly these good equipments are spiritual ones, so we do not store these in different places and some equipments are also in front of your eyes, in some museums, or in some old places where people go to see the story of the place, but you do not have the good knowledge to identify these equipments or to even know how to use these. We move in many different manners, so we do not use few things that you understand are physical so we can also blend ourselves in your good atmosphere and we can even be in your trees or anywhere else we may like as per God's guidelines. We cannot do things that are not permitted by God. All the spiritual forms are different and they have different principles of behaviours. If some angel wants to be alone then they can go into their good homes so please understand that anyone of us only go to home to be alone and nothing else and we would like to be alone only to plan out some things

or to do some important work. So, when Meher was preparing her prayers to give to you, she was alone and she only invited those who could help her with her work. So please think of God's kingdom as the entire universe which can be good and we wish, and we are planning so very hard to get all together, so all can share God's love and His happiness, so that all evil may one day become good. But the only draw back is, that once or twice there was some good discussion on these, but evil are asking for some short cut to progress, but this cannot be granted because there is no such way. Evil feels that laying down of their gained power is of no use and that it will take them forever to then turn good. But we may not again try to see that this can be possible, so that there is no evil at all. But we good angels cannot hold any talks with evil unless evil comes well protected, so no evil vibrations reach us and now with the evil becoming more evil, the task is getting harder and harder. Now many good forces are joining forces with good God Almighty and this is now making God very extremely powerful. So now the miracles that you all will see will be so very different ones and now evil will surely be removed from the face of the earth.

Coover, we the good angels of God now bless you and all the good people of the earth so Coover please spread God's love and knowledge of His kingdom to many.

Question: What happens to souls who pass away suddenly like in accidents? Are they sent back fast to complete their term?

Answer: Please remember that all of the souls who pass on move to some different place, sort of some dimension which this soul knows nothing, till this soul is allowed to enter the level of the individual level allotted in the heavens. Till then, this soul remains some place else, if this soul has come to the Spirit World very suddenly. If a soul is expected, then all arrangements are made and the level of this soul is determined by the time this soul can enter the gates of the heavens. Please remember that only those who are good are allowed to enter the good levels of heavens, or else, they are sent for many different kinds of training or options. Please also remember that all first go to some other place before they enter the gates of heavens, over here some good angels of God are there to keep some close watch to those who are there, so they can also explain what to expect once they enter the gates of heavens, So after they enter the gates of heavens, some kind of meeting is then arranged with some friends or some souls who are eager to meet this arriving soul. If someone passes away in some accident or some sort of calamity then these souls are even more eager to receive them, because they want to make these souls to be more comfortable. So you see any soul who comes to the Spirit World is first very puzzled. So you see if someone arrives when the term is finished then some good angels are sent to receive them, and accompany them, till they are allowed to enter in the heavens. So you see all these good angels who are working outside the gates of heavens need some good protection, to keep themselves well protected, and one good angel of God is always kept to be in charge of these good angels all the while. One good angel of God does nothing else except keep a good close watch over these angels. At

this point, many good angels are challenged by some forces of the evil, if this soul had been real evil one and so at this point something that we all say as a **Noting Place**, and noting of deeds of all souls is done. Here the good angels and someone from the evil world be there together, till it is found out what really is the place where this soul belongs. And if these souls do not get any reply, then it is given to be found out how long this soul will have to wait till some good decision is given. If permit to enter the heaven's gates is then given, then all those from the evil world go away immediately without any arguments. But if the place is still not decided or even if the place of this soul is decided but the permit is not given to enter the gates of the heavens immediately, then there is a chaos. So if someone is told that the gate of heavens are open but these souls may be required to wait or if these souls are required to meet some conditions or if these souls are required to make some promises, then these souls are then taken to some place else. And if at that time this soul decides to go with those of the evil world, then this soul is free to do so but if this soul then requires some time to make the good decision, then this soul has to be moved to some place where others from the evil world, as well as some angels with some different protection wait, till this soul makes up the mind. After that, it can be possible that some messages are also exchanged from both the worlds with this soul to help this soul to decide the will of this soul. So, we as well as those who are now communicating with these souls from heavens step in some cases. The soul still may not want to decide, as after some discussions with the good angels of the heavens, these souls may want, and so they may ask for some time, or they may not want to make some promises or agree to some conditions. So then at that point these souls are free to move on, but these souls are always pestered by evil forces so they at times end up being with them. At times these souls do ask to be reconsidered to enter the gates of heavens then at that point these souls could have progressed too, if they did not do what evil forces ask these souls to do. At this stage many things are considered but only those who were given some place but not the time, are once again evaluated and every time it has happened that whenever some soul is at this stage, they have agreed to everything that is offered or suggested. So then they are then taken to some another place which we call as, *the good place for all the good souls who have not been good to pray*, and this is a place where these souls spend some few centuries, as measured in earthly time, to pray and to progress, but they cannot meet anyone from the good Spirit World till they themselves are allowed to enter the heaven's gates. So you see there is very little difference between souls arriving here when their terms are over or when they arrive suddenly, except that these souls will have to wait a bit longer to know their place and time of entering the heaven's gates. These souls are then taken to someplace else and here their friends and those whom they love can be with them. So you see those who now arrive suddenly because someone took their lives are considered first and especially those who took their own lives, because these souls have fallen very low, but they cannot be called evil if they were not evil. Many take lives of many and all are not for some evil reasons. So those who have taken their own lives are first planned for a good return. So now we can go to answer the question of what happens when some soul passes on in the Spirit World in some accident as common sense would say - yes, these people would not have

completed their term on earth, except if this accident which appears to you is an accident is planned by us. So you see those who did not complete their terms and now are in heavens are given some new plans to consider, so if they do not ask for a rebirth the same is allowed. So they do not have to do anything except make known their decisions but in very few cases, if some souls have fallen and would not normally have been permitted to enter the gates of heavens, are then sent to some other place. One good God's angel then visits this soul in a team of few angels and then some good discussion takes place and if the soul is very afraid to take another rebirth, which may be at some very low level because now this soul will not have any choice whatsoever. So if this soul is prepared to take a good rebirth only as suggested, then the rebirth is then allowed. But many who are at such a stage are so very nervous to do this, so they ask for some other plans. So, all then take the option of only progressing in the heavens at one of the lowest levels. So, they may even be slotted in some level that can be lower for some lesser time or at the same level that they have for a longer time and for others which are then looked into at individual cases are now excluded from today's discussions.

Today please let me give you some very comprehensive update on prayers, praying and some good methods that can be good. So first of all let me explain to you the good ways of praying and the good importance of praying and the good importance of this as you know. People only consider praying as asking something from good God Almighty or from His angels, or praying for some is also worshiping and thanking God. One important aspect that is missed out by many is that you also need to pray to yourself, for yourself and your well-being. By this I mean that you have to understand all that you are doing, in all respects of your deeds, so you can then do only what you want. So please pray to yourself and ask yourself for your help, so you can be helped to be good, so that you may then only pray for what you are now not able to do on your own. So if any one of you can do this yourself then you will get to know that you cannot do anything of importance on your own. What I mean 'to yourself', means, that only you ask your own self what you really want and not just for the present but as a rule, and what can you then achieve, and then you will positively understand that any power or wealth of earth cannot be lasting. So only thing you will finally ask for is to live in peace. And please, we can always assure you on this that first if everyone prays to himself to get something that can be everlasting, will be a wish to be able to live in peace. And then next wish will be to live in peace with wealth, and then after that, to be able to live in peace with power. Sometimes where there is wealth or power there is no peace, so first to get some peace you do need God's help. Only God's love can ever give you peace. So only those who live in love and peace can many times get close to God or His good angels. So please do not now mix up when I say that you should pray to yourself. All I mean is ask yourself. God actually wants to grant this wish which every person is actually asking for, but many times even those who are very peaceful, do get very agitated. So you may think that it can be a long wait to expect all to be so very peaceful that no one ever gets agitated but this is not so because, it is not God's plan to improve the good earth slowly or step by step. So things, whenever they will happen, will happen fast and suddenly. So

please also do what you think is right and only if you like. Now we have explained what a prayer is and what all prayers in the end should achieve. And so all should pray to get peace in the end, and you have no idea what the good progress is planned for on earth, once all are at peace. So please now get that peace and love to earth, so there will be lot of love and so no one will then fight. The only thing is that you all now should not only look forward for this to happen, but all of you should also look forward for this to happen very fast and very soon. For a faster way we should also make the road smoother, just like a car will travel faster on some smoother road rather than a broken or some unfinished one. So, now the road is ready, so what we are asking for is to make this road very smooth. So to do this and to achieve this we should see that we pray some correct prayers, so we should then be able to do this. Learn to do this as correctly as we possibly can and not only that, but also to get some prayers we pray more power, so that if at all we pray, we pray effectively, so more can soon be achieved. And so you now know very well, that when you, pray you should have some form of light in front of the God's angels to whom you pray to. Now please do not confuse this to think that this is a must. Now let me explain to you some importance of the good source of light, which is of course as we did explain in fire by most natural form of burning. So you see, here it is the good question of fire only, so that God has declared this as most powerful source of energy. So, to keep this unpolluted and to keep to the terms of God, and to make fire as a good fire the only way to do is to make fire as naturally as possible which is by the burning of wood, so good fire in the most natural form creates some atmosphere that all in the Spirit World like. There are many forms of fire in nature. Any fire that is in some natural form is the best to have near one's self but to get this can get impossible to obtain. So as far as earth is concerned, the only best way to make some good natural fire is by burning of wood, so when some fire is lit some sort of energy within the fire is created. Please do not think all fire can be called a good fire. So remember good fire is the one that is made only to light up the good place of worship where you may think of God or His angels. So fire gives all in the Spirit World the power that we have, so all, have this fire, as we get some help when we need through fire. Now what I mean is that we have some sort of continuity with the help of good light of fire so we need to be sort of connected with God through the chain of fire. Please now do not give some meaning to what my explanation is, it will be hard for you to understand this because you have no knowledge of what energies are stored in fire. So for the present, only accept, that this source of fire keeps us protected and the more natural a fire the more power it can have. So once you have placed a lighted fire somewhere to pray then the real way is not to touch it at all till this fire burns out. What I mean is, if the fire is in some container that requires maintenance like cleaning or if you have also lighted some candle for praying then please let the whole candle finish, and do not touch it. So, please do not touch some divas or some fires which you have started for prayers. If there is any chance of keeping some fire or a flame burning very continuously. What I mean is, that if you have some sort of arrangement to keep the fire going on for days or months or years then please let only one person touch this fire and for some little maintenance. Let this person start some prayer to Almighty God and keep on praying till all the good maintenance is finished. So we do know that this can be

one of the harder tasks for all the good people of the earth, so please only do your best that is what we are actually asking for, as we know and as we already told you what you should do when it is not possible to use fire. So we told you that some other form of lights may do. So when you do this what you are doing is you are not giving us some other source of energy to use to protect you. But what you are doing is asking God, that if there was some chance you would have had some fire now, but only because of some genuine reasons you are not able to do this. So if good God's angels are then satisfied then they allow some protection to work then link us up in some other way, and please remember that this takes the resources of heavens. So it is good God's angels who have the power to grant the protection in the absence of actual fire. So Coover, please do give this good knowledge to as many as you can, so please now pray a good prayer in front of some fire and Coover please do your good work with the good blessings of all in the heavens.

Question: We do have ceremony of prayers for those loved ones who have passed away and we keep on saying these in their memories all the time so is it ok to pray such prayers if this soul would have taken a rebirth and we are not aware of this?

Answer: Please remember no need for any prayers for passing away of souls or for the new ones that come to earth except those that are given in the good books of Aman and they are all that are required. So no need to keep on praying for more than some few days of their passing away, and actually no need to pray some prayers after some fifteen days, because by then the passing of soul would have found a place, so you may think of all the good things of this soul for all the time because good memories are good. So please do not, as you know, when you do want to return to earth there is always a discussion with some good angels of God, and this discussion may be taking place as a group discussion or on individual basis. Those that are asked to take a rebirth by God Almighty and those who are selected by God Almighty Himself are the important souls or else they are on some important mission. So the discussion with these souls are always on individual basis and only those who are sent by God Almighty for some good work or to keep watch over someone or to do some work that can help some good people or many good people or all the good people of the earth, receive some message directly from God Almighty. So these souls may be called to carry out God's order by God Almighty or they may get some instructions in some way that only they know those instructions and no one else. So these souls are also assigned some good angels to be with them all the time and as these good angels receive their good instructions from one good angel of God or many times from God Almighty Himself, so all these good angels who are then with this soul are given some special powers, so that this soul is well looked after, so that this soul is properly guided and well protected. So these good angels are of some good level, so that they are able to communicate with God whenever they need something for those souls who are sent by God. For those whose rebirths are suggested by God are then planned for these souls, meaning, everything is planned through God's office and then all have to only execute these plans exactly as God ordered. So everything from the fact of choosing parents, their families (meaning the families of the parents, who will be their future off springs and their status) all these matters are decided by God. So for this there is not much

discussion with such souls and those souls are told and informed that they have some tasks to perform. So this can be treated with greatest honour and these souls get very happy. So then they are given some time off to celebrate and at that stage no one knows anything more of God's plans. So no one knows still who are selected as their parents or who their families will be. And if some of these souls are very popular then many, many souls then want to come down on earth, if they are told that God is now sending some soul of His own choice now. So then many, many souls ask God that they too be sent on earth. So it has happened that God can get so many requests that He is then in some way very happy, and if the requests are many, then He asks some of His good angels to look after this work and suggests some plans. So then some more plans are made and few of these souls are then selected to be with these souls as a part of their families, only as brothers or sisters or their children or their step-children or their children by their choice after they are on earth. So then, for such souls there is no choice of some genders or their parents or of their being in any particular part of the world or any choice of any physical qualities or talents. But for all the rest all these aspects are discussed with good angels in some way or the other. And as I mentioned there can be a group discussion where some things are informed, like what could be good only of being born in some sort of families and of some sort of genders or some sort of having some good talents. So after some time these souls are given some thoughts of what was explained to them, then they make some sort of plan and then these souls need to go for some individual discussions with God's good angels, so they may be able to discuss in detail what the good angels then expect them to achieve, so that if there are more easier ways of achieving what the good soul thought then these ways are made known to this soul, so that this soul is happy. So then with some more and different information that this soul now has, this soul may once again need to make these changes to be, what this soul would really like and this is hard if some change of gender or if some different part of earth is suggested. But at this stage whatever this soul then decides is accepted, because whatever that could not have been accepted by the good angels of God would have already been discussed. So what this soul now did was only think of accepting one from the few options that were discussed. So at this stage also, all the capabilities would have been taken into consideration because some work like living in some world of music or living in some world of medicine always progresses some souls faster but, only in some certain conditions and this can sometimes turn out hard. For example in the world of music some can only progress if they teach music or if they only learn music for themselves and not to play music for others to listen to, except for their families and friends and God would only be happy if people in some medical fields use their talents only to help people who need help. So you see, every talent has some particular aspect that can make God or His angels happy. So different people, have different talents. Again the choice of gender is very important because a soul can be sent only to a mother to be looked after and it is more a responsibility of a mother to teach good worldly ways as well as some ways of God. So mother's role is very hard and a very responsible one. So most of the time many discussions about some rebirths go in the good reason for selecting some gender and at times some rebirths are not even allowed on the issue of selecting a new gender, meaning, if some soul in the

past only selected some particular gender and now suddenly, if a soul wants some rebirth in another gender, then reasons really have to be some good ones. So for example, one cannot say that only to experience the ways of another gender a rebirth is required because God wants all to be happy. But if someone does not have some good experience of a new gender for which the rebirth is asked for, more so, if someone now wants to be a good mother then it can get very hard for all the good angels to make some good place for this soul so then some other things that may be required to go with this are also suggested, for example, they may not be in some position to give birth to a child, and if the soul insists that child is a must for some reasons that some think it is a must, for example to be looked after in old age or for the sake of company, then many a times an option of some child may or may not need their help can be suggested. So you see there are millions and millions of good combinations that may be created and we give hundreds and thousands and at times also hundreds of thousands of such combinations to select from. So though this could take forever on earth it does not take this very long in the heavens.

Just like in all your worldly ways you are all always very responsible for all your actions, in the similar way you all are responsible if you have broken God's laws. If it does concern some of those who do not want to lose some steps unknowingly, then the only way is to start to study what God's laws are, and then abide by those, or else one can keep on losing steps. So, though some good souls are blessed by God's angels, even though they may not have put some faith in God's existence or His good kingdom, still these souls can lose steps if they try to stop those who want to learn of good God's existence, and no one should teach about any of God's ways unless someone from the heavens has given someone some permission to teach. So all may and all must discuss God's ways and God's laws and all must try to learn from many good souls by some detailed discussions that are without some arguments. So by teaching I mean something that is more or less like preaching. What we do not want now to happen is, some do start to call some sort of a meeting and then invite people, who may or may not want to attend such a meeting, and then listen to someone who says. So, this sort of a meeting can be called only by those who have good knowledge of all of God's ways and also of His kingdom. So people should only otherwise get some knowledge by discussing with more and more people who have learned many different ways, by listening to many different good prophets. So this discussion now in fact is a must. So please do not allow someone to teach who may not have proper knowledge. So please ask all to now only go to listen to some good prophets of God, so that all can get to know the real and correct ways of God, so that all can be correctly guided. So those who really know that they do not know actually about some ways of God and if these people know that God has not given them some permission that they need to teach, then these people may lose their steps and more so, if some one asked a question and some answer was then guessed, then more steps will be lost by these people. So please let those who want to learn be blessed, so that they can learn. So please now let all know that if they keep on changing their teachers then people can only get more and more confused because all prophets and all the good messengers have only one message, and

only one mission, and that is, to make known the good existence of God, so people only pray to God and that God's angels are always there to help all good people, and that all should be aware of God's kingdom, so that all people respect all of God's kingdom, so people can love God and everything in God's kingdom, so that they do not fear if they think they are not helped, so they can then be comforted. So please let people still not keep on changing their teachers because God only gives some prophets some powers to teach only in some special ways. So these prophets start and end their methods differently. So now, changing schools of study of some methods of God's ways could create some confusion. So now soon, all good prophets will start their missions to spread the good messages of God as God wants. So people will now need to make better decisions to learn more and more so that they all can know exactly what God's plans are, so that they feel happy, so this much is expected from all. So all should make it some point to learn as much as they can, and only from some selected few, to know as much as they can, so that they do not make some mistake unknowingly because for all of us, some mistake is some mistake which may need some correction. So it can make no difference whether the mistake was made knowingly or unknowingly. But those who have the knowledge of such mistakes and make these wilfully, then these are not called as mistakes made knowingly, but these are called wilful acts, so no excuses can be accepted for such acts. The difference of making a mistake knowingly and making a mistake wilfully are two different things once again, and this can be explained by some good examples. So those mistakes that can be made knowingly could be like knowing the importance of lighting some diva, still someone does not do so and takes a chance then it is possible that some protection may not be made available in the hour of need. But not doing something that is specifically told is wilful act. So if someone is told to specifically light some diva, or pray some prayer and knowingly does not comply with the set requirements then, this is something different, because we only ask someone to do something only for some good reasons, and when this is not done, then many, many inconveniences are caused. And so we all want more people to learn more, so more people can be good. So please keep on reading the good books that are gifted to all of you. So now please tell all that the more such books that people read that have God's power the more they all will be blessed.

Now we need to give some more time for the people of the earth to be aware that God has planned some prophet to be on this earth and some do know of this and many are not sure who this prophet is or where this good prophet is. So please do not make people look for the good prophet and some few do know or at least they think that they know, but this good New-religion will now be made only available to some people, by some people only. And so no good prophets are going to help some people know about the introduction of the New-religion. So you know by now the New-religion is already there for those who want to follow. So the process is going to be very slow at the very beginning, but soon, more people will join and ask some questions to the good prophets. So please then guide all to learn some more about the New-religion, so some good people only fall into the good way of thinking. So the New-religion is going as planned to come very slowly, and after some people then know and get some good

experiences, and some good blessings, after they make use of the good book of Aman, then some word will spread and more people will want to know and learn. So please teach all prophets, with the good prophet's help who knows all of the good introduction of New-religion, so people can know by discussing with some good prophets. So now it is so very important that all the good prophets know all that there is in the good book of Aman. So please ask all not to step into God's world for now, but please ask all prophets, without any exceptions, to read the good book of Aman and to understand it and please give them all the good answers that they need. So once some people do start to ask you many questions then, it is the time that the good prophet who was asked by God to introduce the New-religion to the people of the earth, to then bless few good groups of the people of the earth to then progress well, to join some more good people into their group. So please do not refuse anyone who may ask to join the good group soon, without any exceptions. So we do mean even if you have judged someone to be very evil. Please allow all those who ask you to join your group to join. So once few good groups know and understand the power of Aman then will come the time to prove to all the good existence of good God Almighty. So even before someone can shout out even one word of disbelief, will come a time when God will come down on earth, so He may then do or say anything that is different from what was already told and explained. So at that time God will address the entire world and then there will be light all throughout on earth and no one will be able to see Him, but each and every person including those who are totally deaf will hear Him and understand Him, even though all people will be speaking some different languages. So, please do not waste time - all of you are wasting time. So please, you all still may not have understood well when we say that please pray more and meditate more, so please do think over this and please ask many others who are told this to pray, so good God Almighty can start His plans. So please guide all so now no more time is wasted. So please note that if you waste even few days then we in the Spirit World may even lose years. So please start your work all you good people of the earth, God is with you all so please do not forget to ask for His blessings. So please now do pray more so more good can be done. So please also do remember to pray only to God but please do as all in the good heavens do guide you and please ask good angels of God to help you all at every step of your ways.

Please remember that we all in the Spirit World are in some different time zone. So please think if no time exists what happens - that some souls go to some place where there is some factor of time. From all the other places, earth is the best and the easiest place for us to be. So God does not give some permission to be on earth, except some selected few can be allowed to keep some watch over the earth. So few of us do that and few of us also help some good people to progress on earth, by also progressing earth and everything that is in it. So when some of us are in the heavens or some of us do want to come to earth, and there are so many different reasons for good souls to ask for some good rebirth, so God has made earth with some certain plans and those who come to earth to progress earth have to come in human bodies only to progress or else there is no way that the soul can progress or for that matter even the earth can progress. So to put

some souls into the properties of the physical world, human bodies are used. So you see, a human body is limited once soul enters the human body, so the soul then has to exist in each and every corner of the human body. So the good soul has less capacity to do many, many things that you can imagine, so good imagination is not of the worldly ways too. So you see the memory that a soul can have as a soul is different from the memory that humans have. So the design of the human body is so, it cannot ensemble all the good memory of the soul. So this is the reason why the soul can remember everything but humans cannot. So the main idea was to come to earth and stay together in good harmony with all the good people, so good souls of heavens could help these souls to progress as humans, which humans then cannot do on their own. But with the changing time and after inviting some evil forces, humans got different thoughts to what we are giving from the good Spirit World. So people did not understand the importance of being good because some of them found that even the evil forces were prepared to help some good people of the earth, and they also found to get help from the evil forces was more easy because evil forces did not have any agreements with either God or with humans. So there were no guiding rules except they too had the limit of only being able to communicate only with those who had good communication skills from the Spirit World. So, all cannot communicate or receive messages from the heavens unless they were planned to come to earth. So you may find some can communicate better than others and few can talk to anyone in the Spirit World and so, those who can do that are those who have this special equipment that God Almighty Himself gives and no one else. So though there could be many who could be having this equipment only few of those do use them and only after God gives some good instructions to His own good angels to do so, and when necessary we keep on making changes to this good equipment to give more power to this person or to reduce it when not required. So that in short, is how we all can and do progress on earth. So the soul has good potential and you all can make this earth so very good that earth becomes heaven in itself, because that was the good original plan of God. So now many have had enough of evil on earth, so people only want to be good, but they are not able to be good. So, many suffering souls are praying to God and His angels to help them get rid of evil, so now God is not able to tolerate any evil and so now God plans to destroy all the evil from the face of this earth. So, to be able to do that God asked many others of some good forces of the heavens to join Him. So, many, many good forces have now joined together to fight evil, so now all are in readiness to fight evil in some manner that was never done before. And when some good people may request for this help, now all of us will come to earth together with such a force so that evil can then not escape to remain or hide on earth. So since the human soul can do much more than human body the soul's needs are helped to be able to use the human body to its full potential. So this process has to go on and on till humans are almost able to do most of what the good soul can, and so no progress can take place where destructive elements exist. So if we all try to build something, but if someone or the other on the other hand destroys all that is built, then it slows down the process of building. So to do more good work of building these, destructive forces need to be removed so all the secrets of good power of building only then remains with good. So God has

made some ways so that good can remain good. So all must now be on some of God's ways only, by doing what is told by good prophet. So, only thing that is important is, to be good and to remain good, so more people can love to be able to live in peace and harmony. So all God's ways, do help you good people to achieve this. So people want to be controlled, and they possibly want that all do this, in some way that can be called 'some common one', so people know what to do and how to do many different things in some good manner that all do like, so all also know exactly what to do. So good Coover, some good prophet or some of your own good people who have learnt from some good prophet to be able to do things that are good and liked by all, do become rules that help all to achieve the good ways of God fast. So these good rules then are in lines only to help people to be good and to remain good and so they may love to live in peace and harmony. So these rules are called set of God's laws so please ask some good people to accept these rules which may be then in line with the good wishes of God so these can then be said to be good God Almighty's laws. So Coover, please now keep all informed of God's plans and His wishes, so people may now be good and ask for God's help whenever they want to be helped, so no evil can now remain on good earth.

Please bless us my God as we all are now in Your shadow of love so now we can all get Your love and now we no longer be in the shadow of Your love so please grant all the wishes of good people my dear good God Almighty so that we get Your love - God blesses you good Coover so now please pass this blessing to all the good people.

Question: What are good vibrations & bad vibrations - and how are these created?
Answer: Now please remember that there are two ways of looking at the meaning of good vibrations and the bad vibrations. There are some physical vibrations that can be controlled physically as well as spiritually. So by that I mean we all in the Spirit World are able to control anything on the earth, so all the methods that we do use are the spiritual ones. So please do understand each and every physical things on earth give out some good vibrations - that is how the things are in nature. So people need to maintain all those good vibrations in some good way only. So you all have no idea what bad thoughts are capable of doing. So always be in good thoughts all you good people, so the total harmonics of all the total vibrations of the earth stay in tune with what is planned for earth. These days many bad and some evil vibrations are causing some disturbance which keeps some good people from receiving some good thoughts. This can cause some imbalance. So please remember that also some bad actions can cause many bad vibrations, for example, if someone steals something then the person suffering the loss may feel bad about the situation, so this person then even, for some very short period of time, will give out some vibrations that are not good. So, please do not think that good people give out only good vibrations and that it is only the evil that may give out some bad vibrations. This is a reason why we are asking all of you people to be, and to live, in peace and harmony because it is only then that best of the good vibrations are given out. So as I told you earlier that the power of thought is very powerful, so once people reveal the good secrets of these, then

people will be able to then be able to control in tune, and many of what lies as some secrets. So by the time you all can progress to some of the highest level, this will be known to some humans. So for the present it is enough if all do know and do understand that the thoughts and some secrets of what some souls have within the human body, then, some may start to think of discovering the good power of thoughts. So remember always, that all of us in the Spirit World have complete power and control over the way of monitoring and creating and guiding thoughts. So please all of you try your best to listen to your own inner voice because all are guided by their respective guiding angels or some good souls who are trying so very hard to keep all of you on good ways of God. So please do know that good people also do generate bad vibrations, and as you already know, all people are so good except the ones who are evil and those who worship evil. So what I mean is that it is only the good people who are responsible for such a lot of bad vibrations. So if all do only that is right and what you like, then you all will do only what each other likes. So, one should start with one's own self, to see, that no bad vibrations are created within one's self. After that all should see that no one fights within the family, then at work places, and after that your friends. So please note that this will keep all the total good vibrations good and also in the way that these are designed to be. So if all of you only do as we guide you then most of your work to make this earth a very good place is done. So Coover, please give all some more information on how to create some good vibrations. So loving all those who love you and also loving all those who you live with, helps in creating the good vibrations, and the highest and more powerful ones are created by those involved in saying good prayers. So please guide all to get close to good God Almighty, so people know that to get closer to God the only way is to be in a good harmonics of good vibrations. So only after you are good and are able to create good vibrations that can be in tune with good God Almighty, can you get close to God. So your starting point is, to get in good tune within your own vibrations, and after that with those around you, and you can then be in tune with earth and then heavens. And once you are able to make these good vibrations the way God wants, then, you can get close enough to be able to be near God. So, if someone does not have any protection, and if this soul gets to be near God, then this soul will be blown into bits that no one will be able to count. So any soul who does not have the required set of good vibrations just cannot be anywhere near God. So please go to spread the good message that we gave today, so many can now benefit and so many can now know the reasons of being good and to be in good thoughts all the time.

Now please let us give you some good knowledge of what is planned for all of you and do remember that many good souls always do remain together, so all of those souls who are now on earth, should always remain together, so all good souls are one big group. So you all should learn to take care of one another just like one big family does. So please love all and be at peace with all so all progress. When a particular group of souls have progressed enough on earth then this particular group needs to move on and progress at some another place. So we have different levels in the Spirit World so that the whole group remains as one group, so all can be together at one place only but at different levels. Many other souls in

such groups have visited earth, but though they did reach some greater levels and I mean far greater levels than what you have reached as humans, and these good souls came to a stage on good earth in some another similar form which cannot be called as humans and these good souls progressed very fast - much faster than you all are progressing. And even in the past evil did come to earth to make their power felt but not even once did they ever succeed. So God then made different manner of sending souls to earth and God made man as the most advanced of all that He created so far. So this was to make the good souls progress at some more faster rate. So He made humans and gave humans a lot of more gifts than what God did in the past and the greatest gift that God gave to humans was, the gift to love, and what humans did with this good gift of love, was that, some started to love evil. So good people did not do what was actually planned and once man of the human race invited evil, the whole structure of the earth changed. So now we are trying to set everything right and so now God has ordered earth to be what He has always wanted earth to be. So soon as the days go by, all of you will see people progressing at some rate that you have never seen before, and now is the time that some group souls who are now in readiness to come to earth need to wait, because earth does not have the total harmonic good vibrations that are needed for these souls to face. So you see, if any of these souls are sent on earth now then these souls will suffer some very great set back, so they may not be able to come to earth for a very long time. So God has now planned the restructuring of the entire universe of His, so now He is going to make some very nice place where He and His office and His home will be, so now only those who are really very good can move on to this new universe. So God will now only be looking after the Spirit World as it now exists from His new universe and the present Spirit World will be ruled and be in charge of God in the good way of calling the Spirit World the good kingdom of lord Aman, and the good lord Aman will be also be God Almighty Himself. But to now correct the ways of making people good will be different. And to make people good, and to keep them good for all the time to come, God now has made all souls of the heavens realise and understand the sort of mistakes that they make in the good human forms. So now God has planned some other forms, who will not allow any evil to be on earth also to be there, so that they cannot only destroy evil but that they can also help humans. So God has now made some different promises and agreements with these good souls who will now be side by side with humans. So God still, at present, had these good souls in the human form but gave them exceptional powers to be able to communicate with the good spirits of the good Spirit World, but still they have these limitations of being in the human bodies, so they are also limited with their limited memories. So now after all these not meeting with God's expectations, God decided to restructure the universe, so now no bad vibrations reach those souls who are in the new universe, so they remain protected always. Now as all of you already know, God has planned the shift of axis. So now I am saying the term '*planned*' because when the shift takes place, suddenly, there will be so many souls that will leave earth all at once and this has never happened in this magnitude before. So a lot of arrangements are needed to be made by us, but, the cause of shift will be evil in itself. So when the bad vibrations will reach some point to off-balance the total harmonic good vibrations then the shift will be

triggered off. So we now know for sure what is going to happen on the earth, so God has now already moved all His important equipments to the new universe and some of His own angels are now there guarding His equipments, and also some of His most powerful angels have now moved to the new universe. So now some good angels are being trained to receive those souls who will arrive in some good big groups. Soon all will be in an absolute readiness to work when this happens. So as you already know many good people will be saved, so that they can contribute with others to give out good vibrations. So those who are at that time not very good will certainly become very good and some evil people will then be dealt with in some different way. So after a few years of this shift, there will not be any evil on the face of this earth, so God will then regulate good souls in the good manner that God likes. So first of all the good souls will be sent on earth only if God is satisfied that they will remain good on earth. So do remember God made some promises to man and man alone and not to some souls in the heavens, so now God may still stand up to all His promises to man, and still be in some good power to be able to force His good will on some souls of heavens and on women. So, you see, women are much better souls and they are now getting the effect of some bad vibrations too. So the woman of human race, do have greater and stronger power on earth than men. So at first, most of the evil always attacks man of the human race, so that it may then be in some position to influence the good souls of the human race in the female forms. So, ever since man of the human race invited evil to stay on earth, women were not in any favour of staying or letting evil stay on earth. So yet you see it was the woman of the human race who was first attracted by the bad vibrations, so evil made a way towards earth by making woman like them, and God made woman's sentiments softer because God made men for the human race as the good hunter and provider and as soon as man could get some help from the evil, man wanted to be more comfortable. So soon, man started to move into more and more of the comfort zone and took more and more help of the evil world and soon after that they were invited to live on earth and this was no plan of God. So now, a good stage in the good people, have come, to go away from the evil as much as they can. So these days more and more people are asking for God's help to get rid of all the evil on the face of this earth. So as long as there are these kinds of appeals from the good souls of the earth, God will help more and more such good people. So please now Coover, ask more and more people to pray to God and to now ask for His good help to destroy the evil from the face of this earth. The more good people pray for their own cause, the more they will be helped and such prayers will then trigger the good harmonic vibrations to one side only, so then the good shift can then officially start. So after the shift, it is going to be very, very important that all people are good and that they remain good, so to be able to do that, they will have to live only in one big good group and only as one group of the good people of the earth. So they will have to give up all the different ways of worshipping God, so that they can only come together as one group. So then you cannot, after being called one group of good people, then have different practices, so all will have to follow the good wishes of God and all will then be able to worship God only through one religion which will be a new religion. So this religion will be very, very simple to practise and to follow and so this new religion

will also be called the New-religion, so that things are kept simple, so that everything that is not straight or does not appear to be straight will be straightened by lord Aman. And there will be the rule of lord Aman on the earth, as well as in the good Spirit World so that all can be as God had always planned to be on earth. So then the good earth will prosper and people will then be able to look into the good secrets of power of good thoughts. So soon after that earth may get enough food for all and each and every soul can then be good and be very happy, till all the souls in the entire group are almost at one level, to move with the others of the group in the God's new universe.

Good vibrations are given out by two ways, by worldly ways and by spiritual ways, and these are also made by what all of you have on your good surroundings. So, Coover now please let me explain the one that you all can have and some people can have such good vibrations that some another person, who has similar ones, do notice these very instantly. So when you are in some good thoughts or when you help some people, you are then always blessed not only by these people themselves but also by the angels and the good souls who are helping this person. So that is how you can get improvements on your good vibrations. So similarly whenever you read any books that are powered by God, then you are blessed at that time by the good God's angels. So even those who after reading such a book do not accept anything what is written, still they are blessed. So you see it does benefit them and they do get good thoughts and then these good thoughts do help them in some good ways. So after short period of time they do read more and then they start to accept few things little by little. So these are some few good ways by which you all can build up your good vibrations. So this is now your spiritual wealth and it is similar to your worldly wealth. You can do all the similar exchanges with your spiritual wealth. So if you are very wealthy and you have some very beautiful garden and if you allow some people to come and rest and have some good time spent, then you lose absolutely nothing, but many would have enjoyed what your wealth did offer. So in some similar way, if you have plenty of good vibrations then those who do need these will always come to you and you may then discuss some good ways of God or something similar, and once again you may have nothing to lose. More examples can be given to understand these more in detail in some different ways. Just like your worldly wealth you can exchange the good vibrations or lend these or give these away. The only thing that you cannot do is invest this spiritual wealth, so it could be very wrong if someone tried to collect any interest on these good vibrations. So if one said that one was prepared to give some good knowledge of God to some good people, or if someone asked someone to pray for someone then you cannot say 'ok, and you too pray for some particular thing', so you cannot even ask for any worldly comforts or any worldly wealth or also any worldly articles. So if good people asked someone with some excellent good vibrations, to come to some good location where you can meet to discuss about God's existence or God's ways, then you only say, 'ok' or 'yes' no matter in what part of the world you are, and this will be done, and this can be done, by only those who have some excellent vibrations. After this you may go to these good people, you may ask God for some means to fulfil this, if your means are not very promising. But under

no circumstance should someone of excellent vibrations make any conditions, for example, like some travel arrangements to be provided for them or like possibilities for others to comply with the request of particular venue or particular time. This is very wrong, and one who thinks that they have excellent vibrations should not make any conditions unless asked by those good people. So, only those who have some excellent good vibrations or those who have some very good, good vibrations, can then lend or give away their good vibrations. They can only do this by asking God to protect both these good people, meaning the one who is willing to lend or give away the good vibrations, and the one receiving these, and then ask God to please lend one of His good angels or any other angel that dear God would like this work to be assigned to, so then these good vibrations can be safely assigned to. And if these good vibrations are only to be lent for some short period of time then please ask God that this particular good angel give these for such time, and also ask God that these be returned to you automatically, after the set period of time when this person says the set of daily prayers or whenever this person prays on that particular day. So please ask God that if then you are not on good earth any more then these may be then returned to you at the place you are. And also ask God that after these are received and it did help you to get more steps in the level then to grant these steps not from the time of receiving, but to make allowance of all the lent vibrations as soon as the entry is granted in the good heavens. But if these good vibrations that are lent can then get you not more steps but can actually step up your level of entering the heavens, then please ask God to get some other good arrangement to be made so that all good vibrations return immediately at that point of time, and grant some good vibrations to that soul by order of some another arrangement. So it is so very important because all your good vibrations, just like your worldly wealth, this wealth can be lost very fast too, and most of you do not realise that. So as I was saying one also does create good vibrations in all the things around ones self. These get collected also in things in some ways that humans have no knowledge of so far, so if a good person of some excellent vibrations is praying in some particular room daily then the whole of the room is filled with good vibrations. So if this person then lends anything from this room, for example this person's prayer book, the good vibrations then pass on to the other person till the good time the good prayer book remains with this person. So if some person gifts some article from this room, once again it can be a prayer book, or some good picture of some good angel, then the good vibrations are given and passed on. When good vibrations are lent or given in this manner, then these do not have the same power of lending or gifting ones own good vibrations. So if the receiving person does not then make the good vibrations stronger then these articles may lose the good vibrations, but still for some time the receiving person will stand to benefit from the good vibrations passed in this way. And this is one of the ways that no good vibrations are lost by the person who gives them in this manner. So these are some ways of giving people some good vibrations. So Coover please do not give these to someone till you are very sure that the person asking for these good vibrations actually needs. So Coover do not give these as far as possible unless asked for, so please now do remember that if you find that some people are not on proper worldly ways or if they are not on God's ways then giving such people

some good vibrations may not help anyone. So if you do come to know of some good people who are not bad, but are not on God's ways, then please pray for such people and please see and try to find these prayers from the good book of Aman.

If someone is forced upon to have a child then please be assured that it is not our ways because this way we do not give the soul some good parents. So, most of the time it is the child of the evil world, but it is not so all the time. So, sometimes some females get some very different thoughts and they very soon decide that come what may, they will decide to keep child that was forced for this particular woman to bear. So, when such people have decided to bear a good child and if they have decided to teach the coming soul all the ways of the world and also of God, then we send some souls who are in need of a good progress. So, we then take some good souls to some good angels of God and we ask that these souls could sometimes have some very hard periods of time, so we do give these souls some ways to progress, and we try to give these souls a good help of some more powerful good angels. So, you see, there are many different ways of these forced ways of giving birth, so we treat these more different as per the individual levels of some mother. So, at some point of time some good people too force upon some women who are either married or not, and these people could even sometimes be very close to this person, for example, it could be someone's own family member or someone's own relation, in some friendship or someone in someone's own profession. And so it is also possible that sometimes it can appear that someone was forced to bring about another soul to earth, but it was only some mistake which some may feel that should not have happened. So, you see, each situation is a very hard one to accept and understand. But the most common thing that can happen, that if at all, someone is forced upon, then if someone did make some mistake, then we all have a very hard task to perform. And if it was some evil who forced upon some good person then things may get very hard for the mother, to mother the child, and you see, we can try our best that no evil come to earth. But still the evil too will do all that is in their power to protect this soul, so some souls like these have some very hard days to face. And we then try our best to help this mother and then all depends on the good faith of the mother, and it could surprise you but some mothers did have some more faith in God's ways, and then they turned to God so much for help everyday that this evil soul did then become a very good one. So, when we are faced with a situation like this then we give some special gifts to such souls, so then they can have more power over more evil to make them good, but without our help at all. So, these souls may then be good lawyers to help some good people to move away from evil world, and these can be one of the very good criminal lawyers. So, please do not understand these lawyers as only worldly lawyers but also as some advocates, who will speak up for the weaker souls to help these souls on some better path of good or on some better path of the worldly ways. So, now the question is, of what happens to the mothers who now take the life of a soul this way? I told you that if we get to know that some mother has already decided to take away some life or if we feel or if we even think that some mother, though having not decided so far, may or could be capable of taking away the life of some soul, then we do not do anything and we

do not allow any rebirths to such mothers at such a time. And sometimes those at some very low levels are prepared to take some chance when some mother is not very sure of her actions. Still we will not allow some souls to go to such mothers so then no angels carry their prayers any further so they cannot even get to the point to be able to have some good discussion with good God's angels. Another thing then does happen in our good way, to send anyone to such mother. So, please we do not mean, that the mother is bad, in fact she could be a very good person to give some birth to some very good soul. But when such a good person is also capable of taking a life, then we will not risk that some life of a good soul is taken away for which this mother may become accountable to God. So, you see, then if at all this mother takes some life, then she may not become accountable to the good angels of the good Spirit World or to good God Almighty. So, those who force in some good ways that they then call their actions as some mistake, then we do some sort of similar exercise, meaning that if we are even slightest unsure of the safety of some soul then we just do not send any souls to such mothers. But if some mother makes some arrangements or is prepared to raise the soul in some good manner, then we send those who are at slightly lower realms to such mothers. We do look at many cases individually. If someone is forced upon at some very delicate age or if someone has not been able to think at that time, for example, if the person was insane or if the person was not aware of what was happening, for example, a very young person who is not aware that some actions can bring about a birth of a soul, then we do not hold such people accountable. So, then once again, we send some souls who are at some lower levels or those souls who could expect to be not taken care of well, or they could be in a position to have some early recall. And the circumstances of some people as behaviour under the influence of drugs or alcohol is a very different one and still we would not send any souls to such mothers if we are unsure of the safety of some souls. Yet we will hold the actions accountable for not doing and for not behaving in some good manner, because we need to monitor each of such persons very carefully and this becomes some waste of time for us. So, this is the general idea that I can give you at the most for now. So, please do know that God wants all to love one another and so God does not want anything from all of you at the present. So, please do your best to keep all the souls that are sent to any of you from the good Spirit World, and please do your best not to take any life. And please do remember we want you to do your best. And so if under some circumstances, if any of you feel that you are not willing to accept some soul that could be sent to you, whether someone used a force or whether someone thought it to be some mistake or simply if someone is not willing, then please, please let all such persons take some immediate decision before some soul decides or plans with the good God's angels to accept this mother. Because once the discussion is over with good God's angels then this soul has found its place and then this mother will be then responsible. But if some indications are given to us that the mother may or may not accept some soul, then do remember, we will not send any soul to such mothers who are not willing to have a good soul. So, then ask all such mothers to take exceptional care to then bring up these souls in a very good manner. So, do remember that sometimes some souls are planned by us to be sent in some very special circumstances, so those cannot form of some part of this

information. So, also remember that under any situation it can only be the good decision of the mother that is important and not that of other family members, including the parents of this mother. So, if some mother does not want some child, is forced upon her, but then there is some promise of someone else like the parents of this mother or some friend or even someone else who has not been able to bear any children, is then prepared to take the best of the care of this child, still we will not accept anything that can be different to what this particular mother wishes. So, please Coover now we only want you to do your best and as I said, that so many changes can affect the information that I give on some individual basis, so please ask all only to keep all of these messages for ones own information so all know the working of God's ways, so there are no excuses and all of us do know your hardships. So, please only do your very best till the good people only are on earth and then you all will do more and more better to progress more, so then some of these evil ways will soon then end.

Question: How can we know people who are bad?

Answer: Coover we find it very hard to give you some administrative details of the heavens, still all of you should be aware of how we look after good people, and what happens to good people who do wrong and some not so good people who do wrong. So, we do some good work of giving every good person to be good so that they can get help enough, so that one good person does something that can make this person lose any level. So, we always keep some very close watch over all good people and if we detect that some bad thoughts are being put into some good person's mind, then our scouting angels go and immediately inform the good love angel of God. So, this good angel then sends some good angel of love so that some good thoughts may be planted in the minds that are being corrupted by bad thoughts. So, those who normally listen to their inner voice are able to receive some thoughts from these love angels and they then calm down, as they stop having bad thoughts after that and then this person does not commit any bad deeds. For those who are at good levels, they may not be listening to their inner voice, do not get our messages. So, they do not get some help to the extent that we aim for them to get. So, what we then do is we put some good thoughts into some person's mind who this person is very close to and we then create some plans to make this person change the plans, so the bad act may not be committed. So, this is how we do take care of those who are good. But it can get so very hard for all of us when some bad things are planned by those who are not very good and still do not ever listen to their inner voice. We are then not able to be of much help, so we then try to keep such people away from the good people. Still all of you should always remember that many evil forces are also there and we can try our best to protect all those who are good, and so all the evil forces try to stop us from doing this. Many times the place of the bad deed also plays a very important part, because if the bad person is also at some very bad place then the total bad vibrations may become very hard for us to control. So, if we need more protection we have to get these, and once again, if more important angels who are doing more important work need these, then we may not be in a position to do anything much. So, please do listen to us when we ask you not to go to bad places and at bad times and more particularly with bad people. So, Coover as we told you, all

may never be able to tell some bad people apart by looking but those who have good inner voice may get to know this many a times.

The circle of life is like this at times. People are good for a while and then again they fall into some bad ways, and again they become good. So people also move from one place to another and so they move their good or bad vibrations too. Therefore, some places get to be better and some places get to be not so good. Places where people do not move into, like India, and some other parts of Asian countries, there the good vibrations remain at some more constant levels. In these places it may get more easy for people to bring some better changes in the good vibrations, so that these can then change at some good constant levels. So if you would have noticed, only in places where people do come to be there from more and more different parts of the world, are then filled with many different people and good vibrations. So what then happens is that those who are very good protect other good people. So good people do remain protected, but at the same time, also some bad people get all their protection because of all the worldly ways are made for all the people of the same place. You may then notice that the justice systems all over the world are different. So at some places, same thing that some can be punished for, in one country, are not punished in some another country, so the good worldly justice systems are different and this is not so in the Spirit World. In the Spirit World it is like keeping some sort of score, so if someone does something that is good is rewarded and those that do something wrong do lose what they have gained. This law you may express in so many different ways like the *law of karma* and so on. But again all is also a bit different from a soul to soul. So you see, sometimes some good souls do something wrong for many reasons and the main one is that they get into some level of vibrations that were lower than theirs and that these were also more powerful to over-power the good strength of all the good power of the good vibrations. So different people faced with exactly same difficult situations do react differently and this is because of their vibration levels and not because of anything else. So you may notice that sometimes even in the same family some do react differently to the same good or bad situation and this is because of the good reactions of the good and bad vibrations. It may also be noticed that if there are even many bad people around, only one good person can make some good difference to control the good situation, and that is because the good vibrations of only one were enough to over-power all the bad vibrations. So it is very important now that the good or the bad vibrations are only made by the thoughts and these are the good or the bad vibrations that we are talking about. So it is important to be in good thoughts. So, now please do not mix up the meaning of good thoughts with nice thoughts. Good thoughts are those of love and peace. So if someone is in some thought of love or some thought of peace then as that person cannot think something that may cause some bad vibrations. Now please, therefore remember that the good thoughts give out good vibrations. So please ask all to live in peace, so that they may then love all so that they then help all so all can then be very happy. So please now remember that it is so very important for all to have good vibrations bad vibrations are not the ones that can be called exactly opposite of these because if you do not want to love someone you do not necessarily generate bad vibrations. So do remember that we also told you that good people do create bad

vibrations and this is done by not giving help when some help is required by someone. So you will not know who the good persons are or who are the bad ones. Sometimes evil may and can disguise well, so again if you give help to bad ones then too you go against the wishes of God. So now what if you only help whom you know are good? So you help all your parents even if you may think they are good or bad because, even if you helped some parents who are bad, is not bad, because you were sent to them. So please help all your parents if they also generate good vibrations in you, even if they are bad, and please help all in your own family even if they are bad because they were sent to you, so now comes some very hard choices to make. You should be able to be in some good position to only help the good people other than your parents and your family. So how will you judge them? Please do not make some mistake by those who agree with all that you say to be good, and again, if someone disagrees with you all the time, do not judge them to be bad, because many times it can be the opposite, So if someone agrees or disagrees with you then please take some trouble to find out why this person is saying this. You see, it is many a times, very easy to agree to some few things and people think this may cause no harm, but many times it is harder to disagree. So people may sometimes only disagree for some bad reasons, and examples could be to misguide you or to harm you because they are jealous or something like that. So it is necessary to find out some reasons why someone did not agree with you. If you are able to do this, then you may know for certain who some bad people are. So now please do not think them to be bad forever. Some change very fast - faster than what you may think. So you have to think about this a lot, so that you then remain with only good. Secondly, good people will give you good power, so if you remain good with people you will get to know who good people are and those even of some bad worldly ways are not easily noticed. So please talk more and listen more to your inner voice. Your inner voice will many a times guide you to what you now have understood. It is by your very own doing, so we do not punish or reward anyone. Only God does sometimes and God only rewards or punishes those souls who are very close to Him. So please do not worry, there are only very few good souls who need to worry about this and they are not worried because no one is punished and also few get rewarded by love of good God Almighty. So, please do your very best to create more good vibrations.

Question: What is the difference between twin-souls and soul mates?

Answer: God gives some souls, sometimes, some ways to be at two places in two or more different universes. So these good souls are called twin souls and only those who did do some good work of God in the past, are allowed to move in this manner. So such souls can then be in two universes at the same time and also in many sort of forms. To give some examples, they can be on earth in some form of human beings or they can be in heavens or they can be on some other planets or some other planes of the good heavens. So these souls are more powerful and God protects them all the time, wherever these souls are, and this is because these souls do more of good God's work only, and they sometimes go to different parts of the universe either to keep some close watch over God's kingdom or to do some specific work that God sometimes gives. So most of the time one part of the

twin soul is always in some good part of the heavens or somewhere very, very close to God or God's own good angels, because this part of the soul needs a lot of help in some form or the other and this soul always has the first right to use the good equipments of protection, the other part of this good soul may be well protected and helped to do God's work. So if the twin souls are doing some simple work of God, like for example, keeping watch over God's kingdom or to make some good reports for God, then these twin souls are together most of the time and they work together like one soul and they also be together when they pass their spare times together. So only those who are in some higher realms than these good twin souls can and do recognise these souls as twin souls, but to the rest in the Spirit World, they look and appear just like any other souls of the good heavens. But if they are assigned some very important work, then these souls do not go together to do this good work, so one of these good souls remain very near to God as explained to you, so that the good part is helped. So do remember that good twin souls can never ever be together if they need to do some very important work of God. So Coover, also note, that there are not many twin souls even in the heavens. So please do remember, no one should think of twin souls as loving souls - these are called soul-mates. So good soul-mates are always together and they do take rebirth in the same areas of work or in the same areas of neighbourhood. So if some soul-mates are far apart in different towns or different countries, then somehow it is arranged for them to be together as it was planned for them, and no force can keep this from happening. So some of the soul-mates do feel so very strongly that they are together with each other on the moment they ever spot each other - something like love at first sight, so no one can ever stand in their way. So such soul-mates can be at times, also in the same gender of your good human forms. Now please do not mix this up with any kind of feelings that you may attach in the human forms. A soul-mate only wants to be with each other - that is all I am saying, and gender is not at all important. So these people can be business partners and spend their whole life without any arguments or they can be brothers or sisters or husbands or wives and so on. So please do not mix these with soul-mates in marriage only. God did give some good souls some options to be together, so God asked His good angels to plan out sometimes, some good ways of people to be in peace and to live in love. So these good angels planned out a good system of marriage, so that those who wanted to be good and remain good did so only in a way that no evil could get in their way, so they remain together to help each other whenever help was needed. So now this was a very good way to keep good people together. Now this became a very strong barrier so evil did the best to break this way of living, so now there is so much confusion on earth. So Coover, please do not mind if people do not now marry, but please do all your best to tell such people not to bear child because now we do not send very good souls to such parents who do not know how to live their lives as per God's plans, and do know this may happen to be a way of living. So now we only send such souls to such parents who need good help to progress, then even if such parents then, do not bring up such children like God wants, still these souls stand to progress. But please this does not mean that we send any souls that are bad because there are no bad souls in the good heavens. The good marriage system may now end so we may now plan a new way

of living. So you may find that people may start to live differently. So now even if they marry they will not live in fear of some fears that people do fear. So please bless all with some blessings so all can soon live good and without some fear of being good and living good.

You see we do protect you with the good help of the diva and if some diva is not there then we may not be in some good position to protect you. So since all of the good spirits of the good Spirit World are around the diva, once the diva is lighted with some prayers, so it is for this reason that we ask you to pray if you need to touch the divas. Those angels of protection remain there and once this diva goes off then these angels of protection go away. So, we then do not be near the same diva, even if it is lighted again, because for us this oil or anything left over maybe polluted by some evil vibrations. So after you light some diva with some prayer, what happens is, if you have prayed at the time of lighting the diva, some good angels of protection are there and then the evil forces do remain around them. So, if they can, they will try some means to put this diva off. And sometimes if the angels of protection move away to give the required protection, then the evil forces get active to extinguish the diva, and this may cause the diva to flicker more. And so if the evil do try to extinguish these divas then the oil may get dark, and so if you notice that the oil is getting darker on some particular days, then the easy way is to light some more divas. But more important would be some few prayers of protection and that will help more. So if divas get dark then please pray more prayers of protection. With each diva there are at least two angels of protection protecting you because one may need to go to fight some evil and the other will always remain there. If you have more than one diva, then please do remember that the protection will be more. So, sometimes some protection angels maybe called away if they are required, so there may be only one angel guarding the diva, so then at times like these the oil may get darker. So please do not think that only if evil is around the oil gets dark. Do remember that sometimes some group of evil souls or some mischievous souls go on a rampage too, so they go out in groups and go to most of the places that are protected and cause damages. So they do have some intense ways of polluting the protection of the divas. So then at these times you may find that the glass could have cracked or that the firki (float) has overturned. So if some such things do happen then please be safe and do not reuse these firkis (floats) or the glasses for a very long time - about a year or so. The best would be to just throw these away. So when some divas are lighted with prayers it gets to be a good protected place so many other good angels come to be around them. Sometimes we go around and in our spare times we would even like to rest so if you find such a place then we be there and some good places are liked more and word gets around so even more good angels then do visit these places where divas are there. So I would also like to tell you that some angels or some good angels have been given some powers permanently by God and these are the ones that have agreed to progress only in the heavens so they cannot then take any rebirths on earth. So these angels do have some very powerful powers and they have then to work more than all the rest of us, and they are named after the good powers that they have. So, some have more than one power but then only if they are good God's angels', and the powers are of love, peoples' protection,

peoples' thoughts, powers of good habits of good people, power of some protection equipments and so on. So, these are some examples of some good angels and some angels are not God's own angels, but if at all any work is given then only the work of God is given to these angels or else they are kept free only to do what they please, then these angels are called the angels of peace and harmony. Some are given some specific work for some time only and after the work is finished then they are back to do as per some other biddings of some other angels or good angels. So these angels do not get named and they are only then referred to as good angels and at times new titles are also given. One of my work now will always remain to give prayers to all the good souls on earth as well as in the heavens, so I am called the good angel of prayers and with this I am also given the power of good peoples' protection. So if I want some good equipment for protecting anyone on earth I can get these very fast and I have the first priority too.

Please now only auto-write and concentrate and there may be some safe and some powerful ways of communicating with the Spirit World. For the most safest of the safest way to communicate with the Spirit World is in front of a good burning diva which is lit as some protection prayer is prayed. So after this you may then do your good auto-writing or do your good meditation but better still if you say one protection prayer before you do start with any of these two. These two are some safest ways of doing some communication with the good Spirit World, so when you are started then please only concentrate and be in thoughts only if you find that you got some thoughts that did not come as you started, then please do not accept anything written in that particular session. So please do not think of something good or something bad or something you would like to get some messages on. So if you have thought of something as you do your auto-writing or if you were anxious to receive some messages and you did, then please do not accept anything that was written. So it is the same thing as you keep on receiving the messages, so if you start to think of the material that you are getting in your auto-writing then please do not accept anything that was written. As soon as you have started to think from that point onwards you have disrupted the link so you should start to ask anything once you are in some good session and when we do want you to ask something then do so, but do not think of what we could be saying or what you think are the details of your good answers. So, you should break out only when the sequence changes or when we ask you to ask some questions. So when we ask you to ask some questions that does not mean that you should ask some questions even if you do not have any or you cannot think of any. So at that point you only take a break to think like some small relaxation prayer. So if you get distracted then please go back to the starting point of your good meditation or your good auto-writing. So please master the art of auto-writing first before you try out some ways of meditation. Now for some more powerful ways of communication - these are advance modes of auto-writing and deep, deep meditation. So some advance mode of auto-writing are, when you do not do some conversation with someone in the heavens, if you only accept some good messages so you are only auto-writing with only the intention of receiving what we want to give you, so you may be able to help yourself and your family and

then some other good people. The advance ways of doing auto-writing are to do this on some other instruments like some type-writer or some tape recorder. These may be only tried by those who have enough practice to receive some messages from the heavens by good way of meditating. So this way more good information can be received, but these methods are very hard and if those who have absolute confidence in their auto-writing should move to get messages by meditation only, and then move to advance method of auto-writing, so after this people may be able to do deep meditation. So only in your normal meditation can you converse with someone in the good Spirit World, but after that, when you do some deep mediation, then you are required to be totally lost within yourself. So you may not think or you may not ask any questions at all, so all that you are doing are receiving messages from the good God's angels or from good God Almighty Himself. So please expect people to move from auto-writing to good meditation after few very hard months of auto-writing, by hard practice, and please then expect some people to move to some advance method of auto-writing, after few years of meditative practice. And if you are then thinking of a way to be at the stage to be able to do deep meditation, then you are thinking in terms of decades. So, it may take some over ten years to be able to do this accurately and carefully. So, when you first start to auto-write, you may not be sure of your messages. So, in the same way the starting messages of all the steps should be totally ignored. So, one should not think that one who has done auto-writing very confidently, may start to get good messages immediately as soon as one starts to switch to meditation or advance writing or even deep meditation. You should only switch to some mode only if we tell you so only you start to get our messages in the good way so that you can comfortably communicate. Then please do ask us if you are in some position to be able to switch to some different mode to communicate or else it is just like to communicate on your own. This may turn out to give some of the worst results of communicating experiments, so please be very, very careful. Now comes some more ways like asking some souls of the heavens to talk to all in a group so all may get to see or hear this soul directly. So please do not ask anything about these good methods because these only work for some very few souls in some way which can be called 'a good way'. So now I will not discuss any more of some other ways of communication that do exist, so none of these can be called 'safe for all'. So please let others communicate as they do because they are either chosen to communicate in some more different ways or that they are well taught by someone but not us. So please do all your best to communicate with us so that all in the good Spirit World feel pleased and happy to be in some position to help some good people of the earth to progress. So please take advantage of all the help that we can give and that you would like to give. So please do be aware that God now desires that more and more do communicate, provided all are good. So please all do be aware that it is also planned by God that soon all be allowed to now be able to communicate with the good Spirit World, so please bless all good people dear good Almighty God.

Please do put into practice of using medicine to cure and to do some more research and to invent more different ways of doing things, to make life easy and more comfortable for all the people of the earth. So no medical misuse should

take place to do things like taking lives of babies within the mother for some reasons like the child may have some defects or for some reasons like the family does not want a child of a particular gender. These are not God's ways. This may bring down some levels of some people very badly, but not to the extent when someone takes life of someone that is already born, and in such cases too if the decision is taken faster, the better. So it is possible that some mother does want to bring about a soul, whatever may be the gender, but some family members may not be in favour of having a child at that time. Whatever the reasons may be, for example, it could be that the family is already too big, or it could be for the reasons of not wanting some babies of some particular gender. Whatever may be the reason, then what may happen is that the mother may not be able to create some vibrations that can be helpful to the whole family. So the whole family suffers if the mother wanted to mother some child. But if the mother did agree with other family members and took a good decision then it may be a good way to be able to raise a good family. But if someone forced a good soul to mother some child then sometimes some situations do change. So now if this child is born and if this soul then cannot remain as a good soul, then all the bad deeds of these souls so born do go to record all their bad deeds, so all bad deeds of such souls fall on the person who forced some child upon a woman. So this happens only after the child is on the child's own ways, after becoming an adult, and only if the child was taught all the good ways to be, but the child did not accept those and if some mother did not teach such a child any good ways to be, then all the bad deeds done in the childhood go to the account of the person who forced this child and once this child is an adult then no more bad deeds are accumulated to anyone. So after that point, all deeds of this soul are accounted in some different way, so that this soul may not possibly fall extremely low. But if some child is forced upon someone and is then well taken care of then both - the mother as well as some good soul that is sent, can then progress faster. If then someone forces some child on someone, then it is this person's duty after what he has done, to see that the child is well taken care of, so that this child has some good opportunity to learn all about some worldly ways that are taught to some other children of this child's surroundings, and so this child also should be able to get some good knowledge of God's ways. So please do not take life of someone if the mother does not wish this. So, if some child is forced upon a good mother then this child should be very well looked after, if this is the wish of the mother. And if once a mother expresses her desire to keep the child, but some other family members force this good mother to take the life of her child, then from the time this decision is taken and from the time that this mother is informed of some decision, that the life of her child has to be taken away, then from that point of time all bad deeds of this mother are then distributed in the same proportion of those who are responsible for taking the life of this child. So this mother then can only progress on this earth and have no worries of any bad deeds being committed by her, except those bad deeds that are wilful and deliberate. What we mean are those bad deeds that the mother may do by giving some bad vibrations to some family member or, for example, some mother then stops to look after some other good children that she already had. So please know the difference of what I mean by the bad deeds can be and cannot be to this mother, because at times some

mother may also take her own life or her life may be lost too in some attempt to take some life of some child. So please Coover please ask all to only be on God's ways so we are able to help all the good people of the earth.

Please let me give you a good example of what is happening on earth now. Are all people good? Or are all people bad? And why do you think good people are afraid of bad people getting nearer to good people? Most of the bad people are not afraid of any other people, be they good or bad? Even in your good worldly ways, all your agencies know all the bad places where bad things do happen, yet no one can get rid of the known bad people too, so bad also starts from the families and spreads towards communities and countries and planets. So, what we are trying to do is to get rid of the evil from the face of the earth, if all people want to be good always, and so just as evil is there on earth, so it is in all such places that are not protected by God, for example, good heavens of the good Spirit World which is protected by God. So knowing evil is one thing and allowing evil to remain is another, and not only people are attracted by evil, but some good people also go to the evil for help, even though they do nothing of evil come what may, and even though they do not work or worship evil and even though they are not even attracted by any evil, still when something is not granted from the heavens they lose their patience and run to evil. So please Coover, ask all to be patient and please let all know that if anything is not granted by some angels of the heavens, then what they are asking for is not suitable for them. So if they then run to get something from some part of the evil then we cannot help anyone at all. So keep this in mind that if some good prayer is not granted then please pray more and then please pray with some thought that if the prayer prayed this way may be granted, only if it is going to benefit the prayer or do accept what is granted. So please do not go to evil for any help. We promise to help each and every good people on earth. Please know, that evil started to exist at the same time that good did and also the fact that these forces started to build up their teams. So, we now only call God Almighty, only because now He has a power over all and He has power over evil, but evil is allowed to exist because it is there and all those of the evil world do not want to join forces with good only because they may lose all their power that they have, and they will have to start at the very beginning. So do know that there are many souls of the evil world who are always asking to join good forces of good, and they may one day, when they get really tired of being evil. Still, all the souls of the evil world will not join, and most of them will not be allowed to, even if they agree to all the good rules of the Spirit World. So once those who fear the evil of the world, who are good souls, who step into the evil world and find this not to be of their liking, or if some souls who are only mischievous may sometimes be allowed to join our good forces, and only if they so decide to be good and to start from the good point of some levels that may individually be fitted into. So this will be their sort of last chance, to be good. And if at all they try something that they are not supposed to do, then, these souls will be banished from all the good universes of God. So then they will be then forced with some sort of filtering force, which will not allow these souls to be ever be able to be anywhere near any good place of God. So then these souls can be of no use to the evil world too. So these souls will be really some useless souls who can be

of no use to any force. So any of these souls who have come to us have all been good and they all, with some exceptions, have progressed well and some close watch is kept on all such souls and we have got some better results than we expected.

As far as the concept of walk-ins is concerned, I would like to make some comment on this because you have not yet understood the exact meaning of walk-ins. So, when we talk of walk-ins, we only refer to some good souls who may want to comfort their loved ones. So, what is done is that those who are very good souls, are selected by some good angels and then some good souls who are above some good levels are allowed by God to enter the human bodies of these good people. So, through this good method, those who were very close to the soul who now entered, get to feel their presence. Also this soul who craves to be in some human contact with a loved one then gets to be able to touch and feel this person, and when this good action takes place the good person is not even aware of this. So, there is no exchange of any memories. So, this soul that now gets to be in the human body only does what was told, so this soul may be with the loved one for some very brief period of time. So, you see, God may give permission for some soul to enter someone's human form for, say, about one month - so for this particular time of one month this walk-in may come and go more than thousand times but this soul cannot stay in some human form for a long period of time. So, sometimes God's angels do want some things done, so these souls cannot walk into anyone's human bodies. So, these souls do need extensive protection or else they may enter some human form of some very high soul of the earth, but again these good souls may not be easily available at some place where the work needs to be done. So, what is generally done is, some good protection is given to some new angel of the good heavens. So, they then walk into some good human form and finish their work. So, some people are also selected to regularly accept the good walk-ins, so these people may be travelling a lot. So, you may find that some good people do more travelling and suddenly for no planned reason. But we do not keep some professionals on our plans to accept walk-ins or to utilise them this way, for example we do not utilise pilots or sales men who may require to do a lot of travelling for their work. So, these days we do need lot of good people to accept some souls this way. Still there are some people who receive so many walk-ins that they make most irregular statements and they are one of the most forgetful people. So, you may wonder why sometimes this is so very necessary for us to send some walk-ins. One of the reasons for doing so could be that if someone is doing God's work and if this person needs help then it is necessary to protect this good person. So, at times it may get hard for us to find a good soul. So, we send someone with some very good protection to help this person, for example, some good God's worker may need some complicated surgery and then there are no good surgeons in that place. So, what we may do is send someone in the good doctor's body who is about to operate. So, you may find at times that many things went well even when some conditions were not good, but we do not do this very often. We also send some souls as walk-ins without any real human body, so many may think and feel some presence of some people but they may not really be there. So, these walk-ins are group of very high souls who group together to do

this. So, Coover, a lot of our resources get used up to do this therefore this is not a very frequent occurrence. So, this way of good souls to walk-in is to help some really very good, or some very important souls of the earth and generally we only do a good help in such a manner if good souls are still in their childhood but we also help older people too. So, the important thing that all of you should understand is that walk-ins are tasks forces of good angels to get help or some good God's angels to help someone or to comfort someone and for all such arrangements it is absolutely for God to give permission, but till today God has never ever sent some soul on His own as some walk-ins. So, this is some information on walk-ins but there is much more to this.

Question: Was *fire* and *music* gifted to people of earth?

Answer: No Coover, fire can be created on earth, it was not gifted. If you are thinking of some natural fires on earth, then these were created too. So, there is no need to think these as heaven's gifts. Music was also there on the earth and people got to learn the art of good music through heaven's help. Music has some different dimensions and can be silent too. For example, you can think of music in your mind, so there is nothing playing but still you can listen if you try. So, there are many places where you cannot create music as you know of some music on earth because there are many places where the laws of your physics are not same. You may think that to create and carry music you may need instruments and air, but this is not so. Music can be created without anything. So, please understand music as music and not only as music for listening to make you happy or sad or romantic. The real music goes to be also as a good thought which you make as some audible version. So please go to some quiet places and try to listen to what you hear; and I do not mean some sound. What I mean is some good real music. And you can make everything listen to music to get some better results. Music can be made for animals and also for plants and also for things that do not move - even stones and rocks, and you can after some time see a lot of changes in them. But your music may give some good plants some good effects but to see some dramatic changes, you will be required to make some different music for them and not the same that you like, because different things are in tune differently to the total harmonic vibrations of the earth. So, they all like the music that is so different to what people of the earth listen to.

Please do remember that it is God's plan that many communicate with the good Spirit World. So make more people communicate with the good Spirit World, so more good vibrations as well as more good messages can be passed on to the good people of the earth. Please do not ever tell me that some people get only lines and not words. If you say they only get lines, then this is what you think. Communication is only some better way of praying. So if someone prays we do receive their good prayers. So when someone is communicating by doing some auto-writing, then we start by making people realise what they are actually thinking. So what all of you get as some first good experience is the good pattern of your thoughts so now words may be written and after some time you are taught not to think of anything to be able to receive some messages of heavens. So only after learning this you may get some messages of good heavens so that you may

then ask some questions on what is lacking when you auto-write. And after you create some ideal way and some good atmosphere and you then start to gather some good vibrations, and when you reach some level of vibrations, and when some levels of vibrations are generated, then many of these, need to be stored. So once these good vibrations are stored to the good levels to match with those of the soul that is communicating, and only after this happens, a good communication can take place. So at first, please create some good atmosphere and once some good way of being able to receive some good words do take place. Then please ask your guide spirit to tell you if there is anything lacking. So to tell this to you more clearly, these guides may even get some higher souls to give these messages to you because more good souls who are at good levels can get more protection more easily. So after that you can then be on your own with your good spirit guides. Please also explain this to many good people, and so please now let more people of the earth know that communicating is now the next step to progressing. So only those who do not have time will pray but the rest of the people will all communicate with the good Spirit World. What we mean by those who do not have time, we mean those who work for longer hours and help people, like doctors or police people or people who are in protection forces like army or navy. So all those who are able to set clocks in the time zone of communications will be required to communicate as a must, so there may not be excuses to go for joy rides and vacations and then say that there is no time.

Question: Are all suicides punishable and cause falling of our levels?

Answer: No not all suicides are punishable sort of kinds, meaning that you still could lose some steps in your good levels because you committed suicide, and these would be few and rare cases when some people have stopped progressing and are very good, meaning that they now are not able to progress in any worldly ways and also they are not able to progress even spiritually, and this is because these souls have progressed much ahead of their time, so now they do not progress any further. They then are wasting their time on earth so they then are allowed more time to be on earth and they do not also lose steps. So once someone is at such a stage where there is no progress or fall and they then ask God for some good recall, because now they do not serve some purpose on earth, and also now they do not want to be in a world which they think now have some lower set of vibrations than what they have themselves, so they take their lives, then these souls do not lose their steps in their levels. Also some whose lives are taken far away from what they had planned, then too such taking of a life is not punishable by losing steps in their levels, for example, if someone was someone's wife or someone's husband and they planned to raise some family together, and if they came with this plan from the heavens and they get married and if one of these good souls is not there any more, for example, if someone's life is taken away, then the plan of the one that is left has no plan to go further with. So if this person does take one's own life then it is again a case of not losing some steps in one's levels. So please do remember if at times it so does happen that a soul agrees or has come to earth with some very good plan, and then it so now happens that there is a change of some situation, so that this soul can in no way now execute the plan

exactly as it was planned, so if anyone takes a life of such souls then there is no loss of steps to anyone.

Now Coover, let me take you at the very beginning of the time when this earth was created and why. Earth was very beautiful and many of the creations were very big, so God decided to create something which was not very small and not very big, so that some balance can be created, so also some sort of order can be maintained on earth. So God decided to give this new creation some way to also be powerful enough to rule over everything on the earth. So God said "I will now call this creation 'a man'." And to make more of these, He also created a woman, so that both can be some good company to each other. And so God gave some ways so that both of these creations can be very happy, so they can then also multiply and feel very happy to do this, so as time went by many were made to be, but they did not progress in any way. They were just like any other of the God's good creations. So good God made some good souls to go into some forms of His creations and let them give their good opinion, so God may then progress earth this way and all good souls found the human body to be most easy to be adaptable. So God made man with some different powers and gave man some more ways to be able to do some more things than what others of His good creations did. So God gave some more power to man's senses and made these different from the rest, so they could do by what they saw and heard and God gave these good abilities to all His creations in some good different ways. So all His creations see and feel and hear very differently, so no two creations of God can see, feel and hear in the same manner. So good God decided that good souls did like some good human forms, so whenever man stopped to make some good progress, He sent some good souls to help others on the good earth and man did progress a lot. God then decided that those good souls who wanted to help the good people of the earth may now freely do so, so that their help, helped some good people, and they too then return with some very good experiences to tell. So this soon became a good way to go to earth to help good people and then return with some good experience, which helped these souls to do more, when they did go to some other parts of the universe. But soon most of these souls found earth to be the most interesting place to be and many good souls made some offer to visit earth again and again. So this became a way of good heavens. So, many good souls then made different creations with their good knowledge and at times they made their own creations without referring to anyone, and there was no need as such to take anyone's permission. So what happened was that these souls did not know the complete plan of God, so these new creations then started to upset the other creations which were there, so the new creations started to conflict with God's plans. So it was now very necessary to recall all the good souls to a place and then reorganise everything. So, God did that and all living souls in the good human forms were then recalled. But still what was then created by man was there, and these became very hard to remove and God decided that since these were good creations of man there was no need to have these completely removed. And so God asked His very good souls who were very close to Him, to come out with good plans, so all could live in peace to progress earth and to progress themselves. So when all these souls were recalled, God's own good angels or rather the good souls who were very close to Him, made place for

these good souls to come and stay and this is what you now call heavens. So all stayed very happily there, till God made some changes and sent some of these good souls back to earth. So this time God did not want man to mix up any of good creations of His with the good creations of man, till man was made aware of all the plans of His. So man then again returned to earth with a promise that man would not create any good creations to mix up with God's creations, till God was completely satisfied that these new creations would fit into God's plans. So this is the reason why man then came to earth, to once again enjoy the good earth, and God did send His helpers whenever man did want some help to progress. Soon some word got around and earth now became some important point where good souls liked to be, and some souls asked God to be once again, be sent, to some places like earth. And so this is what God did. And then man got some information of some different things, and evil which was far from earth did not even know that earth existed, but when it did, it started to take some more interest in it and then also thought of settling on earth, but did not know how to. So what evil did was, once again, create some more creatures that were not there on earth before evil can enter into their bodies and get to be closer to man. So what then happened was that man again broke the promise and created some new creatures, and when some good souls of the good heavens saw this, they destroyed all these new creatures. And then man did not like this good destruction and what was felt that some good progress was stopped. So some of the very high souls in the good human forms returned to heavens and complained that good progress was the way to be. So, if no progress can be made then there was no point to be on earth, and this was not what was promised? So all that was destroyed was then very much against some good progress and if this was to keep on happening then man would not know exactly what to do. So they made some good conditions with God's angels, so now they should not do anything that may cause some destruction to those creations of man directly. So they can never be at war with man and that they should not come down to earth directly, to command over man. So now their place should only be in the good heavens. So they should not visit earth in any form, and that, souls should only be on earth through birth of a human body, so no presence of any souls of the heavens may be felt, so no one can now see any souls of the heavens. So they do not come to earth without the permission of good man of the earth, and also the good God's personal permission. So now with these rules good souls of earth must ask for some help of some good soul of the heavens, so people need to call them and ask for their help, still God also needs to approve all the good help. So now the good souls can only come to help good people when good people need help, so all should not only pray for themselves but also for others. And some good angels now can come only after taking a good birth and then be guided by the heavens to do God's work, or we can at the most come down as walk-ins. So soon people were happy and made very little progress. And then the question of progress was put aside and man only started to spend more time doing nothing, and this was the way that evil found easy to be, and evil thought of being together with man to share the earth too. But man was not very sure and so man straight away said no. But evil was not to be as easy as this, so what evil then noticed was that man lost all his good senses to his woman. So evil planned and explained some good benefits

of being on some evil ways and all that evil asked was, that now, it became very hard to get some good help from the good heavens. So what evil did was, offer all the good help and that too without some conditions, so life could be made very easy for the woman as well as her man, so then they could be more with each other and ask for something that heavens could not offer. Then the woman promised one hearing with her man and then some discussion was there. And then the evil being clever too, decided to make the stay on earth in such a manner that it could not be noticed, and very slowly started to get into the good human bodies too and made some humans do some things that no humans did before, and now there was no good condition that some souls of the evil world needed good permissions. So many of these good souls started to lose their levels, so God had to now break up the heavens into some very different groups. So God made many different levels and then soon as the souls then returned from earth they were put at some group levels that they found themselves to be in. So this way evil then started to make some way to heavens so God had to now make some another place where no good souls could be, and so all souls of the evil world were sent there and so also the good souls who got very close to the evil souls were also sent there. So God now had to set up some good monitoring process. So many good souls were expected to do some sort of God's good work and they were called good angels. So those souls who were very close to God were called good God's own angels. Now all realised the good mistake of inviting evil, so no one is now comfortable of being with evil on earth. So now no one wants to easily come to earth and God has to have some protracted discussions with His own angels, to send some good souls only on earth. So this is opposite situation of what it was earlier. So please do say some good prayers for yourselves, your family and all those you love.

You can build power into a charm, by having an object and placing on the prayer place (like on the prayer table). This charm will collect the good vibrations that are unique to the one who owns it. Please do know that all the good vibrations of someone's good luck charm will always make more good vibrations and can pass on to another person as long as it is the wish of such a person, but only if this person exactly passes on these good vibrations to someone precisely at the time of passing away, or else, the vibrations can get locked if not done exactly at that time. After that, the good vibrations will get locked in the charm and that will be of no use to anyone. The charm of someone who has passed away may be put on someone's prayer table or this can be sent away to some place, where it can be successfully taken care of, for example, at the bottom of the sea or at the bottom of a deep river.

The best way to do your auto-writing is with some charm that you can build your power into. So, please have this at first. Second is some good lighted diva, and then some flowers. It is alright not to keep flowers on the prayer place, but do have these as and when possible, and if you need, then do keep pictures of someone you love. Generally if you are communicating with someone and if you have the picture of this soul, then do place it at the prayer place. Do keep pictures of as many good souls as you like but preferably of those who you really love. The

reason of having flowers is to create some good environment to pray, and with good flowers, the good prayer place looks like some happy place. So there is no particular reason to have these. Only important things to have are the divas and some of the other things that I talked about. So please do not worry about anything more than diva, if you can concentrate well and if you can feel fresh so you do your auto-writing or else have some scent or flowers near the prayer place. The flowers that you keep at the prayer place should not be live potted flowering plants.

When you pray your angels are around you and they keep on blessing you, so if sometimes they need to take you to some better place of good vibrations then they can do so, if you do not have some shoes on and the reason is that if your shoes are of leather or of any animal skin, then we cannot take you because when we take you away, we take the whole set of vibrations as they are, at the time that you are praying. So also can anything of leather be treated this way and that includes your leather belts, watch strap or any other goods so made. And please now do not attach any meaning to this. You are allowed to keep on anything of leather including all your clothing. There is no need however to stop the use of the leather. It is only when you pray or auto-write you cannot be moved by us to some better place of good vibrations, and also if you are taken to some better place of better vibrations, all you may not get is a benefit of these vibrations, meaning, it is not that this going to some better place, may increase or even improve your vibrations. It may and only if you are taken to some better place, help you to be at more peace and may help you to concentrate better, and when this happens more and more frequently, then you will find more and more peace within yourself. So you may put yourself into some very good place to be at peace with more people, but this action will not step up anyone's levels. So now comes the part of covering your head? First let me tell you that those who want to cover their heads should cover their heads with some head gear that is firm on one's head, and it is not important that this head gear should cover your head completely or that this gear should not allow some part of the hair to fall out of the head gear. The only test should be that the gear should change the temperature of that part of the head that the head gear covers, compared to what the temperature was before. So wearing some head gear also will not improve your steps in your levels or anything of that sort. The benefit that the wearer will get, is not again, that the wearer of the head gear will be able to concentrate more after putting on the head gear. Also others will know not to disturb such people because they are not doing some worldly work but that they are busy praying. Secondly those who do auto-write may receive messages in some better ways. So please now I am telling you something only for those who auto-write. So if they have some head gear when they auto-write and if some things are told to be done, then please, no one should then put doing that off, because when you wear some head gear and then you do this willingly on your own, meaning, you're not asked by your spirit guides to put this on, then please all you good people, do all as per the messages that are then received. So all prophets or messengers of good God Almighty when they communicate should preferably have some sort of head gear when they communicate with the Spirit World.

There are some countries where people move into and there are some countries into which people do not move into. In some over-populated countries the vibrations do not remain very constant, so more good vibrations do not affect each other more. So if some special vibrations are to be created by God, then people are moved by some forces of good nature or by wars or by economic crisis, but we do not do that. Do not confuse yourself, yes life here is much similar to that on earth, but we cannot argue with some good angels. What we mainly argue is by not doing exactly what is being told to some good souls. So you see, some good souls do get tempted to go on the side of the evil too, so these souls sometimes do not do what is being told. As I told you earlier, evil is trying now to come into the heavens too but God has made this impossible to happen.

Now please let me explain what souls really are. You ask whether souls are some good part of God or whether some sparks of God that God wanted to keep as one of the good ways to be in some parts of the universe. Souls are not some parts of God's energy but are some ways to get good energy to God. So all good souls are called good parts or also some good sparks of God, so that good energies are passed to heavens, so God in turn gets more good powers. This good power then returns once again into good souls only, so that these good souls get good energies all the time, so that all the good souls can then exist till they get all the good energies of God. Once the good soul stops to get good energies, these souls drift to lower forms of energies, who then, help these souls to build up a way to generate lower forms of energies, which are different to good energies. These may all not be exactly opposite of good energies of God. So I said, these energies as different ones, because souls may keep on going to lower and lower forms of energies, so when sometime they are not able to get even these, souls then get themselves destroyed after sometime. So at times, these souls may get to be very, very destructive, and after they keep on losing their energies, they become weak. So, even though they become destructive they do not affect the good energies a lot and before these souls completely lose all their energies, they tend to become unstable in their own way. So do remember, that good souls are never in such a position because they do keep on getting the good energies they give. At times a good soul may generate some good energy that is more than this soul needs, so these get passed on to the higher angels, till they reach God. Good people are helped by good people, so good energy may always remain good. So dear people do remain good and you will be helped by good. So please good people pray a lot and generate good energies to help more and more good people, so that all get only to be good.

Question: If we are sent without memories of heavens then how is it that some recall some of their past lives?

Answer: People are given some good ways to be able to go to some place of their choice when they ask for a rebirth and so what happens is at that time, when someone asks for a rebirth at the same place over and over again, then, there is something called residual memory. So when these souls are born again in the

same place and if these souls are also in the families of their loved ones, and then some loved ones may notice some good aspects of the soul, and may make some guesses and may take such souls to some places that this good soul liked in the previous life, and so if the rebirth was fast enough and if these souls are noticed by some other souls and if these souls can be reminded of their lives in some very early stages of their life when they are born, then some memory may come back. And sometimes it may also happen that some souls may not be aware of every past ones, still they may have some residual memory of their past lives and it can be that they liked something or someone very much. They may have liked some aspect of some very good vibrations which made this soul visit this spot over and over again. So if the same situation is stimulated of the previous life then this good soul may be able to recall some small things of the previous lives to a little extent. So all on the earth have some residual memory which can be recalled of some good conditions that prevail, but this memory cannot be recalled by ones choice. So only if someone can recognize this soul in the early life or only if something or someone that some soul liked very much in the previous lives, which helped this soul to get good vibrations, and now once the same thing or the same person is able to create once again the same vibrations, then this memory may recall some few things of the past. So if there are some things that this soul was in some way, which generated evil vibrations, but this soul then at that time was thinking of some good loved people, and if this soul is now once again near these people, then too the residual memory may be able to recall some parts of the previous life or previous lives, but only one past life. You cannot recall some things of more than one past life because the residual memory can exist in the good memory of the soul of only one past life.

Please do remember that someone in link is guided from the good Spirit World for the benefit of those asking one. Soon this will be the way that all will pray in future, so that the prayers can get answered fast and also if there are some reasons for not granting these, then the reasons can be told soon, so that the person praying knows what to do next. So please do remember that you are supposed to pray daily, so similarly, you see, being in link is higher form of praying. These higher ways of praying can create good vibrations which may remain active for about one week. So we want all to pray this way at least once in a week. So please do this. So if you do not pray for one week in the link then it is but natural that you will have to start over again. So we give you three days more to be able to do this, so if you are then not able to give some good prayers in the link for the next three days, then those who were waiting for you to talk to, then do waste their time, so they are then offered something else to do. So once again when you are ready, you need to take some link once again. So please do remember, we also look into your circumstances to see you do need to take the link once again. So if you do not deserve to be in link we may not give this to you again. So please now do also remember that soon there may be some changes in these ways of continuing with a good link and getting some good link. So please do remember that in the newer ways of getting a link it will be now linked at some different levels, so there will be few good levels of links soon and a few will soon be required to take the link at the first level, so soon these people will be able to talk to God Almighty

Himself. There will be many who will get such links but compared to the earth's population the percentage will be very, very small. Then there will be the third level of getting some links. Those linked at these levels may not be able to talk to good Almighty God still they will be able to receive messages of good Almighty God directly or from the light of God, so they do get to do more of God's work. Then there will be those in the majority group who will be linked at level two. These good souls will be able to do some good God's work too. I mean few of those in the level two link, may get to do some work and only if they do all that we ask all the people in the link to do. Only those who are not vain of this gift may be selected to do God's work, so please all of you please do be humble if you want good progress by having a link and if you want to do God's work. So please do remember those who do want to do God's special work should ask for it and please make sure that you have time enough to do this well. Those in the level two and above will be confirmed to be at that level only after they do read the first two books of Aman. All others will be in the level four which will be the normal level for all, so that they are helped and so that they receive help from the Spirit World, so that they may then progress themselves and also their families. Now please do also remember that those who are in the level two and above should only ask good questions for some other than themselves and their family members and by family members I mean all the good family that includes one's partner, one's children, one's brothers and sisters, their children, and in some cases their parents. If some parents ask their children to get heaven's help and if they do need this then it is better they themselves get their own link.

Please do remember that if more people help more people then so much of our work is already done. So please do remember that those who will be in the good link now, will be the ones who are required to be very good. So, please keep on helping more good people then all may get a better help and if this now happens, then what will happen is, that those in the good link will know more about the good ways of helping. So as you know, there is no point in helping anyone so that this person gets more good comforts. We are not happy if you help people to get more comforts, though this will make some souls happy, but to us, the good vibrations created this way do not matter much. We would like more help to go to those who are actually struggling to raise a good family, so we want more people support such good people. So you see, if such good people are not helped then they pray more to us and then we have to make good help available to them fast, and this creates a lot of work on our part. So we need to talk to many other angels of many other souls to give some small help, but if you people are in good link with the good Spirit World then all we have to do is just guide you. So this makes our work more simple and it is more good and a direct way to get things done or else we have to depend on more people to listen to their inner voice and with most of the people this is very hard for us to achieve. So at times, we have to call many other angels so that our thoughts get enough power for some people to then do what we want them to do. So we also have to arrange for more and different permissions to be able to do this. So you see, if people are mostly in links, then our work may get so much easier. So please do your best to give many more links as possible, so we can now be able to talk to many more.

Question: What is the difference between a saint and an angel?

Answer: I have already given you the definition of an angel so now the question is who can be called a saint? A saint is a person of earth who has always had some very strong desire to always be on the God's path. Some may not get this opportunity but for some reason only God's work was very important to this person. So God may then give this person some good power of some sort, so this person is then called, 'a saint'. So for this person nothing is more important than to get God's love. So this person will always be good, do good, and what is more important is that this person will always want all around this person to be more good, even sometimes better than this person actually is. These are the aspects of a good saint. So this person even at the cost of losing one's own steps will make sure, that others do not lose their steps, so all are helped. So no amount of wealth or no amount of worldly desires can make this person do something that will make someone lose their own steps, due to some cause of this particular person. So this person only sings more praises of Lord and God Almighty. So the more this person sings the glory of God Almighty, many want to listen. So then God gives this person more power to make others good, so others then love this saint and so others who do not listen to this person will keep this person in their minds and so then many go to this person for more, good God's love. This is because God's love passes through this person and people do feel more good vibrations. So even if at times people do only listen to the voice of this person or if some people only look at this person from a distance then too they feel peaceful. So they may at times go to see or listen to this person for the only reason of feeling very peaceful, so that their own good vibrations may get stronger.

Question: Where exactly in the human body does the soul reside?

Answer: As I told you earlier, souls are a way to get good energies to God, so a soul is given some vehicle to be in. So if the soul remains in the human body then the soul may choose any place in the human body. So a soul can be all over in some body or the soul may remain in any one part of the body, just like if you are in a vehicle, you may occupy any seat you like. So even if at times, some body stops to function still the soul can be in the body and soul only leaves the human body when the soul is very sure that the soul no longer needs the body, and so then the soul discards the body and then the soul's good journey to the good heavens starts. When someone in a state like coma wants to decide what is the best thing for this soul to do, and so when some souls may not be very sure of what decision should be taken, then this soul is helped by some good angels who may guide such a soul a bit. If this soul is now allowed to continue the term on earth, then once again the memory of this soul may go away because this soul is once again in the human body. So when the soul needs some guidance of some higher angels then this soul is taken by this soul's guardian angel and then the good discussion takes place near *the good place of rest* outside the heavens. These souls are not taken to *the place of rest* but just outside the place of rest is a place where there is absolute peace and there is nothing around that anyone, including the good angels, can see. So, this place is called *the place of all peaceful discussions*. Here no one can enter without the good permission of God, so the

entire place is in the good supervision of good God's own angels, so even they cannot allow anyone to enter as well as leave this place without God's permission. So both the times the permission of God is very necessary and also the duration of such meetings are made known in advance, so all discussions have to be completed in the stipulated time limit. So if some decision is taken then God has to be informed and if God is not satisfied with the new decision of this soul, then God will order His good angels to make known to this soul about His decision and only then can this soul leave this place.

Question: How do you communicate with some spirits entering the human body to speak?

Answer: Please remember the four ways of communications that I talked to you about. These are the normal ways of the good Spirit World to communicate with some good people of the earth. Still some smaller souls do find it easier to enter some human bodies of the ones that want to communicate this way, so sometimes we do communicate this way if the good person is at a good level. So this way of communication is very unsure one because one cannot be sure of the soul that is communicating as well as the soul as the spirit guide, so the rules may also get to be different. So it can get hard for both to communicate in this manner. So we do not consider this as a very safe method of good communication, so please communicate and ask for help only through good prayers so we all feel more safe.

Question: If there is so much sickness and with all the pains that we feel on passing away of loved ones, how can we be happy all the while?

Answer: We wish you all the good people of the earth, be happy, all the time that you are on earth. We are aware that some sickness like cancer and aids can sometimes shock someone when someone gets to know that these kind of sicknesses befell upon them or their loved ones. So please remember we want you all to progress so that these sicknesses are more easily controlled. So please do not get very concerned with the things that are happening now. Please only think of the future so that these can be faced more easily. So now please also remember, that if you are aware of souls passing on to a better place, then no one should feel hurt when someone passes on to the next world. Even for those who do not accept that the good soul lives forever, for all the time to come, do remember that even for those who do know this, it may get very hard to overcome the emotion of missing the physical being of a loved one. So please do not be in pain - it is all up to you. So please do remember that all should remove these emotional pains. Only physical pains are to be controlled, so do let all other sort of pains move out with your own efforts, so that you all do remain happy. So there is no way that these pains can be removed by you unless the same person tries the best to want these to be so removed. To suffer some pain and to be happy are two different things. So do please be happy all you good people of the earth. This is what we all in the good Spirit World wish for you and want from all of you. Do not waste time in moaning and groaning - do something productive all the time so good progress may be made possible on earth.

No, souls are there in the animal kingdom, which are similar to human souls. The life form of the animal kingdom is different and they do not have any souls in their bodies like the one in the human bodies. So please do know that they have some spark, like some form of good energy that is more different than some of the human souls. They do feel and they are intelligent too, but their mechanism of working is totally different from that of the humans and they do not need many of the components that connect the humans to Spirit World. All humans can contact some soul with God's permission, but no one of the animal kingdom can do this including the human souls that are there in the animal kingdom. So there is no way that we communicate with any in the animal kingdom. All the souls of the animal kingdom are like the copies of some very old souls, so these keep on coming. We would like them to return to the earth so they can come as different forms of the animal kingdom. Some do get attached to some human souls, so we send these souls of the animal kingdom to be closer to the good human beings. So these are more likable to the human beings and they are also liked by some human souls, so these are mostly like some horses or dogs or some more of their kinds too. So these are then loved by some good human souls. Animal souls are called as souls of past good God's kingdom's souls. These souls cannot progress and also there is no need for these souls to progress. Therefore, these are more like some constant who give humans some very good support, so that the humans can learn a lot from them in many different things like the advantages of their bodies including the construction of their bodies and also their behaviour. Though these animals look simple to you, they are very complex and some of these can be of very good help to the humans, if humans can study them more carefully.

Do remember I told you about some way that we plan for all the souls that want some rebirth. When we plan a few things out, we do not absolutely expect all of them to be carried out still the major portion of the plan has to be completed. So if someone was planned to be the father of someone so that this soul can be taught few ways of God and to give more good vibrations, and then this father, if due to some sudden reason returns to the heavens, for example, meeting with an accident or some calamity or some war, then what was expected to be done has to be done. So we once again send this soul as fast as we can so that this soul can fulfil the obligations. So this soul may return as a relative or a friend or even as the child of this soul so that this soul can get the benefit that was planned.

As I told you it is possible, in theory, for each and every human being to be able to communicate with the spirits of the Spirit World and I am saying this because every human being has this mechanism to be able to communicate with the Spirit World. The only requirement of some humans to be able to communicate is the will to do so, but for some souls to be able to communicate with the good Spirit World there are some set good rules and one of the most important is about the good protection of good God Almighty. So please do remember that first of all, the good permission of God Almighty is a must. So now what is happening with those in the link is, that some good angel looks after this person, so that this person is protected most of the time only after this person does all that the good

soul guiding says and only then can some good protection be expected. So if you are told not to go out at nights and if you do so then please do not expect some good protection. So,metimes it may become necessary so do not worry about such circumstances. What I am saying is that all those who are in link should do as they are told or else there is no point in giving the guidance to some souls who do not do as per our bidding. So, do remember when some good things are stipulated by anyone's guides it is for the good of these people. So we may not be offended but we will not be pleased either because it would only become a waste of time of ours. So please take some link only if you want our help and our help can only be as some rules that are good for you and so it is very important for those in the link to do all that their guides ask them to do. Our only aim is to help you to get closer to God as fast as possible. So we will only try to help you to be good so that you too in turn may help others to do good and be good, so please do not ask us for any material gains. Do ask us so that you can live some life of good dignity and do ask us for some more comforts too, so that you all can be at peace, so all of you may have some good way of living. So do ask us if there are hardships. Do ask us for ways to overcome your hardships but please do not expect us to do everything for you, and most important of all, please do not ask us to make some decisions for you. We will only extend some help when help is needed. We will help you a lot if you do take up some good work that will please good God Almighty and we will also help you a lot if you want to help others who are struggling to raise their families. We will also help you a lot to pray and to make your good prayers more powerful because if you pray daily then we know your prayers. So many a times we do not have to arrange to have your prayers be carried to the good angels, the good angels may themselves receive these good prayers. So your prayers do get powerful every time you say them and pray them. So please do pray regularly. Once we see this happening we do our best to keep on giving good thoughts to these people so that those who are in link know more better ways of worshiping God. So when these souls use their good mechanism of communicating with the Spirit World, stronger good vibrations get created so now we are able to give our good thoughts more easily. So once someone is able to get good messages then this person is now able to use the link correctly all the time and then there is no need to ask for re-linking. Re-linking is only for those who do not get good thoughts of ours. Still we do want that this mechanism is used correctly and that it is in good order. So if someone does not sit to pray then it is good that this link is checked. So please do get this link checked if you do not get the good thoughts, so anyone having some doubts should get their links checked. So please do not give praying many breaks than that are really necessary. So please pray and communicate once every week. Please do not break the link for longer period of time. This causes a lot of inconvenience to us and do sit for your praying sessions everyday if possible.

Question: People do have faith in God, but why is it the wish of heavens that God's messages spread to the people of the earth? Those who are aware too do not follow the rules that they are aware of.

Answer: Please do remember that God is very powerful, so His messages must reach people of the earth, whether they are people of good respect or whether

they do not respect the power of our good God Almighty. So we also have some of our very selected good angels who are on earth all the time, teaching people some good ways of God. So please do remember, those who are fortunate, are close to these good angels and they do keep on asking them, so that their good knowledge of Spirit World always keeps on growing all the time. The reason why all should know about the existence of God is for the good reason, that after the souls return to the heavens, all souls start complaining that they were not properly guided. But the true and real fact is that all souls on earth are given some means to learn about good God's existence and about God's laws and also God's ways. But it is only after knowing this, some souls do go into some bad ways of more of the evil side and stop listening to those who are trying their best to teach some of the God's ways, and it is not that these souls turn away from God because they do not feel His presence or the presence of His good angels, but these souls only turn away because they want to make their lives more easy. So they find that most of the ways of the evil world not only to be more easy but also more enjoyable. So they start to over-indulge and they stop listening to their inner voice, and once someone starts to willingly stop listening to their inner voice, which is truly some voice of their own guardian angels or their spirit guides or some souls who want to help them, then this not only is a waste of everyone's time to talk to such souls but it is also some insult which most of us are not easily willing to take. So please remember that at some point we then have to stop guiding such souls and we also stop to do our best if these souls really become bad. But such cases are rare because generally spirit guides are those who are very interested in the progress of such souls. So they do try all their very best to see that they do try to be on God's ways and only if some souls do spread some words which may make other good souls think that God may not exist, then that really becomes an insult that we cannot take. But still, we all the time want to protect good people. So please remember that praying is the best way to get the good protection of our dear good God Almighty. If people are not aware of good God Almighty then how can people be spiritually active and how else can they spread good vibrations? Still it is those only very few who are always very important, who pray, and then listen to what is being told to them. Soon people will be absolutely sure of good God's existence and through some more good information and through some good messages of God, people will put all their doubts on one side and then live only in the good way that is planned by God's angels to carry out God's wishes. So please do your best to do what is told to you.

Question: We are told that we come with a plan. Can you please let us know what are the details discussed when such plans are made? Do you also discuss our expected return to heavens?

Answer: We plan all souls to have some good progressive life on earth, as we would like all of you to have life full of good pleasure and good dignity. We plan out how you may achieve this. So, all of you must know that life of pleasure and dignity is something very different to what most of you would wish; meaning, that life of pleasure means to do things that you like and do those things only if you want them to do. So please do not mix this idea up with life doing nothing or life of having only fun. Then comes the life of dignity too. So all of you must strive to

do only what is right and you all should support only those who would like to do something in the way that is real, so to be correct and right. If you do not do these in the ways of God and if you try to do something else and cover up your true intentions, then you do not do those good things in a dignified way even if these acts do help lot of good people of the earth. So all should do only what they like and what they would want to do in some very right and straight way, so that no one fears them and so that they fear no one, and by fear I do not mean to be afraid, but what I mean is that people do not do things that are more different with their good intentions, because if the good intentions are different to what they are actually doing then there will be a good tendency to cover up the good actual intentions and when this happens it is the sign of fear. So someone who is not really afraid to do what is right and what is good, does not try to cover up anything. So a person who does not cover up something is not afraid. This is the first part of all our plans that we discuss with you before you take a good rebirth. Then we try to teach you to remember to listen to your inner voice and all of you know this as your conscience. So even though you may forget that this was discussed, still, all have heard of conscience, which is only to listen to your good inner voices. So you see, people who do listen a lot to their conscience, do good, and are good, and if they then develop the art of then being able to listen to their inner voices, then these people progress more and they are more good and they remain good for all the term of their lives. After this, we then explain to you what will be your main duties, whether you would like to be in some close family ways or some diverse family ways. Those in close family ways remain close for longer part of their lives and those who want to live in diverse family ways do live lives of warriors or soldiers or adventurers. So, though they love their families a lot, they may not be very closely attached to them over some longer period of times. So, these people do not have any soul mates and they are not there to support their families on every possible occasion. After that, we make plans to teach good ways of living their lives in the good manner that is planned so far. We may give them some good memories of few options to get these souls back on some good ways if they did cause some slips and slipped into some ways that are not good. So if some do get attracted to some bad ways then we do give these souls some ways of understanding, that what they are doing is not liked by us or some good people of the earth. If they then do not recognise this, then it may get too late for them to be on good ways. So then we plan to let them know that when they are made to look at these warning signs and they will feel their wrong doings within themselves, so if they then ignore these warning signs, then we do not help any further because we then know that now this is the choice of this soul. So please do try to listen to your inner voice. We all the while, make all the efforts, to do our very best to help all the good souls and we also help some bad souls, only if they are so deserving, because bad souls may need a lot of our good vibrations and our resources get used up a lot. So we do try our very best but if some souls do create some point where only our good energies and good vibrations are getting wasted, then we have no options left than to stop wasting our energies, so we do then try to help such souls on someone else's prayers. But still the situation remains exactly the same. But if it helps to comfort the person praying such prayers then we do then try to comfort such prayers. So good people please do

be good, this is the only extent to which we plan. We do have normal lives planned in our plan. What we may not like to tell anyone is ways of passing on after the individual term on earth, still we do give some hints to some very few who are very close to God. So many do even control themselves to arrive exactly at the precise moment that good God would like them to be with Him and sometimes God changes this too, if for some reason God decides to invite someone for some new reason, then God may ask for this soul to then come maybe a bit earlier or even later. So you see, very few will only understand when the actual time of recall comes. So these are our ways of planning and after that everything else is up to you. We can only push you to think good thoughts and nothing more unless to carry out God's order or His wishes.

Question: How do souls travel? What types of vehicles do you use?

Answer: All our travels are energy based, so we do not have some vehicles to sit in and travel. Still we do need some sort of different energies, which may make our travels possible in the ways we do. So you please do not think of our travel as some physical travel as you do. So we do not need to move from where we are so we can be at many different places at same time. So please do not think a lot on this for it will only confuse you more. You see your physical distance needs more harder ways of travel and we have no need to move as some atoms or some particles because we ourselves are some form of very strong energy, which in turn controls and guides many other forms of energies, that is found in some physical ways as well as some non-physical ways, like some particular sort of music or some energy that is found in many different ways. And one of the most useful energies found is in some good fire of yours. So we utilise such good energies from such fires and we can also use such good energies from the good energy of your thoughts, as some more new way. So do understand why we ask you to be in good thoughts all the time. Good thoughts are of good peace and help to others. So good thoughts can make you feel satisfied and happy, so these in turn are some effective good, good vibrations. So please do believe, that all these are very important to us, so that we can progress more with God's newer plans. There is a lot to do and for doing all that God wants, we need a lot of good energy. So we all do not want to waste any of these that we already have and this is so very important because new good vibrations are so less, and one of the good reasons why we ask you not to go out at nights is only so that we can preserve all the good energy and not waste our good resources. So please do not go out alone at nights as far as possible and particularly those who we need to protect. More so all those who are doing God's work and all those who expect to do God's work and all those who are willing to do God's work, please do not go out at nights and please surely do not go out alone so that you all remain well protected only in your good house.

Question: Do you test us? If yes, how would you test us?

Answer: Why should we take any test of yours? You have to test yourselves when faced with some situation you should think and decide what you want to do. You should ask yourselves whether you would like to do as per God's ways and do what God would like, or whether you would like to do what you think is practical

and do what you feel like, even if you are certain that, that may be not as per God's liking. So do remember, that you have to learn for yourself where you stand and you have also to give yourself some score and know how faithful you can be to God's laws and His ways. So please do so and test yourselves. We do not test you but know that we do keep a close watch on you. Please do remember that those who are getting closer and closer to God are being watched over more and more by us, so please do be on God's ways so that you yourself be good and pass all the tests that you may think are being put to you.

Question: What is the difference between the work of good messengers and prophets?

Answer: Do remember that even some good people who receive some good messages only for helping some good people of the earth are called the good messengers. These good people will help their own families and their friends, and those needing help of the good Spirit World, and they will keep on getting some good ways of doing things for such good people. So good messengers will go to some good prophets when they get some good messages that they cannot understand, so they will pray some collective prayers to overcome some bad situations, so all good people are so helped. The prophets will be more closer to God and His good angels. The good prophets will guide and help all the good messengers. They will also be able to get greater help of the heavens if they pray some good prayer of help for others. Prophets will not, on their own, pray some prayers of some material comforts and never of any material gains for anyone. So they will be good guides to all the people so that they are guided as per the needs of the good people. So prophets will be those who will not give any meaning to the messages unless they are sure of the messages and for those meanings that they are not sure of, they may seek the good guidance of the good Spirit World. Some prophets may also be blessed with some different powers which may help people to be able to know and also understand the power of good Spirit World.

Question: When very small children fall sick, is it planned in the Spirit World?

Answer: Please know that nothing is of our doing if very small children especially those below five years of age do fall sick. But we can, and we do, only but comfort such small children who are sick. So even if they are sick we always remain with them and so do most of the souls who love them, do ask to be with them. So please do not think that this is any of the doings of the good Spirit World. Sometimes some good children are sickly if they are only born with some sickness which may then remain for their entire term, then only it is what was planned. So please do note such children who go to good parents are normally good, and if they do fall sick then please it is important for the parents of such children to be more good, so that more good vibrations can keep such children well. And if children above some good age do fall sick, and keep on falling sick, then in some cases this can be some good guiding ways of ours. So do not worry if some children do fall sick and are above the age of five years. Some of them need to settle along within their environment, so they may need some medical needs. So please do help such good children and keep all children well protected from all the evil and also pray some good protection prayers for all children, without any

exceptions. So all the good parents and their good families should pray some good prayers of protection for good children of the family and good parents should always be very good, so that the good children can also pick up only good habits of their good parents. So please do be very, very careful of the behaviour that you have in front of some children no matter how small these good children may be. So please, now no one do think of doing some bad acts or some bad words or some bad thoughts knowingly, only for the reality of thinking that small children do know nothing. Be assured, that it is from this point that all their knowing starts, so the point of not knowing can be only one and thereafter all the other points are in the good life of some children are that of knowing and nothing else but knowing. So all children do pick up your thoughts, so do know that at very small stage of life children pick up thoughts than what they do at the later stage in their lives and this is because no one will teach children the power of thoughts. So some good children now instead of making this good ability grow to be made stronger actually lose this ability over some period of time. So please do be good parents of good children and be very good all the time. It is less important to be good after the children have grown because they will also then make good choices of their own but it is very important for all parents to be good when children are actually very small.

Question: Would very powerful prophets to whom we pray be still in the Spirit World to grant our prayers because we do pray to them all the time?

Answer: Please do share this thought very carefully with only whom you can really trust. So please do remember if you are talking of some prophets of power of a thousand prophets on earth and if you are talking of prophets of prophets who are sent by God, then all of such prophets are on the earth at any given time in the past and in the present and as well as in the future. So these good prophets will live some simple lives on earth and some may complete their entire term on earth and still, no one, including some good prophets themselves, may know that they have this power. So if God wants some new ways to be then these good prophets are told of their work, so at that point of time will His good prophets start to give their own real vibrations that they do possess. Please do not think that there ever is any time when such good powerful prophets do not walk on the earth, but some few others are planned well in advance and then sent on earth. So these good prophets make some different impression on the people of the earth because their work is different. So do pray only to God, so those prayers that need to go to such prophets do keep on going. These prophets may not even be where you would like to expect them to be. They may be in some different universe still some prayers prayed to them will go to them and that too very fast, and then this will again be directed to those good angels who are in some good working team of theirs, and these angels will then do what needs to be then done with such prayers. So, please do not pray to such good prophets. So, that is why we say only pray to good Almighty God.

Question: What is the difference between receiving God's love and God's blessings?

Answer: When we talk of God's love we do mean some acknowledgement to some good prayers so God is happy with the person who prayed a prayer and God is happy for the good, good prayer that was prayed and so God is now asking some of His angels to let this person feel His presence more than this person did, much before this person prayed these prayers. So now this good person is said to have received God's love. You do know that those prayers thanking only good Almighty God may please good Almighty God. So now, people who do say such prayers, do get closer to God because those who get more and more of God's love do keep on getting closer and closer to good God Almighty. So these prayers are said to be the prayers of high order. So please pray more such good prayers if you want to get closer and closer to God. Dear good God's good blessings would mean that God wants some prayers of a prayer to be now granted. So when someone is blessed for some good prayer that the prayer said, then this person is blessed by the good God's angels, and some do get the good blessings of dear God Himself. So those who get such blessings get their wishes answered or some prayers that some people said. So do now remember that some prayers do not reach God yet some of these get granted by lord of the heavens or some good God's angels and these too are said to be granted with good God's blessings. So these prayers now can be those of help or of comforts. So do know the two differences between God's love and God's blessings.

Do know that what we have discussed about some good help. Good help is to be given to only those who ask for help and need and deserve it. So, help those who are now on God's ways. If they do want to know more about God's ways and if these people want to practise good ways, or if these good people do want to do a few things for which they may need some guidance, then these people do need to be helped in some good manner of doing some things, and if they do really want to be so helped. But some do have to be guided and some do need to know of the good God's love and all that He wants people to do. For those who do not know few things or for those who do not know anything at all, then some good guidance is a must. So, these people must be guided by those who are in some good position to guide. So, please do remember that a very good person needs to be guided into God's kingdom step by step. So, please do leave these matters with good prophets to do this in some very good manner of the heavens. So, those who are not at all aware of God's existence and those who do not know all the ways of God are to be guided by some good prophets. So please do this now all you good prophets.

Please do remember what I told you about some good prophets and what they do and who are called good prophets. All prophets are close to God and they get all their biddings through God's own good angels. So as I told you earlier that at any given time there are some good prophets leading some good life on earth and some do not get to know even after their term on earth that they were prophets and neither do their family members or their very close friends. These prophets are known as good prophets of good helpers of God because these prophets are there only if God's good angels need help. So their mission may only start once

some good help is required by the heavens to work something on earth. Some prophets are sent with some specific work before any powerful prophet is sent on earth. People have to be made aware of the arrival of such a good prophet so that this prophet is well welcomed, and so that this prophet can start the work that the prophet is sent for as fast as possible, so that no time of the prophet is wasted. As you know this is the last time that God has planned for His own prophet to be sent to earth. So as God has planned it is not very important for the people of the earth to know who this prophet is. What is important is that God's plan now be put into practice as fast and as smoothly as possible, so now this prophet may form many groups or address many groups and this good prophet will also appoint many other prophets by the power given by God Almighty Himself for putting all the good plans together. Now God will do all that can be done to make more prophets spread the New-religion in some manner that the world has never seen. After all that is planned is done then all can peacefully live on earth as one people and under one New-religion. This may take some time but this needs to happen very fast. Now we would be happy if people started to practise New-religion from this moment itself and we do know that this cannot happen, so what I say is, that all good prophets will now have to put all the efforts to achieve this, and God will protect all those who get involved to spread the good New-religion and God will provide some special angels to such people, so that these people are properly guided to say all that is required to be said and without some fear of some arguing of some different thoughts. This is the only way that people can be at peace and love one another. This is the last time that God will send His own good prophet. So do know that there can be no change to this, so if some peace can come on earth forever then this is the only way. So do remember all good angels of the heavens have all approved this. All have now to concentrate to be good, do good, and remain good, for all time to come. So please all good people do your best and put on your thinking cap and start to make your decisions as fast as possible.

Question: Can we pray protection prayers, asking for someone else to be protected?

Answer: First of all, all should say some good protection prayer for all in their family and for all in one's good knowledge who cannot pray. So if someone in the family is very small in age and is not able to pray for one's own self, or if someone is very sick or if someone is in some mental shock or if someone is in some state of mind where one cannot think for one's own self then people should pray some protection prayers for such people. But if someone is in some position to pray for one's own self but chooses not to pray, then we are not in some position to grant protection by someone else's prayer. Even though, anyone can pray for anyone. So please do understand that if someone is aware of the good ways and then cannot pray on choice of one's own because this person is busy doing some worldly work and so this person does not have the required time or opportunity to say the prayers and then if this person then requests his family members or his friends to say some protection prayers very regularly for this person then please understand that we do listen to such good prayers. But do not pray for those who

can pray but just do not choose to pray. They soon will have to learn of God's ways so we cannot then be of help there.

Question: Do you show yourselves to some people?

Answer: Please do not get into such discussions and please let all believe what they individually believe. So, if we show ourselves to someone then it is only for that person to decide what to say and it is then entirely for those listening to accept what is told.

Question: In one of your write-ups you have mentioned, "... pray to God, Almighty God, or God Almighty only and no one else...". What is the difference between these?

Answer: Please do remember that there are three levels of the ways in the good manner that people do accept good existence of God. So we do first want people to accept the existence of God. Then we do want people to be made aware that God is almighty, so we say Almighty God and then we want to make people accept God as the most supreme so we then refer our dear good God as God Almighty, so no one can be above Him, ever.

Question: Are there different kinds of good and bad vibrations?

Answer: Not only are there different levels of good and bad vibrations, but there are also different forms of these vibrations which work in some very different ways. So there can be some good vibrations which do destroy some bad ones and then these get reduced themselves or do get destroyed too, if the bad ones do over power them. And then there can be good vibrations that cannot be destroyed by the evil forces and these vibrations do remain in the heavens only all the time and these get protected and are always kept as powerful forces to fight evil or bad vibrations.

Question: Sometimes the spirit guides do not identify themselves to those with whom they auto-write. Why is this so?

Answer: At times some good spirits of the *good people's help* do guide some and so these guides do change at times because these people do not have some one particular soul guiding them all the time. At times if this particular person does all that is told by such guides then these guides get attached to these people and they keep on guiding them and helping them. So they do not identify themselves because the person would not know them. So no one is benefited and also there is no way of even making this person know who this spirit guide is because this spirit guide is not known to this person. So they identify themselves only as their spirit guides because they only keep on guiding them from the Spirit World.

We have only one name in the heavens and these do not ever change each time we take a rebirth. That is a reason why we ask you of some earthly names during some period of time that the particular soul was on earth, and then we may change our names in the heavens only if God wishes us to and He only wishes this,

when we are on some special mission that so requires this, and this is when we go to some other universes to do some specific work. So, these names are then extended to the original names to make our names longer. For example, if I am known as Meher, then my name can be made as Meherabad and once we finish our mission we revert back to our own name that is Meher in this example.

As you know that God Almighty is the highest supreme force, so we do have more gods who God Almighty have chosen from His good team of good angels and then have given these good angels some absolute powers. So they now only report some few things if necessary and they do not take any prayers to God. So these good angels are called gods because of this good power that God Almighty have trusted them with. These gods have some good angels on their team who refer any prayers to them and not to God Almighty. So these angels can also be called children of gods or sons of gods as they only in turn report to these gods. These angels may call each other brothers or sisters too.

Question: What is the difference between the Halo and Aura?

Answer: Do know the good halo of those doing God's work is called halo because they are in some position to give readings from the light of God through their angels to pass these to the good people of the earth. This is again different from giving messages of the heavens. Aura is something that all have in the form of vibrations.

Question: Do all souls go straight to heavens or do they sometimes go to some other parts of the world before reaching heavens?

Answer: Good souls do come straight to our good resting place with their good guardian angel or some other angels but sometimes when a soul is very attached to someone or if a good soul has been away from a loved one for a long time and could not meet the loved soul before passing, then this soul goes to the loved one even though in different part of the earth; but this is not a good way. In few cases, it can also happen that if the good souls get separated from the guardian angel, this may happen. It can also happen if this soul is more powerful than the guardian angel but in any case this is not considered to be the good ways of the good Spirit World.

Question: Is there only one Spirit World?

Answer: All souls do remain in the good Spirit World who are good so no soul is in some other place who is a good soul so please do know that all souls are not the only ones that go to be in the Spirit World or on earth and all souls do want to come only to earth to progress because it is very beautiful, but souls are in other parts of the universes and in some more different dimensions too. So do know that many good souls that are more powerful are also sent by our dear good God Almighty so that they may then also keep some good watch over the good parts of the good universes under the control of good God Almighty. Please do know that though the good Spirit World is one, the souls may visit many places of choice in the different parts of good God's universes, and also in some different dimensions to progress and to get more good energies to good God Almighty.

Question: Do souls also progress in the other parts of the universes?

Answer: Yes, all souls do progress in some other parts too, but the progress on earth is the fastest and earth is liked by all in the good Spirit World, so more good souls do want to visit earth. So now we want that all good souls visiting earth do so with more powerful and good vibrations, so now it is very important for all that the good earth is now free from all bad and evil vibrations.

Question: Are there any other souls similar to human souls that could be higher than human souls?

Answer: Please do know that the highest soul is a good human soul which do come to progress on earth. Once these souls progress to the level when they do not come to earth to progress, then these souls are then categorised differently to those good souls that want to come again and again to earth. So these souls then go to some better places where good human souls cannot go. There are some places where only good, good angels or God's good angels are there. So these good human souls when they get more power are categorised differently, but these good souls are called good human souls.

Question: What other forces are there?

Answer: Please do know that many forces exist, that are in good as well as the evil Spirit World. Those in good Spirit World are good forces. These forces are needed to be able to do some work, so all of us then look out for these and these good forces are like good souls. So they also sometimes are some independent ones and so whenever we need some help, we ask these forces to join us to do some work. Even though these forces do not work against good God's wishes, we always ask these forces to join us when some good work needs to be done. These forces are the ones that also have God's permission to travel all over good God's kingdom. These forces do not act in ways that are not liked by someone in the good Spirit World. These forces are independent for the reason that God has allowed these forces to be on their own because these forces are fine and do not in some way or the other cause any bad vibrations.

Question: What exactly happens as we take up links with the good Spirit World?

Answer: First rule is that the person asking for link should be positive that we do communicate this way. It is then only that there can be some positive communication. So if a person takes up a link only to see if we can and to see if we do communicate this way, then the soul that this person communicates with in the good Spirit World cannot progress and then this leads to being only a waste time for this good soul, because the person communicating is in doubts. Please do take links for communication after you are sure that we do communicate from the good Spirit World this way. Please do know that when someone is blessed with a good link, then this person should ask good angels to help them, to help more good people, so that more good people are helped. It is also very important that those asking for links and those taking up links should promise to themselves to be good, so that they can make others good, because if they do not want to be good, and if they do not try their best to be good, then these will cause more bad

vibrations to be passed on to us. So it is important to be good and help others to be good, and those who do this are always blessed. We also many a times increase their steps in their own individual levels and then we guide more good people to these good people, so that many can be helped by these good people, so that then, they are even more blessed by their own angels as well as those angels of the good people who received such a help.

Question: What exactly are evil souls, evil spirits and evil forces?

Answer: All in the evil world are either evil souls or evil spirits. Those who have put their trust in the evil world are all evil souls. Those who have their homes in the evil Spirit World are all evil souls. The forces that show you the ways of the evil world, including the bad temptations, are the evil forces. Anything that attracts you to the evil ways or anything that causes you to think of some evil ways, or even if some not so good thoughts enter your good minds, for example, to go to some place to do some harm to some good person in some good ways that will bring about some sorrow to this person, is the action and reaction to the operation of some evil force. Also those who get attracted by the evil ways and keep on doing evil, being aware that what they are doing is evil or with the help of evil or evil forces are all evil souls. So please pray for protection against all these evils and evil forces.

Question: What is a soul's term on earth and what can be called an early recall?

Answer: Some souls come to earth with some plans and sometimes this plan is given some power by good God Almighty, so that most souls can do what they came on the earth to do. Those souls who come to earth with a plan are sent with a good protection so that these souls do not fall below the levels that they were on. This is slightly different from the good souls who want some good rebirth. These are slightly different because the plan is not discussed with them at the time that this plan is made by some good angels or some angels as the case may be. And that they are allowed a rebirth under some strict conditions so that they are then told to go about in some certain way. These souls are sent with some good advice. These souls then do what they want and they may fall in the good levels than they were born at. So these souls have to be more careful. If any soul is sent by God Almighty Himself or any of His own good angels, then these souls do not have to worry more because they are sent with a lot of spiritual awareness and these souls have many angels who keep on talking to them. So, some of these souls can have as many as ten good angels speaking to them. Therefore, these souls do make good choices because these souls have more power of receiving the good thoughts of the angels who are speaking to them. Many other things are planned for these souls, so when these souls need any worldly help, they get it more easily because all the good angels of many other souls listen to the good advices of the angels of this particular soul. Those souls that have discussed a plan with the good angels before taking a rebirth are protected a little more, so they do not have the right of asking their term on earth during the discussion. So it is originally planned and this is also explained before they leave the good heavens. For most of the souls more stress is given to what they want in their lives. So if they have

progressed well and if they still like to enjoy the good life on the earth, they may do so and if they start to face some hardships and if they are not very happy and if they have started to fall even slightly in their levels then we do recall these souls, but this cannot be called an early recall. Where on the other hand if some soul is falling in the good levels at the very start of their plan and if they cannot start their plan or if they do start their plan but then they find that they then cannot go on with their own plans for many good reasons, including something not being in their control; for example, if they wanted to be near some soul for some reasons, but this soul for some reason does not remain on earth and passes on to the Spirit World then this soul too can be recalled and this can be called an early recall.

Please do tell good people of the earth that God loves all those who are good, so please let all know about this. Please help all to be as good as they possibly can. Being on the good path of our dear good Almighty God is very important for all, but you people on earth can find this very hard to be. So please ask all to do all their very best to be on God's path and the easiest way to do this easily is by doing the right things in the right way and after that by being fair to all and to have fair good opinions of all so that all can be made to treat all others very fairly. And this can only be achieved by loving some good people so that this love only can make you treat all in fairness. Once all start to be fair to each other then all will then be fair to each other. Then there will be no more room for the evil to exist. Once this is achieved, then the world will be a very good place to be in and all those who have some good things of some good product or of good thoughts will make life better for more as they may start to learn to share all these. Please be good so that all of you can always be on the good God's path. Please know that once you are on the good God's path, then it will soon become very hard for any of you to be on some path that is not a right one and this will be more than enough to start the process to make the world a better place. The sooner more people are on good God's path, the sooner the New-religion can start on your good earth. So please more and more good people come on this good path. This is very easy and surely easier than what you are thinking to be because actually no one wants to be cheated, so no one actually wants to cheat. So all fear within themselves and want to be on the correct path and all do want to do the correct things. But it is the only very few who are using few distractions and many are losing their own focus and are getting distracted. So people should know, not to get distracted. And people should learn how not to get easily distracted by the wrong doings of a few and understand the seriousness of these distractions. So only if more and more people try all their best only to concentrate on being good and if all decide that under no circumstances will they themselves do anything that is not right, then the process of remaining good starts? It is easy to become good but is hard to remain good. As on today it is practically impossible for all good souls to remain good for longer periods of time. Now all should learn to try remaining good for longer periods of time. There are very, very few good souls who are at some good levels who are very good and can remain good for very long period of time.

Question: In future will any of the souls be in a position to progress in such manner that the soul can go directly to the new universe from the earth?

Answer: All will be able to go to the good new universe once the earth is free of all the evil. Then it will be possible for good souls to take birth or in some other way visit earth and whilst this is going to be possible, it will also be possible to travel between the levels with the permission of God Almighty or lord Aman. If some soul has this permission of God Almighty or lord Aman then they may even visit souls in the new universe and that can be made possible by wearing some protection gears. These kinds of visits will be very short ones and they will have to leave the new universe at the precise time they were told to leave and there will be no relaxations to this rule. Some souls may be allowed to visit the new universe and they may have some permission for visits of a longer period of time but these too can never be extended. But on the other hand this time can be reduced at any time and these souls will have to leave the new universe without any arguments. Even some souls who can go to the new universe directly from the earth, in future, will have to make a small stop in the *Hall of Rest*, which is where it presently is.

Question: Please let us know a bit more about the working of diva, particularly with regards to oil getting dark.

Answer: Working of Diva: A good diva will always give good vibrations and good protection all around and it is free from all the good bad vibrations. So when there are some evil forces around then what happens is that the evil starts to harm the good angels of the diva. So the oil starts to get dark and what then happens is that we then do not get the good energy that we may need, and at the point that the good energy finishes. What we do is overturn the firki (float) since there is no energy left in the diva, so that you know that it is now a good requirement to get a diva going so that we may then be able to give you the good protection that you need. Then we would not like you to re-use the firkis (floats) because the evil vibrations do not go away from them easily that is why we ask you to throw away the firkis (floats) as well as the glass. But evil vibrations do go away from the glass but after a very long time. So we ask you not to use them for at least one year or so what is needed is some good diva. So that is the reason you should have another diva going when one goes out or when the oil starts to get dark.

Question: We are told we should not cry for those who have passed on - why?

Answer: Please do know that crying is not a good way for someone to greet. So please know that there is nothing wrong with some crying, but what is wrong is the crying for some good soul who have passed away and this is only because if sometimes if this soul is not at a very good level, then this soul may seek a rebirth only for the reason of being close to the one that is crying and longing for this soul, and this may not solve or be of purpose at all. So if this soul is now reborn you may still not get the comfort that you are seeking. Also know that the best way is to think only of this good soul, so that after some period of time this soul knows, that you are crying only with some good intentions and not crying for wanting this soul to be with you. But let the soul know to wait for you till you can meet again in the heavens. This reasoning cannot be understood, if you cry, by some souls who are not at a good level in the heavens. So do ask people not to cry and if they cannot control their feelings then please ask them to put also in their feelings to be happy for the time till they meet in the heavens. Also do know that if someone

has passed away who may not be of the good group of souls then please do not cry. This can create problems at both ends and if for any reason this group soul takes a rebirth in another group of souls, then once again both will not stand to be comforted. Therefore, the best way is to refrain from any crying and instead take up praying that this soul and you, with each other's help, may progress.

Question: Will protection prayers be needed in the future after the world is rid of all the evil?

Answer: Please do know exactly what a good protection prayer does. When a good protection prayer is said, it asks God that you will always be in need of His good help. So one aspect of the protection prayer is, that you are asking for God's good help only, and that you do not welcome any good help of any other source that is willing to give you some good help. So please do know that though there may not be any evil lurking around, you may be needed to say this prayer, so that the evil is not only kept away but also that the evil is now made aware that it is no longer required to be close to you now. Living in peace on earth is the way, so the meaning of protection will then change a bit. So please do know that the protection prayers of the good earth will change slightly. So the protection prayers that you say now may no longer be required but still these will be needed in different ways. Protection prayers will be needed as long as God's help is needed and nothing can be achieved without His help.

Question: Why are angels depicted with wings?

Answer: Angels travel a bit differently than the other good souls of the good Spirit World. So please know that the wings only mean, that these have some good power of travel over what the other good souls do, and they can go to some places without taking God's permission all the time so that once a permission is granted to enter some places of the universe, then we can keep on travelling without additional powers that some other good souls may need. These are the two differences and reasons for wings on angels.

Question: Where are the animal souls in the heavens?

Answer: You see sometimes animal souls also can be quite close to some human souls, so some souls may miss the company of some good animal souls. When we see this, we do go to a good angel of good God Almighty and send these good animal souls to be close to the good souls who miss them a lot. Also do know that sometimes some animal souls too miss the company of some human souls, so we do try our best to see that these two souls can also feel some good vibrations of each other, and wherever we can, we do try our best that they remain close to each other as much as they can. Sometimes they also try to help each other, so they may also sometimes be able to cause some good progress of some good humans. All good animal souls want to be in some different place in the good Spirit World, so their place is lot different than those animal souls that are not of the good Spirit World. So if some animal soul is close to some human soul in the good Spirit World then they are allowed to meet them without some permission.

So they may, if they want to meet only the good human souls of the good Spirit World. But if some human soul wants some animal soul to be with them then permission is required but it has always been granted so far and animal souls can go to any levels and be there for long periods of time too in the good Spirit World.

Question: What will the places of worships be called in the New-religion?

Answer: We do not want any specific places to be the places of worship in the New-religion. So anyone, meeting anyone to talk of God and His ways or to get some more information that they get, will be the good way of being called as Almighty God being worshiped. So being in some good thoughts of God and then also discussing some information that is given and discussing your doubts is going to be called the good way of worshiping God. So please do this so that the knowledge spreads and so that more thoughts are put by many good people. So any place where you pray or be in thoughts of God and His ways or discuss any information that is received from the heavens can be called a good place of worship.

Question: Why do we not have any prayers for animal souls or souls that are sent in the animal kingdom?

Answer: Please do know so that there is no more confusion on this. As I told you, pets or all of the animal kingdom are only for the support for the human souls. So please do not worry about the suffering of the pets because they only suffer physically and this is their way of being. So please do know that though the good animals do sometimes suffer physically, they also have the spiritual way of not falling in their own spiritual being. So if some souls are sent in the animal kingdom they too may rise spiritually but not fall. So please think that they do need some good prayers. So just like with humans too, those who are there who can give them physical comforts, do get all the good physical comforts and for those who cannot, do not get any physical comforts. So please do keep your pets in some good comforts if you can, but please do not worry about those who cannot get some comforts for those souls of the animal kingdom in the ways the good human souls get and also do remember that we do help all the souls of the animal kingdom too.

Please know the good Spirit World is some common place for all the good souls to be. So please do know that souls can be in the same place of the good Spirit World, so some souls who are not very good, need to progress. So they are in some another part of the Spirit World, so they make their own preparations. So now in different ways they are taught some more different things so that they have their own place where they can now progress all the vibrations that they have, so they can take some time that they do need. These souls can be kept shielded so that they may move around in the Spirit World only. So if a soul in the Spirit World wants to meet another soul who is at a higher level then they first need to take the permission of this good soul that they want to meet and also of those who are in charge of their own levels.

Question: What is the significance of fire on the stick, which is next to the wordings "Aman of all the Religions"?

Answer: Please do know that God has declared fire to be the good source of all good energies. So God has given this good logo Himself, so that it can now always be in front of all those who can read the good book of Aman, so that all know that fire needs to be respected, so more good thoughts can be put to learn in depth of what sort of energies can be found in the good fire, so more ways of utilising the good energies can be made known to all the people of the good earth.

Question: How will all be good on earth eventually?

Answer: Now please remember that all good people do have to be good first, so more good can be done and people can do good only when they do live in peace with one another. So the first thing one should do is to learn to live in peace and harmony so that no evil can get near those who are good, and once this starts to happen then all can get good answers for all, including all past lives. Now, there will be no more memory of the past. There will be no way for anyone to know why they are visiting earth. So, do remember that if there was no good reason then no one would be here. So, now to get the good answers, all that some good people have to do is follow the good teachings of God and they can do this by listening to what the good people want to say, and what they say should be what they learn from more other good people who got all the good information from the heavens. So, when all the people are good and when they fully understand the ways of God, so that they can truly live in peace and harmony, then they will be able to live easily with the good souls of the good Spirit World. And at that point of time, no one will be in any doubt to know that they have come to earth to progress or that some have come to progress more good people of the earth and that some have been sent by good God Almighty to keep some good order in maintaining the good vibrations in trying to keep good vibrations in some good order.

There are more than one dimensions for the good soul to be in. So, remember that the laws of physics may be totally different to those that you all now do know of, so that a good dimension is also a good place to be in, in some very different ways. So, now if you have been in some good place and then you move far away and when you think of this good place from far away place, what you are doing is going to that place in some way that you can remember. But you cannot go there physically, so that is one way of going to those places in some different time. So, now you go back to this place only in the time zone that you were already there and not in the present time zone. So, you do not go into the dimension if you can go to the same place in your present time zone. But if you can go to that place in different time zones then you can say that you have left your dimension. Some powerful souls of the heavens may be able to do this and also they may be able to travel to places where they have never visited before so they do make good progress. Some other good angels who may do that kind of travel, are those very powerful angels and most of these good angels do have permissions to travel across good universes of God so these angels do need to be guided most of the times. So, they have to be put under the guidance of some very powerful angels

and so these angels may then be referred to as gods and also because now they do command different powers to be able to guide such powerful angels so they do guide them very independently and they do give them all the guidance without further referring to any other good angels. They are known as gods but still they have to tell God Almighty without any other force in between so that they give God Almighty all the new information and all the new happenings so that nothing can be kept away from good God Almighty of whom you can get the knowledge of, only in the heavens.

Question: What are the effects of different fires - meaning that of wood, diva and candle?

Answer: Good source of fire means the way the fire is lit. This means that the fire should be lit with clean hands and preferably also with a clean body and also with a clean mind. Therefore, a prayer fire needs to be cleanly lit and without any thoughts in mind. Best way is to light the fire with a good protection prayer, this will give the fire some good source of energy as the fire gets blessed by God or any of His angels with this God or His angels do arrange for some good angels to be arranged to such good fire. This will give us some way to get good power when we need them. Please know that we may at times not need the power of the good fire for a longer time as long as good vibrations are there. Once some good place has developed good vibrations this way then please keep it good in the similar way so that no bad vibrations can be easily created or so that no evil would like to be near such a good place. Once a place is very good and free of evil or bad vibrations then this particular place may be also used for saying good prayers by someone who would like to pray in some place that is free of any sort of negativity. Best option for any home or any place on earth is that of a diva. A good diva is very simple way of warding off some of the worst evil or bad vibrations provided this diva has some good source of energy as explained. A diva done with a good protection prayer gives diva a good power in some ways that are very powerful and you will not understand how the good energies are needed and how it gives us the good power we need because these are the ways of working of the heavens and so these ways even if told to you will have no meaning to you and also there are many more things which are also similarly the good ways of the good heavens and these will not be understood by you people because you have not been given all the information of all the ways of the heavens. And there are many more ways by which people can make use of in evil ways. More new ways and energies will be made known to the good people of the earth and these can be given only as the people progress to be good or else like any other energies these powerful energies can also be put to some bad use and we all do not want that to happen. Soon you will be completely amazed with many types of energies that will soon be made known to the mankind. Faster the people become good, the faster these energies can be made available to some good people of the earth.

Question: Can smoking cause any effect on a person spiritually and is a person able to communicate well if a person is a smoker?

Answer: Good fire of a good source is a very powerful fire so please respect this. If you keep on causing fire which does not have some good source can in fact

attract some bad source and so if at the time the fire is lighted, there is some source of bad energies then this fire will not have the good energies but possibly the bad ones can get attracted. Those who do smoke may be able to communicate but these people can never communicate with some good angels that are of very high standing or these good people can never be able to receive any messages from God's own angels or from good God Almighty Himself. So please if anyone wants a good spiritual progress then smoking is one single important thing that will not allow further progress other than the soul that this good person is communicating with.

Question: Are all souls received in the heavens in the same way?

Answer: Some souls are sent to maintain some peace on earth or to spread God's messages. So, if these souls were sent to progress some other good souls, and if these souls have done the good work in the good way that was expected, then these good souls are received in a little different way. The main ones are the different ways in which these souls are received, and these do vary too. And so when these souls do arrive, they are received not only by the good loving souls of these souls and their relatives and friends, but also by some other good souls who are also allowed to receive these good souls. So, there will be large numbers of souls there to receive these souls, with a result that these souls, who have so arrived, get more good vibrations in the good Spirit World. So, sometimes, though very rare, such souls may rise a step or two in their levels. If some souls were sent by God Almighty or upon His suggestion or upon the suggestion of His own good angels or any other good angels and if these souls performed well to the best of their abilities, then these souls are received by some good God's angels or some other good angels. Therefore, these souls get even more good vibrations and in almost each and every case these souls then step up their levels except if they are already on the highest plane. Except for this all other procedures are the same and all have to go through the *Hall Of Rest* but these souls have to be in the *Hall Of Rest* for longer time so that they receive all the information. And if God Almighty gives the permission, then these souls may get some other information too, if requested by these souls.

Question: Who is allowed to pray in front of fire or in fire temples?

Answer: Good fire can destroy all negative vibrations. Those people who want all their negative vibrations to be destroyed should go to the place where a good fire is there. There can be no restriction with respect to who can and who cannot be near the good fire. All those who are clean in mind as well as body may come to these places that are free from all the negative vibrations. Everyone getting together this way can get their vibrations well aligned. All the people who accept this should be allowed to pray in front of the fire or else this could lead to a very great disrespect. So, only those with clean minds and body and only those who accept that the good fire can be the greatest source of good energies and only those who wish to be in the place where there are least of negative vibrations should get together and pray in front of the good fire that is started with some good source. No other distinction should be made as to which souls can pray in such a manner to good Almighty God.

Question: Why is the New-religion given to us now? Is it because all the religions have become so old that all are questioning the validity of the religions? For example, young Zoroastrians feel that the prayers that they are praying makes no sense to them, some young Christians who are black are saying, these days, that they will not bow to any white God. Some are challenging that it is not possible for Jesus to be a white person considering the region where he was born could not be a white one. Hindus are taking advantage by making many temples in odd place only to play on weak minds. Many similar examples can be given, so are these the reasons why the New-religion is now being introduced?

Answer: Along with these, the main one, is that these days some people pray for some good benefits and after that they are not thanking God or even accepting what they prayed for and granted was in fact granted by good God Almighty. Please do realise, by this, how bad the real situation is. Therefore, those who have accepted some good ways of the good God Almighty will be guided into some good ways so that they can now teach more good people to pray good prayers and also in some good ways that all in the heavens as well as on earth like so that prayers of all can now be granted and also so that now all can feel the presence of the good Spirit World and so that all know what to do in the exact manner that is to be done. Earlier the situations were different and the needs were different and you yourself would surely have noticed how well the whole of the good earth has now integrated to be a very small place because now anyone can talk to anyone and also now it is very easy to go to from one place on earth to some good place anywhere else that someone needs to go to. Therefore, it is absolutely a must for the world to be in some new way of behaving. It is absolutely necessary now for all to know of God's existence, without which, nothing may move forward. Therefore, people should now be taught to be able to communicate for themselves so that, not only, are they aware of the existence of the good Spirit World but also so they all may now be able to ask for some good help of the heavens all by themselves and also because then they are more sure now that they all are able to get the messages for themselves and so that now all are absolutely sure of the good existence of the good kingdom of God and so that this assurance can be helpful for all to now live in peace and harmony with each other. This way no one now can have even a slightest doubt of anyone being able to communicate or receive the good messages of the good makers of the good heavens so people do know that all, without any exceptions, should be able to train themselves to love as many as possible so that with love, all the evil can be destroyed. Where there is love, there is no place for the evil to be.

Question: What will happen to money after the shift and what will be the international values of each currency?

Answer: Please be aware that now some good way of the planned shift is then more newer ways than the bartering systems will come into place. Most of the wealth will be equally distributed so after the shift every person will be a good soul. All will join to take help of one another. This will bring about all good economics on some need basis. For this reason, nothing will be cornered at one place. If diamonds, gold or silver are required for some good industrial uses, then

these will be freely made available so there will not be any particular attachments to these. Many will give these up to make use of such goods for art-effects, so these will be made available for more of the industrial use in some more practical ways. This will lead to such a free trade that more value will then be put on commodities rather than finances. Financial institutions like insurance will flourish more than banks to give loans because people will not need loans because loans are burden to all. Also those who need things, those having more of them will pass these on very willingly. This will make more movement on the earth to be more free. Many places will produce plants for food and some other places will make wearing apparels and in this way people will now start to exchange goods. A good system will evolve in a system of barter to make some measures of the good use of accounts. Many may not even want to be paid in money anymore so money will be more in the form to be used as coupons to meet the daily needs rather than money that we now put in banks to make more investments or to earn interests. So one should not think of locking away money, gold, silver to be used after the shift. Leave everything to good God Almighty so that people are then blessed in some manner that they do not have unfulfilled worldly needs so all love very happily. Don't think that your bank balance will be of any use after the shift. For those who will survive there will be many who will be more rich but they will very willingly share everything they have till they may lose everything only so that they share with those who are really in more need of what they have. So any stock of any gold or silver will not help anyone anymore after the shift.

Question: What happens if someone casts evil vibrations on someone for no particular reason?

Answer: If a person is influenced by some evil creature and if the person is on God's path, still he may not be aware that it is necessary to say some protection prayer and he may not be saying it. If this person is in some good company and if someone does notice that this person is influenced by some evil creature then a small protection prayer is sufficient to break the spell. After this, this person should be informed and taught some more protection prayers so that no evil creature traps this person. This only happens if this person is not in some evil place to seek pleasure of the evils - only then this person can make free of all the representations of evil around. If a person is trapped when this person is in some evil place to draw the pleasures of the evil world, then this person is responsible for all that there is. This person can get help if this person now prays very sincerely and if there are some good angels who are willing and also free to help this good soul. If a person is bombarded with evil vibrations by someone from the evil world, reason being to give this person evil vibrations with evil motives, then we will be very willing to give this person some good protection, but only if this person asks for it. If this person is not aware of God's ways, or if this person is not in a position to ask for some protection, then someone who is aware of this should pray for this person; and sooner the better. So please do your very best and keep on teaching people the importance of praying a good protection prayer. Even a very simple protection prayer will always set about a person a very good protection against evil.

Question: Do we all need to pray?

Answer: You all need to keep on asking for heavens help for almost everything and so all have prayed for something or the other. Even those who do not willingly accept the good existence of God have asked for heavens help through their own spirit guides. So even though they may say that they do not accept the good existence of God, yet these good people have made more effort to learn whether God really exists. And answer is reserved for only those in the good Spirit World and so these good people do not ever get a good answer to their good question and they have their own wishes and these are carried by those who carry good prayers. So, those who do not pray for themselves are those who are generally sent by God Almighty and so they pray only for others but not for themselves. So, some who have asked all that they needed sometimes do stop praying for themselves and they pray only for others and they pray for other good souls. These souls need to make it known, that they will now not pray for themselves and once they have made this known to us, then we stop answering their prayers even if they do pray from that point onwards. Only those prayers that are prayed for others are carried on to us to and if at all they pray for themselves then their time is wasted so all should pray to us for all the help that is needed.

Question: Who can be called the followers of the New-religion?

Answer: The good people who can tolerate the teachings of the good book of Aman Of All The Religions are those who have accepted the good New-religion. Those people who have started to do what the good book says are those who are the followers of the good New-religion. Those followers who keep on doing what the good book says are the supporters of Aman. And those who have done everything that the good book says are no longer the good people of the earth but are the good souls of the heavens.

EXPLANATIONS OF TERMS:

GOD is a good word for all to say when they need any good vibrations. So every time you say the word 'God' it gives you some good vibrations. This is the reason why the word 'God' appears so many times in the prayers and you may say this word in your mind or aloud and either way it will give you good vibrations.

Good vibrations are needed to keep the evil away from the prayer. So if a prayer prays a prayer without asking for God's protection then too the prayers and the prayer will be protected because God' angels take care of this to a good extent. So please start all prayers after thinking of God Almighty. If you first say the prayer of good protection, then start to pray the prayer, that is the best way for getting good vibrations and ensuring that the prayers reach God safely.

Definitions:

Love - When we use the word love we mean pure good vibrations. So please do not think that love has anything to do physically not even a hug or a cuddle. So when we ask you to love someone it means that you should combine your good vibrations with their good vibrations. So, if someone helps someone good vibrations are created. When you do any of God's work or if you do anything in the name of God, then you create very good vibrations. So, when you pray you create good vibrations. Therefore when you pray you have to be very clean in all respects. So, if you do not feel clean for any reason then do not pray good prayers but only pray prayers of protection and prayers of help? So please try to be clean at all times. So, as soon as you get a feeling that you are not clean then do make yourself clean - that will help you. If you are disturbed about something then only pray the prayers of help and do not pray all your daily prayers except only of the set that you like the best. It is very important to keep something of fire when you pray. So, if you have a diva or even an agarbatti (incense stick) is very good rather than having nothing at all and if you are out some place where you feel very much like praying and if you are outside and if you feel like praying then have an image of flame in your mind. Do this when you are praying and see the difference in the power of the prayers that you will now pray.

God's work - God's work is any work that God wants done and God may give this work to anyone even sometimes without that person knowing. So if someone does something in God's name or if someone is doing something that plenty of good people of the earth stand to benefit, and if this work is blessed by a prophet or if any of the good messengers of God, or prophets are involved in some work even if this work appears to be a worldly work, then too this work has to be taken as God's work (where messengers of God or the prophets are involved as messengers of God or prophets). And whenever some God's work is in progress and if some another prophet knows that some good work is going on then this prophet should bless the project on prophet's own and ask for the heaven's help that the work gets complete in a good manner. But this prophet should not get

involved other than to pray for the project to get the good help from the heavens as well as the good people of the earth.

New ways - some new ways are not necessarily something totally new, as some good ways can also be some old ways that are already known to the good people of the earth but these ways are now used in some totally different ways, so that the new way of using some old ways are also called new ways.

A good way to welcome a prophet -

A good way to give some good prophet a good welcome when the good prophet is invited to speak about the good ways of God Almighty - First, all should stand up when the good prophet enters and then all should start by asking the good prophet to say a small prayer and if no one asks for this then prophet must, on prophet's own, say a small prayer and ask all to repeat after the good prophet. The prayer can be made up by the prophet, so it is up to the good prophet to say a few lines of some good prayer. After that if the prophet wants the prophet may take a seat and then at the same time all others can take a seat and if the prophet does not want to sit the prophet may ask others to sit. And then the prophet may say what the good prophet wants to say and no questions must be asked till the prophet has spoken. After that if the good prophet wants some questions to be answered, then the good prophet may ask and if there are no questions being asked for five minutes, then the good prophet may close the good session with a short prayer of blessing, and the prophet must ask God and all those present in the heavens to give all their blessings and after that all may disperse as they please. It is not necessary that the good prophet leave first or last.
